***manhunts in American history takes readers behind the headlines into the notorious “D.C. sniper” case that held the nation spellbound. In October 2002, ordinary Americans feared for their lives, too frightened to pump gas at the local station or let their children play outside. For twenty-three nightmarish days, a series of random sniper killings terrorized the Washington, D.C. area and launched the largest manhunt in American history—under the harsh glare of a media frenzy. Three Weeks in October follows Charles Moose’s efforts to crack a seemingly unsolvable case. As a stunned nation watched, Chief Moose stood tall in the face of horrific events—a courageous presence whose tenacity brought snipers John Allen Muhammed and Lee Boyd Malvo to justice. But this is also the inspirational story of Moose’s rise from a young African American cop battling prejudice to a respected chief of police—who couldn’t stop until he captured two of the most bizarre killers America has ever known. “Compelling . . . A very candid story . . . Well worth reading.”—The Washington Post “Fascinating.”—The Daily Oklahoman “Gutsy, endearing, no-nonsense . . . [cuts] through all the hubbub to show that behind the provocative headlines was little more than a simple, heartfelt man just trying to do the best job he could.”—Publishers Weekly***

**SIR HUBERT WILKINS (1888-1958) was an Australian adventurer who gained international renown for his pioneering flights in the Arctic and Antarctic. In 1942, after having shifted his sphere of activities from polar exploration to working for the United States Army and various government agencies, he was introduced to the Urantia revelation. This revelation consisted of thousands of pages of manuscript said to have been transmitted by superhuman beings through an anonymous man living in Chicago. The enormous text was in the custody of a Chicago physician, William S. Sadler, who formed a secret group, the Forum, to study it. Wilkins became a member on March 5, 1942.**

**Enthralled by his initial readings, he pored over the manuscript during his periodic visits to Chicago. In 1945 he began to keep a notebook, into which he copied passages from the text that he found especially significant or inspiring. When the Urantia Book was finally published in 1955, Sir Hubert was able to retrieve the notebook, which until then had been stored at Dr. Sadler's residence in Chicago. It was rediscovered in 2014, and is now being made public. It is a unique remnant of a largely obscure period in the history of the Urantia Book and its readership. Sir Hubert Wilkins was certainly the first internationally known person to embrace the Urantia text as a major revelation to this planet. This notebook is a testament to Wilkins' devoted study of a book that answered his most vital questions**

and gave him a new lens through which to view his own adventurous life.

**This is a book about the big questions in life: knowledge, consciousness, fate, God, truth, goodness, justice. It is for anyone who believes there are big questions out there, but does not know how to approach them. Think sets out to explain what they are and why they are important. Each chapter explains a major issue, and gives the reader a self-contained guide through the problems that philosophers have studied. The large scope of topics covered range from scepticism, the self, mind and body, and freedom to ethics and the arguments surrounding the existence of God. Lively and approachable, this book is ideal for all those who want to learn how the basic techniques of thinking shape our existence.**

In this #1 New York Times bestseller, Nora Roberts takes readers deep into the rugged hills of South Dakota, where the shadows keep secrets, hunters stalk the land, and a friendship matures into something more.... Cooper Sullivan spent the summers of his youth on his grandparents' South Dakota ranch, sharing innocent games and stolen kisses with the neighbor girl, Lil Chance. Now, twelve years after they last walked together hand in hand, fate has brought them back to the Black Hills. Though the memory of Coop's touch still haunts her, Lil has let nothing stop her dream of opening the Chance Wildlife Refuge, but something—or someone—has been keeping a close watch. When small pranks and acts of destruction escalate into a heartless attack on Lil's beloved cougar, memories of an unsolved murder have Coop springing to action to keep Lil safe. Both of them know the natural dangers that lurk in the wild landscape of the Black Hills. But a killer of twisted and unnatural instincts has singled them out as prey....

