***Sicilian Elements in Andrea Camilleri's Narrative Language examines Camilleri's unique linguistic repertoire and techniques over his career as a novelist. It focuses on the intensification of Sicilian linguistic features in Camilleri's narrative works, in particular features pertaining to the domains of sounds and grammar, since these have been marginalized in linguistic-centered research on the evolution of Camilleri's narrative language and remain overall***

***understudied. Through a systematic comparative analysis of the distribution patterns of selected Sicilian features in a selection of Camilleri's historical novels and novels of the Montalbano series, the author identifies the individual features that have become most widespread and the lexical items that are targeted with highest frequency and consistency. The results of the analysis show that in the earlier novels, Sicilian features are rather sparse and can be attributed to***

***linguistic situational functionality; that is, they function as indices of salient, distinctive aspects of topics, settings, events/situations, and characters.***

***Conversely, in the latest novels, Sicilian elements pervade the entire novels and the texts are written almost entirely in Camilleri's own Sicilian, vigatese, so that Sicilian is stripped of any linguistic situational functionality.***

This book is the first collection of multi-disciplinary research on the experience of Italian-Jewish musicians and composers in Fascist Italy. Drawing together seven diverse essays from both established and emerging scholars across a range of fields, this book examines multiple aspects of this neglected period of music history, including the marginalization and expulsion of Jewish musicians and composers from Italian theatres and conservatories after the 1938-39 Race Laws, and their subsequent exile and persecution. Using a variety of critical perspectives and innovative methodological approaches, these essays reconstruct

and analyze the impact that the Italian Race Laws and Fascist Italy's musical relations with Nazi Germany had on the lives and works of Italian Jewish composers from 1933 to 1945. These original contributions on relatively unresearched aspects of historical musicology offer new insight into the relationship between the Fascist regime and music. .

Reginald Pole (1500-1558), cardinal and archbishop of Canterbury, was at the centre of reform controversies in the mid 16th century - antagonist of Henry VIII, a leader of the reform group in the Roman Church, and nearly elected pope (Julius III was elected in his stead). His voluminous correspondence - more than 2500 items, including letters to him - forms a major source for historians not only of England, but of Catholic Europe and the early Reformation as a whole. In addition to the insight they provide on political history, both

secular and ecclesiastical, and on the spiritual motives of reform, they also constitute a great resource for our understanding of humanist learning and cultural patronage in the Renaissance. Hitherto there has been no comprehensive, let alone modern or accurate listing and analysis of this correspondence, in large part due to the complexity of the manuscript traditions and the difficulties of legibility. The present work makes this vast body of material accessible to the researcher, summarising each letter (and printing key

texts usually in critical editions), together with necessary identification and comment. The first three volumes in this set will contain the correspondence; the fourth and fifth will provide a biographical companion to all persons mentioned, and will together constitute a major research tool in their own right. This first volume covers the crucial turning point in Pole's career: his protracted break with Henry and the substitution of papal service for royal. One major dimension of this rupture was a profound religious conversion
