The purpose of this Guide is to explain the nature and objectives of the General Data Dissemination System (GDDS), to describe its operation, and to provide practical guidance to International Monetary Fund (IMF) member countries on participation in the system. The GDDS provides members with a basic framework for a broader national statistical development strategy. It covers a set of statistics recognized to be essential for all countries for policymaking and analysis in an environment that increasingly requires relevant, comprehensive, accurate, and timely statistics available to the general public. The GDDS addresses the full range of issues critical for compiling and disseminating data and making explicit plans for improvement to align national procedures with best practices. This version of the Guide supersedes the version of June 2007. It takes on board the decisions made by the IMF's Executive Board at the time of the Seventh Review of the Fund's Data Standards Initiatives in December 2008 to align the GDDS and Special Data Dissemination Standard (SDDS) data categories. At that time, the Executive Board also decided to further enhance the GDDS to focus more on data dissemination, both to provide immediate benefit to a country's policymakers and to facilitate a country's graduation to the SDDS. In February 2012, at the time of the Eighth Review of the Fund's Data Standards Initiatives, the Executive Board decided to leverage the plans for improvement by focusing further and prioritizing the delivery of technical assistance in statistics. The Guide is expected to continue to be updated as the GDDS evolves. 6th International Conference, AMT 2010, Toronto, Canada, August 28-30, 2010, Proceedings

British Movie Entertainments on Vhs and DVD: A Classic Movie Fan's Guide

"This is the book with which to gain a full and thorough understanding of the wonderful world of cruising. Repeat cruisers and novices alike will gain from the volume of features, menus, daily schedules, photos, as well as details on every cruise ship and port of call throughout the world. This should be the encyclopedia for any cruise aficionado. (World of Cruising)"--Amazon.com.

Unlike their American colleagues, British suppliers were extremely slow to release their country's superb libraries of classic films for movie fans to purchase on either VHS tapes or DVD discs. In 2004, little over 100 titles were available. But now there are around 700, with promises of many more to come. This book details some of the best. Over 400 movies in all are described in either minute detail or in summary form! The quality (or lack of quality) in the DVD transfer is fearlessly indicated. The author's emphasis is on movies made before 1970, especially those with popular stars such as Glynis Johns, Gracie Fields, George Formby, Margaret Lockwood, Arthur Askey, Anna Neagle, James Mason, Patricia Roc, Stewart Granger, Vivien Leigh, Laurence Olivier, Will Hay, Tommie Trinder, Alec Guinness, Michael Wilding, Peter Finch, Christopher Lee, Peter Sellers, David Niven, Kenneth More, Kay Kendall, John Gregson, etc.

In 1876 Lakota and Cheyenne warriors annihilated Custer's Seventh Cavalry at Little Bighorn. Three years later and half a world away, a British force was wiped out by Zulu warriors at Isandhlwana in South Africa. In both cases the total defeat of regular ar troops by forces regarded as undisciplined barbarian tribesmen stunned an imperial nation. Although the similarities between the two frontier encounters have long been noted, James O. Gump's book The Dust Rose Like Smoke is the first to scrutinize them in a comparative context. "This study issues a challenge to American exceptionalism," he writes. Viewing both episodes as part of a global pattern of intensified conflict in the latter 1800s resulting from Western domination over a vast portion of the globe, Gump's comparative study persuasively traces the origins and aftermath of both episodes. He examines the complicated ways in which Lakota and Zulu leadership sought to protect indigenous interests while Western leadership calculated their subjugation to imperial authority. The second edition includes a new preface from the author, revised and expanded chapters, and an interview with Leonard Little Finger (great-great-grandson of Ghost Dance leader Big Foot), whose story connects Wounded Knee and Nelson Mandela.

Simplified Signs: A Manual Sign-Communication System for Special Populations, Volume 1.

Text and International Cases

Stern's Guide to the Cruise Vacation: 2018/2019 Edition

Simplified Signs presents a system of manual sign communication intended for special populations who have had limited success mastering spoken or full sign languages. It is the culmination of over twenty years of research and development by the authors. The Simplified Sign System has been developed and tested for ease of sign comprehension, memorization, and formation by limiting the complexity of the motor skills required to form each sign, and by ensuring that each sign visually resembles the meaning it conveys. Volume 1 outlines the research underpinning and informing the project, and places the Simplified Sign System in a wider context of sign usage, historically and by different populations. Volume 2 presents the lexicon of signs, totalling approximately 1000 signs, each with a clear illustration and a written description of how the sign is formed, as well as a memory aid that connects the sign visually to the meaning that it conveys. While the Simplified Sign System originally was developed to meet the needs of persons with intellectual disabilities, cerebral palsy, autism, or aphasia, it may also assist the communication needs of a wider audience - such as healthcare professionals, aid workers, military personnel , travellers or parents, and children who have not yet mastered spoken language. The system also has been shown to enhance learning for individuals studying a foreign language. Lucid and comprehensive, this work constitutes a valuable resource that will enhance the communicative interactions of many different people, and will be of great interest to researchers and educators alike.