An initiate's guide to the healing practices, spiritual exercises, and secret rites of the Mother Mantra tradition • Explains the practice of the Mother Mantra, which allows us to overcome subconscious programming, release our fears, and awaken to the dream nature of reality • Includes instructions for the practice of the Egyptian mantra to attract wealth and abundance and the

Mystical Marriage Mantra for transformation and rebirth • Presents five spiritual rituals that can be incorporated into daily life to reestablish the universal balance between humanity and the divine. Hidden at the heart of nearly all spiritual and esoteric traditions lies the powerful teachings of the Mother Mantra. Its initiates have preserved its consciousness-expanding techniques for millennia. Originating in the ancient practice of shamanic yoga, this tradition allows us to perceive the full complexity of reality. It helps us see both the visible and the invisible, moving beyond the consciousness of duality that limits us to only the material world. Operating in this heightened state of non-ordinary consciousness, we can see beyond our subconscious programming and behavior patterns and understand our possibilities and powers. By removing all fear, it allows you to love yourself exactly as you are. In this spiritual and philosophical guide, initiate Selene Calloni Williams shares the healing practices and spiritual exercises of the Mother Mantra tradition. She explains how these practices bypass the thinking mind to access our higher spiritual consciousness, allowing us to awaken to the dream nature of reality and release us from all fear. She details the exercises and practices of the four-part Mother Mantra: The first series, which dissolves the constructs of the ego; the second, which invokes ancient spirits and deities for their aid in this endeavor; the third, where we experience a divine androgynous tantric union to transcend sexual identity and spiritually fuse with the divine; and the fourth, where the first three rituals are combined to unlock an expanded state of consciousness and a true seeing of the complexity of both the visible and invisible worlds. The author also describes the practice of the Egyptian mantra, a soul-making ceremony that unites the initiate with the Chthonian realms and attracts wealth and abundance, and the

Mystical Marriage Mantra, which opens a path to authentic transformation and rebirth. Additionally, Williams presents five spiritual rituals, including yogic poses and exercises, that can be incorporated into daily life to allow divine communication through the chakras, awaken the mind and body from the aging process, and reestablish the universal balance between humanity and the divine.

Once, all life in the universe knew the Flower of Life as the creation pattern - the geometrical design leading us into and out of physical existence. Then from a very high state of consciousness we fell in darkness and forgot who we were. For thousands of years the secret was held in ancient artifacts and carvings around the world, and encoded in the cells of all life. Here Drunvalo Melchizedek presents in text and graphics the first half of the Flower of Life Workshop, illuminating the mysteries of how we came to be, why the world is the way it is and the subtle energies that allow our awareness to blossom into its true beauty. Sacred Geometry is the form beneath our being and points to a divine order in our reality. We can follow that order from the invisible atom to the infinite stars, finding ourselves at each step. The information here is one path, but between the lines and drawings lie the feminine gems of intuitive understanding. Explore the miracle of our existence by meandering through the wonderland of geometry, science, ancient history and new discovery, seen through the widened vision of Drunvalo and the Flower of Life. Volume 2 will explore in great detail the Mer-Ka-Ba, the 55-foot-diameter energy field of the human lightbody. This knowledge leads to ascension and the next dimensional world. About the Author Drunvalo Melchizedek's life experience reads like an encyclopedia of breakthroughs in human endeavor. He studied physics and art at the University of California at Berkeley, but he personally feels that his most important education came after college. In the last 25 years he has

studied with over 70 teachers from all belief systems and religious understandings, providing him with a wide breadth of knowledge, compassion and acceptance. Not only is Drunvalo's mind exceptional, but his heart, his warm personality, his love for all life everywhere, is immediately understood and felt by anyone who meets him. For some time now he has been bringing his vast vision to the world through the Flower of Life program and the Mer-Ka-Ba meditation.

