This book is useful for IGNOU MCA students. A perusal of past questions papers gives an idea of the type of questions asked, the paper pattern and so on, it is for this benefit, we provide these IGNOU MCS-031: Design and Analysis of Algorithm Notes. Students are advised to refer these solutions in conjunction with their reference books. It will help you to improve your exam preparations. This book covers Algorithm definition and specification – Design of Algorithms, and Complexity of Algorithms, Asymptotic Notations, Growth of function, Recurrences, Performance analysis – Elementary Data structures:- stacks and queues – trees – dictionaries – priority queues –sets and disjoint set union – graphs – basic traversal and search techniques. Divide – and – conquer:- General method – binary search – merge sort – Quick sort. The Greedy method:-General method – knapsack problem – minimum cost spanning tree – single source shortest path. Dynamic Programming – general method – multistage graphs – all pair shortest path – optimal binary search trees – 0/1 Knapsack – traveling salesman problem – flow shop scheduling. Backtracking:- general method – 8-Queens problem – sum of subsets – graph coloring – Hamiltonian cycles – knapsack problem – Branch and bound:- The Method – 0/1 Knapsack problem – traveling salesperson. Parallel models:-Basic concepts, performance Measures, Parallel Algorithms: Parallel complexity, Analysis of Parallel Addition, Parallel Multiplication and division, parallel. Evaluation of General Arithmetic Expressions, First-Order Linear recurrence. Published by MeetGoogle

This book is useful for IGNOU BCA & MCA students. A perusal of past questions papers gives an idea of the type of questions asked, the paper pattern and so on, it is for this benefit, we provide these IGNOU MCS-011: Problem Solving and Programming Notes. Students are advised to refer these solutions in conjunction with their reference books. It will help you to improve your exam preparations. This book covers Problem Solving with Computers: Algorithms, and Flowcharts. Data types, constants, variables, operators, data input and output, assignment statements, conditional statements, string and character handling, data validation examples. Iteration, arrays, strings processing, defining function, types of functions, function prototype, passing parameters, recursion. Storage class specifiers, pre-processor, header files and standard functions. Pointers: Definition and uses of pointers, pointer arithmetic, pointers and array, pointers and functions, pointer to pointer. Structures, union, pointers to structures, user-defined data types, enumeration. Data files: Opening, closing, creating, processing and unformatted data files. Introduction to Dynamic Memory Allocation, command line arguments, systems calls. Published by MeetGoogle

in the management of that process, e.G., A management information system. The first section deals with research and development. The second section deals with the problems of introducing and diffusing new technology in the health care system. The third deals with the impact and consequences of technology in health organization, and the final section with the problems of evaluation and values as these affect critical decision choices.

This E-book contains Solved Reference Answers for NIOS D.EL.ED 505 course. Features: 1. Answers are written as per NIOS DELED Standard. 2. As candidates have to attempt single question out of given option in Question, single part answer is given. 3.All three Assignments are given.

This book is useful for IGNOU MA PSYCHOLOGY first year groups of students. CHILDHOOD AND GROWING UP

The Management of Health Care

Innovation in Open and Distance Learning

Designed as per the latest NCERT syllabus and syllabi of several universities offering teacher education courses, the book incorporating 16 chapters is an up-to-date and comprehensive treatise, which deals with the basic as well as advanced topics of the field of knowledge and the field of contextualisation of knowledge (curriculum). In the opening chapters, knowledge is conceived and described in a broad perspective. This is followed by an extensive discussion on curriculum, including the various issues and concerns, different approaches, curriculum design, development and evaluation. A peep into the modern classrooms, shift in pedagogy and skill-based curriculum makes the book a complete organic entity for comprehensive understanding of the continuum of knowledge and curriculum. It is primarily intended for the undergraduate students of education and elementary education as well as for the postgraduate students of education. Moreover, teacher educators and researchers will also find the book useful. HIGHLIGHTS OF THE BOOK • Presents intensive analysis of the concepts in a logical sequence • Includes practical illustrations along with clear, concise and lucid language • Follows professional and analytical approach • Incorporates flowcharts, diagrams and chapter-end exercises • Comprises a bibliography at the end of the book TARGET AUDIENCE • B.Ed./M.Ed. • B.Sc.-B.Ed./B.A.-B.Ed. • B.El.Ed. • M.A. (Education)

This file contains answer for IGNOU Postgraduate Diploma in Information Security (PGDIS) January 2020 session assignments for Second semester students. Solved Reference answers are given for following PGDIS subject Codes: MSEI-25 to MSEI-27 Features: 1. Fully Solved Reference answers are provided in PDF Format. 2. Reference Answer are prepared from IGNOU Text-books and other books. 3. Answers are of High quality with typed content , according to Mentioned word limits. 4. Minimal Price, Quality answers ,Instant Download with purchase receipt. 5. For any kind of download or purchase issue, email support is available. 6. For individual file download please visit our website : <https://www.jobaffairs4u.com>