The retail world is undergoing a fundamental transformation. Rapidly evolving technology, globalization, and a saturated marketplace offer consumers instant access to thousands of equally compelling products and services, creating unprecedented levels of expectation. The impact of these changes is so profound that 50 percent of today's retailers and consumer companies will not survive it. Traditional business models will become extinct, and the relationship between vendors and consumers will shift dramatically. Here, industry experts Robin Lewis and Michael Dart identify the forces behind these changes and look at the retail heroes of today and tomorrow to see how their business models are responding to the modern marketplace. They profile industry giants such as VF Corporation (owner of Wrangler and The North Face), Starbucks, and Ralph Lauren, as well as cutting-edge favorites like Apple, Gilt Groupe, and Amazon, to uncover why some retailers are so successful at reaching today's increasingly elusive and demanding customer while others miss the mark by a mile. What they find are three crucial factors that determine whether businesses win or lose: *Neurological Connectivity - creating an addictive, irresistible shopping experience, from preshopping anticipation to consumption satisfaction *Preemptive Distribution - using all possible distribution platforms to access consumers ahead of the competition *Value Chain Control - vertically integrating control of a company's entire value chain, from creation through point of sale, for maximum delivery on the brand promise This essential formula, Lewis and Dart argue, is responsible for virtually every retail success story of the past few decades. So while the landscape may never look the same, The New Rules of Retail gives business leaders the tools they need to not only survive, but thrive.

Good Junk

Insight Guides Explore Bangkok (Travel Guide eBook)

Cliff St. James returns to a Post-Katrina New Orleans to take on another case in Ed Kovacs' Good Junk, this wonderful action-packed follow-up to Storm Damage While wrestling with guilt over having accidentally killed a mixed martial arts opponent in a sparring session, private detective Cliff St. James returns to New Orleans and finds himself assisting the police in an investigation of the murder of a U.S. government "black projects" engineer. St. James quickly uncovers "The Buyers Club," a murky network of seedy arms dealers and foreign intelligence agents purchasing state-of-the-art weaponry and high technology, perhaps abetted by elements of the U.S. government. As members of the Buyers Club start turning up dead, St. James fights for his life and sanity as he struggles to solve the murders and undermine a treacherous espionage conspiracy.

This study explores contemporary novels, films, performances, and reenactments that depict American slavery and its traumatic effects by invoking a time-travel paradigm to produce a representational strategy of "bodily epistemology." Disrupting the prevailing view of traumatic knowledge that claims that traumatic events are ir retrievable and accessible only through oblique reference, these novels and films circumvent the notion of indirect reference by depicting a replaying of the past, forcing present-day protagonists to witness and participate in traumatic histories that for them are neither dead nor past. Lisa Woolfork cogently analyzes how these works deploy a representational strategy that challenges the divide between past and present, imparting to their recreations of American slavery a physical and emotional energy to counter America's apathetic or amnesiac attitude about the trauma of the slave past.

The Independent Guide to IBM-standard Personal Computing

The weekly source of African American political and entertainment news.

As the field of sexuality studies has become a growth area in academia and classes on sexuality studies are incorporated into various disciplines, the expanding book market has been filled with specialist oriented texts which are often theoretically focused and contain too many summaries for an undergraduate audience. Addressing this imbalance, this key new volume presents the field of sexuality in an accessible and engaging way for undergraduates. Breaking new ground, both substantively and stylistically, this book offers students, academics and researchers an accessible, engaging introduction and overview of this emerging field. Its central premise is to explore the social character of sexuality, the role of social differences such as race or nationality in creating sexual variation, and the ways sex is entangled in relations of power and inequality. Through this novel approach, the field of sexuality is considered, for the first time, in multicultural, global, and comparative terms and from a truly social perspective. This important volume consists of over fifty short and original essays on the key topics and themes in sexuality studies, and interviews with twelve leading scholars in the field which convey some of the most innovative work being done. Each contribution clearly conveys the latest research with examples. Ideal for students of gender and sexuality studies, this topical and timely volume will be an invaluable resource to all those with an interest in sexuality studies.