This book describes the paleomagnetism of sediments and sedimentary rocks, how sediments and sedimentary rocks become magnetized, and how the physical and chemical processes involved can affect the accuracy of paleomagnetism. Topics covered include depositional and post-depositional remanence acquisition, the detection and correction of compaction-caused inclination shallowing, reduction diagenesis of magnetic minerals, chemical remagnetization, and rotation of remanence by grain-scale rock strain. The book also has a chapter on environmental paleomagnetism, including examples of the new technique of high-resolution rock magnetic cyclostratigraphy and its application to sedimentary sequences. By emphasizing the accuracy of sedimentary paleomagnetism and the magnitude of post-depositional processes that can affect it, the book will be invaluable in the geologic interpretation of sedimentary paleomagnetic data. Paleomagnetism of Sedimentary Rocks will be welcomed by paleomagnetists, students of paleomagnetism and all Earth scientists who use sedimentary paleomagnetic data in their research.

Mantle or Mays? A-Rod or Jeter? Biggio or Morgan? Clemens, Maddux, and Randy Johnson -- or Pedro, Palmer, and Carlton? These are questions baseball fans can spend endless hours debating. Former All-Star pitcher and National League Manager of the Year Larry Dierker has his own opinions, and he shares them in *My Team*, his fascinating discussion of the greatest players he has seen in his four decades in the major leagues. Dierker selects twenty-five players for *My Team* and another twenty-five for the opposition, the Underdogs, or "Dogs." There are two players at each position, five starting pitchers, and four

relievers. (When your starters are the likes of Roger Clemens, Greg Maddux, Bob Gibson, Tom Seaver, Nolan Ryan, and Juan Marichal, you don't worry about bullpen depth.) All are players that Dierker has played with or against or watched in his years as player, coach, manager, and commentator. Each athlete must have played at least ten years in the major leagues to qualify, and players are judged on their ten best seasons. Leadership skills and personality -- critical components of team chemistry -- are highly valued. So how is it possible to select two teams composed of outstanding ballplayers from the past forty years and not have room for Sandy Koufax, Reggie Jackson, Carl Yastrzemski, or Cal Ripken Jr.? Dierker explains his choices, analyzing each position carefully, always putting the team ahead of the individual player. He provides statistics to back up his selections, and often relates personal anecdotes about the players. (From his first All-Star Game in 1969, Dierker offers a wonderful anecdote about Hank Aaron, by then an All-Star veteran.) My Team may start more debates than it settles, but Dierker's insights, and his passion for the game, will enlighten and fascinate true baseball fans.

One of the preeminent political philosophers of the 20th century makes a compelling argument for the political cogency of literary writing in this book which among to his intellectual autobiography and an introduction to

his work.

Freddie Mercury was rock's most dazzling showman, a legendary entertainer who in 1991, at the age of just forty-five, became the first major music star to die of AIDS. Mercury's soaring four-octave voice was a defining element in Queen's unique sound, crucial to the success of the band's fifteen studio albums, from Queen (1973) to Made in Heaven (1995). He was also a supremely talented songwriter and musician who wrote many of the band's greatest hits, including 'Killer Queen', 'We Are the Champions' and their biggest triumph, the epic anthem 'Bohemian Rhapsody'. As a solo artist he released two acclaimed albums: Mr. Bad Guy in 1985 and the operatic 'Barcelona' with Spanish soprano Montserrat Caballé in 1988. Mercury's extraordinary charisma was perhaps best seen in his imperious live performances, in which he'd hold vast stadium crowds to rapturous attention. His outrageous theatrics, physicality and over-the-top costumes led one commentator to describe him as 'a performer out to tease, shock, and

ultimately charm his audience with various extravagant versions of himself'. He pushed the limits of camp in everything he did. His extreme behaviour, in a society in which being gay was only starting to be accepted, just added to Freddie Mercury's allure. With expert understanding, Mark Blake traces Mercury's life from his childhood in Zanzibar and India to his untimely death, and charts his astonishing achievements including in Queen's world-conquering performance at Live Aid in 1985. In the year that marks what would have been his seventieth birthday, *Freddie Mercury: A Life* celebrates a remarkable life, lived to the fullest. Featuring revealing interviews with fellow musicians, producers and collaborators, and a detailed discography and timeline, this is a memorable tribute to a unique recording artist and an irreplaceable performer who rocked the world.