Written in an easy-to-understand style, the text has been thoroughly revised in tune with the spirit and need of the new nomenclature Pedagogy of Social Sciences in place of the old designation Teaching of Social Studies. It reflects on the theoretical knowledge and practical skills required to teach Social Sciences in an effective manner. Introducing new chapters, the second edition of the book mainly focuses on improving the methodological concepts of the Social Sciences teachers. In doing so, it covers various strategies and devices of teaching Social Sciences, e-learning in Social Sciences, e-learning resources in Social Sciences, and professional growth of the Social Sciences teacher. Besides, the chapters of the previous edition have been updated, with the required information given in various new sections. This book is suitable for a course on 'Pedagogy of Social Sciences' for the students of B.Ed. and M.A. (Education). It can also be used for the in-service teacher education programmes organized by the Central and State education boards. NEW TO THE SECOND EDITION □ In addition to the four new chapters, the book now incorporates several new sections: • Concept and meaning of the term Social Sciences; distinguishing the subject Social Sciences from Natural Sciences and the subject Social Studies; justification for using the term teaching/pedagogy of Social Sciences in place of teaching/pedagogy of Social Studies (Chapter 1) • Bloom's revised taxonomy, 2001 (Chapter 4) • Views of NCF and Focus Group (NCERT) about curriculum at the various stages of school education (Chapter 5) • Survey method and cooperative learning method for the teaching of Social Sciences (Chapter 7) • Reference books in Social Sciences (Chapter 9) • Atlases, newspapers, digital audio recorders and players and documentaries as instructional material or teaching aids (Chapter 11) • Question banks, grading system, open book examinations and use of rubrics as the means and ways for improving the evaluation programmes in Social Sciences (Chapter 23) □ Also, the chapter on 'Relationship of Social Studies with other Subjects' has been replaced with a more comprehensive and detailed chapter on 'Correlation in Social Sciences' (Chapter 6). KEY

FEATURES □ Chapter-end summary and study questions to help readers review the important topics and drill the concept discussed, respectively. □ Numerous figures and tables to facilitate easy understanding of the concepts. □ References and Suggested Readings to provide scope for further reading.

Features: 1. Fully solved answers are provided as per assignment instructions. 2. Answers are prepared from IGNOU Textbooks and other Reference books. 3. Answers are relevant to Questions not just blind copy paste. 4. All answers are given as per IGNOU norms and word limits.

A play about a schoolmaster at an English boarding school who must go into retirement due to ill health.

Weaving together concerns about environmental and social justice, Teaching as Activism brings together constructive demands for change and theoretical debate. Written by activists who also teach, the essays challenge the current pedagogical literature with proposals that would bring discussion of social and environmental responsibility into postsecondary science, the classroom, and the community. With backgrounds in feminist science and indigenous knowledges critiques, the contributors emphasize the importance of appreciating indigenous knowledges, recognizing our bias about how knowledge is presently produced, and integrating science with a human spiritual connection to nature. The goals are to question the legacies of colonialism, capitalism, and globalization and create a more inclusive interdisciplinary education. Contributors include Elisabeth Abergel (Glendon College), Marie Battiste (University of Saskatchewan), Vanaja Dhruvarajan (University of Winnipeg), Margrit Eichler (University of Toronto), Leesa Fawcett (York University), Ursula M. Franklin (University of Toronto), Marianne Gosztonyi Ainley (University of Northern British Columbia and University of Victoria), Moira Grant (University of

PART-I

A Play in One Act

SECOND SEMESTER

Teaching as Activism

Successful Development of Online and Web-based Learning

This volume draws together experiences in the application of technology to distributed learning. It offers an appraisal of the strategies and processes for managing change in open and distance learning and presents a progressive vision for all those involved in this widespread discipline. The premise of Dimensions of Learning an instructional framework founded on the best of what researchers and theorists know about learning is that five types, or dimensions, of thinking are essential to successful learning. These are (1) positive attitudes and perceptions about learning, (2) thinking involved in acquiring and integrating knowledge, (3) thinking involved in extending and refining knowledge, (4) thinking involved in using knowledge meaningfully, and (5) productive habits of mind. Dimensions of Learning is a valuable tool for reorganizing curriculum, instruction, and assessment. The authors discuss each of the five dimensions in detail and describe hundreds of teaching strategies that support them for example, how to help students construct meaning for declarative knowledge, internalize procedural knowledge, and see the relevance of what they are expected to learn. The authors provide many examples at the elementary and secondary classroom levels. Teachers of grades K-12 can use this information to improve teaching and learning in any content area.

This file contains answer for IGNOU Postgraduate Diploma in Information Security (PGDIS) January 2020 session assignments for First semester students. Solved Reference answers are given for following PGDIS subject Codes: MSEI-21 to MSEI-24 Features: 1. Fully Solved Reference answers are provided in PDF Format. 2. THE ASSIGNMENTS OF THE MASTER'S

IGNOU PGDIS SOLVED ASSIGNMENTS JANUARY 2020 SESSION

With reference to university degrees of India.

