The Squiggle Code Books are easy for parents to use, fun for kids, and follow the science of learning to read. With lots of printable games, flashcards, and other materials that can be downloaded from www.dogonalogbooks.com, this series was created to be economical for families and teachers. All DOG ON A LOG Books follow a systematic, structured literacy/Orton-Gillingham based phonics sequence. This book is a kid-friendly collection of the stories from The Squiggle Code. Trying to find a way to teach your child to read, whether you are supplementing what your child is being taught in school or as a homeschooling family, can feel overwhelming. DOG ON A LOG Pup Books are written by a mom who wants to try and eliminate some of those feelings for other parents. These parent-friendly books will guide you along the path of teaching reading. DOG ON A LOG Pup Books give simple activities you can do with your child. Once you understand the skills that your child needs to learn, you may wish to add additional activities. Resources are suggested that will help you find additional free or low-cost activities you can personalize to your child. Book 1: Before the Squiggle Code (A Roadmap to Reading) starts at the very beginning of the learning to read process: it helps the learner hear the smallest sounds in words. Relevant

excerpts from Teaching a Struggling Reader: One Mom's Experience with Dyslexia are also included to help parents with children who are struggling to read. Book 2: The Squiggle Code (Letters Make Words) helps the learner discover that each sound has a letter or letters and when the letters are put together, they make words. This is when reading begins. Book 3 Kids' Squiggles (Letters Make Words) The stories from The Squiggle Code are formatted with pictures and less words per page so they are less intimidating to new readers. There are a lot of children (and adults) who struggle with reading. Some are helped by their schools, some are not. In this short booklet, Pamela Brookes shares some of the basic information she wishes she'd had when she was first trying to figure out how to help her child learn to read. *Teaching A Struggling Reader: One Mom's Experience with Dyslexia* is filled with links to informational and product resources for parents or teachers. It is geared to people who want to educate themselves in the methods that are effective in teaching those with dyslexia. It also contains photos demonstrating basic techniques like "Tapping" (using one's fingers to aid in sounding out words) and "Making your bed" to differentiate between "b" and "d." This Third Edition includes new information and new links including the social and economic impacts of illiteracy. It also contains information on Early Intervention, including what parents can do if they suspect their young child may have dyslexia during the toddler and preschool years, and a section on What if It's NOT Dyslexia. This is a booklet that can be read in one sitting. However, there are ample links to provide an even greater experience. The hyperlinks are active in the e-book format. All DOG ON A LOG Books follow a systematic, structured literacy/Orton-Gillingham based phonics sequence.

Sixty-five percent of U.S. fourth graders are not proficient readers because their teachers have not been taught how to teach reading using evidence-based methods. Up to 20% of children have dyslexia. Few receive the individualized teaching they need from their schools. To help parents and teachers who want to teach their children using an evidence-based, effective method, Pamela Brookes, the mother of a child with dyslexia, discusses their daily routine as she teaches her daughter to read using the decodable DOG ON A LOG Books series. As the

author of DOG ON A LOG Books, Pamela also shares how to choose where in the series to start. She shares how she teaches each of the phonics rules used in the book series along with the reasons for teaching the syllable types and handwriting. Although this booklet is meant to guide parents and teachers using DOG ON A LOG Books, the information can be adapted and applied to any systematic series of decodable books. How to Use Decodable Books to Teach Reading is edited by Dr. Nancy Mather, a professor in learning disabilities, reading, and writing to make sure it follows the scientific research on teaching reading. This edition includes information on Steps 1 to 10 of the DOG ON A LOG phonics rules. Additional steps will be added as the future decodable chapter books are created. All DOG ON A LOG Books follow a structured literacy/Orton-Gillingham based phonics sequence. You can download printable gameboards, flashcards, and other literacy materials at www.dogonalogbooks.com.

School Success for Kids With Dyslexia and Other Reading Difficulties
For Phonics Readers and Dyslexia/Dyslexic Learners

Mackie Ramsay's reading program is Magic! Our son was struggling with reading in second grade when Mackie began working with him for twenty minutes a day. In just six weeks there was not only rapid improvement, but he became very excited about reading for the very first time. He looked forward to each lesson and eagerly learned the 'secrets' that gave him

access to the mastery of his letters. Now he is eleven and is devouring adult fiction, the more pages the better. He is in the highest reading and spelling programs in his class. I have recommended Mackie to many of our son's friends with similar results. It is a great gift that Mackie gives - the gift of not only reading well, but of reading with JOY. —Alexandra Kennedy, MA, MFT, psychotherapist and author of *Losing a Parent* (Harper Collins, 1991). CD Alphabet Adventures included inside the back cover. Lyrics Mackie Ramsay, and MaryLee Sunseri. Music composition by MaryLee Sunseri, singer/ songwriter and the winner 2 American Library Notables, and 4 Parents Choice Awards for young children's music. The songs on the disc that accompany this book are absolutely entrancing—a perfect way to reinforce the letters for children. Each song is unique and beautifully produced — I find myself singing them all the time! —Barbara Lopez, Music Instructor, Cabrillo College. Composer, “Body Songs.” Published by Harper Collins in the “Health for Life” program, grades K -3. Finally, a delightful book series that helps kids learn phonics rules step by step. In the words of Aldous Huxley, "Every man who knows how to read has it in his power to magnify himself, to multiply the ways in which he exists, to make his life full, significant and interesting." Few people question the value of reading; in fact, most extol its virtues. As our culture becomes more complex, reading plays an increasingly greater role in satisfying personal needs and in promoting social awareness and growth. In the last 20 years, the teaching of this invaluable skill has focused so intensely on comprehension and prediction from context that it has lost sight of the significance of automaticity and fluency in the word-identification process. Reading is a synthesis of word recognition and comprehension; thus, this text is about these basic processes and their integration. A common plea from teachers

today is that research and psychology be translated into teaching behavior. Therefore, the aim of this book is twofold: one, to identify, report, organize, and discuss those bits of data, research and theory that are most relevant to the teacher's understanding of the reading process; and two, to help educators to interpret and apply theory and research data to everyday classroom teaching, as well as to the problems encountered frequently in developmental and remedial teaching.