How Boston radio station WBCN became the hub of the rock-and-roll, antiwar, psychedelic solar system. While San Francisco was celebrating a psychedelic

Summer of Love in 1967, Boston stayed buttoned up and battened down. But that changed the following year, when a Harvard Law School graduate student named Ray Riepen founded a radio station that played music that young people, including the hundreds of thousands at Boston-area colleges, actually wanted to hear. WBCN-FM featured album cuts by such artists as the Mothers of Invention, Aretha Franklin, and Cream, played by announcers who felt free to express their opinions on subjects that ranged from recreational drugs to the war in Vietnam. In this engaging and generously illustrated chronicle, Peabody Award-winning journalist and one-time WBCN announcer Bill Lichtenstein tells the story of how a radio station became part of a revolution in youth culture. At WBCN, creativity and countercultural politics ruled: there were no set playlists; news segments anticipated the satire of *The Daily Show*; on-air interviewees ranged from John and Yoko to Noam Chomsky; a telephone "Listener Line" fielded questions on any subject, day

and night. From 1968 to Watergate, Boston's WBCN was the hub of the rock-and-roll, antiwar, psychedelic solar system. A cornucopia of images in color and black and white includes concert posters, news clippings, photographs of performers in action, and scenes of joyousness on Boston Common. Interwoven through the narrative are excerpts from interviews with WBCN pioneers, including Charles Laquidara, the "news dissector" Danny Schechter, Marsha Steinberg, and Mitchell Kertzman. Lichtenstein's documentary WBCN and the American Revolution is available as a DVD sold separately.

***collection of forty-two parables of Jesus is drawn entirely from The Urantia Book. It is presented in a beautifully designed layout and illustrated with modern photographic compositions and classic works of art. It is sure to become a favorite volume for those seeking to better understand and benefit from Jesus' teachings. Jesus was a teacher who taught as the occasion served; he was not a systematic teacher. Jesus taught not so much from the law as from life, by parables. This was especially true during the last year of his public ministry as the parable allowed him to present new and startling truths to those who desired to know the better way while at the same time affording his enemies less opportunity to find cause for offense and for accusations against him. These parables represent a mighty storehouse of moral and spiritual teachings which have come down through the ages unblemished by the doctrines and dogmas of men. They are, quite simply, a pearl of great price. For nearly two centuries, a cancer has been eating away at biblical truth. That can be said in many fields, but there is one cancer that is particularly chameleon-like in that it masquerades as supremely biblical, and condemns all other views as deficient - the belief in a so-called 'Pre-Tribulation' rapture. Its proponents wield a huge array of atomized proof texts and seemingly biblical concepts such as 'imminence', and carry the popular conservative evangelical culture with them. Here theologian Nathanael Lewis, who has written three extensively***

***researched books on the subject - \* 'Rapture Rupture: The Big Lie behind 'Left Behind' Exposed' \* 'Falsifying the Fathers' \* 'The Rapture Trap' ... offers a short, simple but not simplistic work that examines three key passages as a whole, plus one bible verse that together show the real Rapture teaching of the Bible, one that is the complete opposite of the 'Left Behind' heresy, and that has real, eternal implications for Christians living in the last days. He shows how Paul in his letters to the Thessalonians follows in detail the teaching of Jesus in Matthew 24, and also how the very first thing Jesus did in teaching his disciples about the last days was to warn against false teachers preaching 'imminence' - which is the beating heart of the Pre-Tribulation doctrine. In fact, Jesus' warning about such teachers was simple: 'Do not be deceived ... Do not follow them.' It is time we heeded Jesus' warning, and this book is a great place to start. Nathanael Lewis is a sinner saved by grace, a flawed but loved adopted son of the Heavenly Father, a theologian, a poet, a musician and composer, and a human rights activist and champion for persecuted Pakistani Christians.