Actually the assignment of the master's which is the little of book what category book it is! And what is the intention of the author is these Questions are automatically created in the mind of the spectators and the audience also. When he will be the reader this book these questions automatically solve Actually the book is about world History and world politics both are combination of in this book. According to the syllabus of the Master degree of History of the Indira Gandhi National open university which is familiar with its short name IGNOU has been written by the global author Dr. Ansarul Hoque Khan who was the himself of the student of the IGNOU in the year 2010 and he has completed the master Degree in History (1st class) from this National university this enrolment number was course Name- MAH. Enrolment Number is - 083237654.

Family caregiving affects millions of Americans every day, in all walks of life. At least 17.7 million individuals in the United States are caregivers of an older adult with a health or functional limitation. The nation's family caregivers provide the lion's share of long-term care for our older adult population. They are also central to older adults' access to and receipt of health care and community-based social services. Yet the need to recognize and support caregivers is among the least appreciated challenges facing the aging U.S. population. Families Caring for an Aging America examines the prevalence and nature of family caregiving of older adults and the available evidence on the effectiveness of programs, supports, and other interventions designed to support family caregivers. This report also assesses and recommends policies to address the needs of family caregivers and to minimize the barriers that they encounter in trying to meet the needs of older adults.

Teaching Aptitude and Attitude Test Book

Indian Context

CHE-01 Atoms And Molecules

The Bachelor of Education (B.Ed.) programme of Indira Gandhi National Open University (IGNOU) has been designed with the aim to develop an understanding of teaching-learning process at secondary and senior-secondary level among student teachers. It focuses on enabling student-teachers to reflect critically on perspectives of education and integrate

holistically the theory and practices to facilitate active engagement of learners for knowledge creation. The present edition of "IGNOU B. Ed. Extreme exam 2020" book is prepared to provide perfect study material that is required to clear this entrance paper. This book provides Model Solved Papers of 2019 in the starting so as to give the estimate on what pattern the paper could come so that preparation could be done accordingly. The whole syllabus divided into 2 parts that is further divided into sections and chapters by giving the complete coverage of syllabus. Each segment is carries ample amount of practice questions for the best outcome in the exam. ABOUT THE BOOK Model Solved Paper 2019, PART – A: General English Comprehension, Logical & Analytical Reasoning Ability, Educational & General Awareness, Technical – Learning and The School, PART – B: Science, Mathematics, Social Science, English, Samanya Hindi. The prevailing global environmental crisis is primarily because of non-standardized parameters for environmental regulation. Unplanned expansion of economic activities, consideration for environmental conservation and several associated problems are emerging due to degradation in quality of ambient environment such as clean air, safe drinking water and quality of food, particularly in developing nations. Due to poor/casual execution of EIA protocol, newly developing countries are preferred destination for establishing pollution emitting industries, which results in degradation and depletion of natural resources. Lack of environmental policy intervention is another major attraction for establishing such industries in these nations. In order to ensure sustainable development, the highest priority issues include the monitoring and eradication of environmental problems which arise due to economic development. Initiation of any form of economic development primarily results in loss of forests and thus biodiversity, followed by deterioration in quality of air and contamination of natural resources. The worst impact of non-standardized economic development is the contamination of air, water and soil. Sustainable development ensures responsible interface with the environment to minimize the depletion or degradation of natural resources and ensure long term environmental quality. It involves integrated approaches in understanding the importance of environmental management systems and policy inventions leading to improved environmental performance. The present book is proposed to address the environmental concerns associated with economic development and approaches involved to attain sustainable economic development, which include monitoring of the quality of air, deforestation, quality of water resources, soil erosion and degradation of the natural environment.

The book, with comprehensive and practicable coverage, acquaints its readers with thorough knowledge and skills to help the growing children in their proper growth and development enabling them to reach the limit of their excellence on one hand, and instilling in them the sense of responsibility towards their society and nation on the other hand. It dwells on the essential topics such as nature of the process of growth and development going on at the various ages and developmental stages of children, their developmental needs and characteristics, individual differences and diversities existing among them, development of various abilities and capacities like intelligence, creativity, and overall personality

characteristics, nature of the age-linked behavioural problems, adjustment and mental health, parenting styles, and methods of dealing with the behavioural problems, adjustment, and stressful conditions of the developing children. The text equips the readers with all what is in demand for helping the developing children at this juncture of rapid industrialisation, globalisation, urbanisation, modernisation and economic change. It is primarily designed for the undergraduate students of education and elementary education. **KEY FEATURES** • Incorporates quite advanced topics such as emotional intelligence, use of reflective journals, anecdotal records and narratives as method of understanding child's behaviour, and so on • Includes detailed discussion of theories of child development, theories of learning, theories of intelligence, theories of achievement motivation, theories of creativity, and theories of personality • Offers engaging language and user-friendly mode of discussion • Adequately illustrated with examples, figures and tables • Comprises chapter-end summary for quick glance of the concepts.
