The integrity of tax systems as we know them are being challenged throughout the world. Tax avoidance schemes of various kinds are proving increasingly attractive and lucrative to wealthy individuals and large corporations. As governments fear the erosion of their tax base among those who are most able to contribute, the public is looking on, as one of its most public institutions attempts to re-invent itself through changing laws and administrative procedures. In this book, a number of experts develop the idea of responsive regulation in relation to taxation. They demonstrate how law in this area is undermining social norms and social norms are undermining law. A key factor in their analysis is the perception of justice. Explanations as to why the integrity of tax systems is under siege, and possible solutions, are examined.

**'It is hard to imagine anyone succeeding more gracefully in producing a balanced overview than Abraham Eraly' —William Dalrymple, Sunday Times, London In The Mughal World Abraham Eraly continues his fascinating chronicle of the grand saga of the Mughal Empire. **story of the lives and achievements of the great Mughal emperors; in this book, he looks beyond the momentous historical events to portray, in precise and vivid detail, the agony and ecstasy of life in Mughal India. Combining scholarly objectivity with artful storytelling the author presents a lively panorama of the Mughal world—emperors and nobles at work and play; harem life; the profligacy and extravagance of the ruling class juxtaposed with the stark wretchedness of the common people. Meticulously researched and lucidly narrated The Mughal World offers rare insights into the state of the empire’s economy, religious policies, the Mughal army and its tactics, and the glories of Mughal art, architecture, literature and music.**

**Different aspects of the Mughal Empire-its power, wealth, stability, territoriality, exquisite, surreal character, and also its 'decline'-have engaged historians for several decades in a complex, contentious debate. This volume attempts to understand the divergent views and discussions that surround the withering of the empire and focuses on the different paradigms and assumptions that have shaped the interpretations on the decline of the Mughal Empire. **Tax evasion is a complex phenomenon which is influenced not just by economic motives but by psychological factors as well. Economic-psychological research focuses on individual and social representations of taxation as well as decision-making. In this 2007 book, Erich Kirchler assembles research on tax compliance, with a focus on tax evasion, and integrates the findings into a model based on the interaction climate between tax authorities and taxpayers. The interaction climate is defined by citizens' trust in authorities and the power of authorities to control taxpayers effectively; depending on trust and power, either voluntary compliance, enforced compliance**

**Sufism is often regarded as standing mystically aloof from its wider cultural settings. By turning this perspective on its head, Indian Sufism since the Seventeenth Century reveals the politics and poetry of Indian Sufism through the study of Islamic sainthood in the midst of a cosmopolitan Indian society comprising migrants, soldiers, litterateurs and princes. Placing the mystical traditions of Indian Islam within their cultural contexts, this interesting study focuses on the shrines of four Sufi saints in the neglected Deccan region and their changing roles under the rule of the Mughals, the Nizams of Haydarabad and, after 1948, the Indian nation. In particular Green studies the city of Awrangabad, examining the vibrant intellectual and cultural history of this city as part of the independent state of Haydarabad. *An Introduction to the Study of Literature sets forth, in a simple and lucid manner, the issues and questions to be kept in mind while studying the vast canon of English literature. It takes much of its substance from a series of twenty - five lectures delivered before University Extension audiences at the Municipal Technical Institute, West Ham and the Polytechnic, Woolwich. This book compresses the matter from these lectures, along with a good deal of additional information, to provide a compact and handy guide that should prove extremely useful to new students of literature as well as veterans in the subject. **Over the past three decades, Uzbekistan has attracted the attention of the academic and policy communities because of its geostrategic importance, its critical role in shaping or unshaping Central Asia as a region, its economic and trade potential, and its demographic weight: every other Central Asian being Uzbek, Uzbekistan's political, social, and cultural evolutions largely exemplify the transformations of the region as a whole. And yet, more than 25 years after the collapse of the Soviet Union, evaluating Uzbekistan's post-Soviet transformation remains complicated. Practitioners and scholars have seen access to sources, data, and fieldwork progressively restricted since the early 2000s. The death of President Islam Karimov, in power for a quarter of century, in late 2016, reopened the future of the country, offering it more room for evolution. To better grasp the challenges facing post-Karimov Uzbekistan, this volume reviews nearly three decades of independence. In the first part, it discusses the political construct of Uzbekistan under Karimov, based on the delineation between the state, the elite, and the people, and the tight links between politics and economy. The second section of the volume delves into the social and cultural changes related to labor migration and one specific trigger - the difficulties to reform agriculture. The third part explores the place of religion in Uzbekistan, both at the state level and in society, while the last part looks at the renegotiation of collective identities.**

The bases of the most important taxes, such as Personal and Corporate Income Tax and the General Sales Tax (GST), continue to be narrow and the level of tax evasion remains high. Moreover, in recent years, the Tax-to-GDP (Gross Domestic Product) ratio has seen a substantial decline. On the other hand, most of the macroeconomic fiscal adjustment in recent years has been on the expenditure side of the budget. The country's need for spending on social services such as education, health, and capital infrastructure are likely to increase in the near future as governments pursue a strategy of sustained economic growth. Most political manifestoes brought forward by political parties spell out major expenditure programmes while expressing a desire to increase tax collection. To reach the desired taxation level in Pakistan, an in-depth policy reforms programme needs to be formulated by policymakers. This will require a detailed analysis of tax structures and tax administration. An attempt has been made in this book to provide the necessary analysis.***

***Culture of Encounters documents the fascinating exchange between the Persian-speaking Islamic elite of the Mughal Empire and traditional Sanskrit scholars, which engendered a dynamic idea of Mughal rule essential to the empire's survival. This history begins with the invitation of Brahman and Jain intellectuals to King Akbar's court in the 1560s, then details the numerous Mughal-backed texts they and their Mughal interlocutors produced under emperors Akbar, Jahangir (1605-1627), and Shah Jahan (1628-1658). Many works,***

***including Sanskrit epics and historical texts, were translated into Persian, elevating the political position of Brahmans and Jains and cultivating a voracious appetite for Indian writings throughout the Mughal world. The first book to read these Sanskrit and Persian works in tandem, Culture of Encounters recasts the Mughal Empire as a polyglot polity that collaborated with its Indian subjects to envision its sovereignty. The work also reframes the development of Brahman and Jain communities under Mughal rule, which coalesced around carefully selected, politically salient memories of imperial interaction. Along with its groundbreaking findings, Culture of Encounters certifies the critical role of the sociology of empire in building the Mughal polity, which came to irrevocably shape the literary and ruling cultures of early modern India.***

Description: William Irvine's *Later Mughals* is an outstanding narrative of the period following the death of Aurangzeb in 1707. It covers the period from the time of Bahadur Shah I, who ascended the Mughal throne in 1707 and continued to rule till 1738, when Muhammad Shah became the emperor. The tumultuous period between the years 1738-39 when Nadir Shah invaded India and occupied Delhi after defeating Muhammad Shah has also been covered. This book is an excellent introduction to the period and is essential reading for students inducted in order to complete the survey of this important phase of Indian history. Published on a grand scale, the present work is based entirely on the original Persian and other contemporary sources besides the mass of information gathered from the East India Company records of the Dutch, French and Portuguese governments as well as the Christian Missions.

East. The outcome of this painstaking research, Later Mughals, however, could be covered only up to 1739, even though Irvine had planned to cover the entire rule of the later Mughals. In the first of the two volumes, Irvine covers the period from Bahadur Shah, who ascended the Mughal throne in 1707, to the brief rule of Rafi-ud-darjat and Rafi-ud-daulah and the death of the latter in September 1719. The second volume deals with the period beginning with accession of Muhammad Shah to the throne; in the final chapters the events connected with the rise and progress of Nadir Shah and his departure from Delhi have been discussed. The array of details, culled from various sources, have been presented by William Irvine with objectivity and scholarship. It is thus a permanent source-book for the history of the Mughal rulers. It embodies the varied information provided by the various contemporary sources which Irvine verified and supplemented by carefully sifting the information from the accounts of individual travellers and writers.

*alongside his heroic achievement, both makes this statesman accessible to the current age and renders his greatness even clearer than before. Four men shaped the end of British rule in India: Nehru, Gandhi, Mountbatten and Jinnah. We know a great deal about the first three, but Mohammed Ali Jinnah, the founder of Pakistan, has mostly either been ignored or, in the case of Richard Attenborough's hugely successful film about Gandhi, portrayed as a cold megalomaniac, bent on the bloody partition of India. Akbar Ahmed's major study redresses the balance. Drawing on history, semiotics and cultural anthropology as well as more conventional biographical techniques, Akbar S. Ahmad presents a rounded picture of the man and shows his relevance as contemporary Islam debates alternative forms of political leadership in a world dominated (at least in the Western media) by figures like Colonel Gaddafi and Saddam Hussein. *The Mughal emperor Aurangzeb Alamgir is one of the most hated men in Indian history. Widely reviled as a religious fanatic who sought to violently oppress Hindus, he is even blamed by some for setting into motion conflicts that would result in the creation of a separate Muslim state in South Asia. In her lively overview of his life and influence, Audrey Truschke offers a clear-eyed perspective on the public debate over Aurangzeb and makes the case for why his often-maligned legacy deserves to be reassessed. Aurangzeb was arguably the most powerful and wealthiest ruler of his day. His nearly 50-year reign (1658–1707) had a profound influence on the political landscape of early modern India, and his legacy—real and imagined—continues to loom large in India and Pakistan today. Truschke evaluates Aurangzeb not by modern standards but according to the traditions and values of his own time, painting a picture of Aurangzeb as a*
