

International Marketing Studies

The international marketing literature has grown exponentially in recent years in order to offer sufficient support to corporate and public policy-makers confronting today's turbulent global business conditions. However, according to some of the most recent and outstanding critical assessments of international marketing as a field of study, several promising research avenues are still open to further academic research in this scientific discipline. Accordingly, this volume is conceived as a deep exploration of the evolving nature of the international marketing discipline attending to the diverse sources of emerging opportunities and challenges currently confronting this field of research in the earliest years of this century. The papers in this volume approach this issue from different perspectives. Special consideration is given to firms' export behavior and performance as perhaps still the most relevant, but not the only international marketing strategy among SMEs in both developed and emerging economies. However, strategic internationalization processes in different sectoral contexts (manufacturing, hi-tech and service sectors, and also retailing) are also widely considered in this volume. Of course, the evolving nature of firms' internal capabilities and of shifting environmental forces, which become crucial issues mostly from the international marketers' perspective, are also outlined. Finally, more specific attention is devoted to the increased impact associated with the so-called information technology revolution (especially, the Internet) on business internationalization and international marketing policies and practices. Whereas the primary target readers of this volume are surely scholars and students generally interested in international business/marketing or even international entrepreneurship disciplines, both practitioners and policy-makers in this field should also find relevant insights into their current and future activities. Book jacket.

Fully updated and revised, the eighth edition of this popular text reflects the changing focus of international marketing and ensures students are fully up-to-date with the challenges posed by new patterns of development in global markets. It provides students with accessible content from around the world including newly emerging economies as well as explaining the increasingly global risks such as natural disasters and the role of digital developments. An exciting range of features including Management Challenges, Directed Study Activities and contemporary case studies guide students through the complexities of international marketing as it responds to a rapidly changing environment.

Due to increased purchasing power of certain consumer segments all over the world and the related growing demand for food specialties for differentiated goods in the international markets, agri-food trade and marketing is no longer focused on commodities only. Key concepts of 'Marketing', 'International Trade' and 'Quality' are taking the forefront in the scientific debate among agricultural economists dealing with agricultural and food products markets. The need for scientific knowledge about several aspects of marketing for quality food products is growing. The aim of this book is to link these key concepts together and consider connections, overlaps, contradictions and complementarities between them. This book contains peer-reviewed articles covering a range of studies on international marketing and trade for quality food products and is edited with the support of the BEAN-QUORUM project, funded by the European Union's Asia Link Programme. The topics covered by the studies range from geographical indications to organic food; from fair trade to functional food; from knowledge about quality requirements to the impact of the quest for quality. The geographical scope of the studies is broad and the perspectives vary including the consumer, the producer and the supply chain side. The focal interest of the studies also range from competitiveness, to policy, to potential demand. The book is of interest to researchers and practitioners in international food networks of all types.

Features the papers that report a variety of studies examining: international marketing behaviour of firms from emerging markets; market environments and consumer behaviour in emerging markets; and, MNCs' international marketing in emerging markets.

International and Cross-Cultural Business Research

This comprehensive guide presents specific, real-life examples of the strategies and tactics used by some of the world's most successful international businesses and organizations to excel in the global marketplace. Divided into six major sections, this important book features more than 30 case studies that span critical issues of international business--globalization; negotiation; marketing; product/service quality; joint ventures and strategic alliances; and culturally diverse workforces. Each case study focuses on a particular company, region, or management style to clearly illustrate proven techniques for capitalizing on the cultural diversity of people, products, and markets. With contributions from more than two dozen business executives and professors, spanning the globe from Japan, to Germany, China to Mexico, this casebook provides a broad spectrum of current and future approaches to acheiving international and cross-cultural business success.

Provides global/international view of marketing and marketing research; how to conduct research

The book investigates the entrepreneurial marketing (EM) concept within the broader discipline of international entrepreneurship. The analysis of this concept, and designing a model of EM antecedents, elements, and outcomes that was tested on the basis of empirical studies covering companies from three European countries, explores and develops the field of international marketing and entrepreneurship. The book examines the role of entrepreneurial marketing in the internationalization processes of new ventures and adopts both qualitative and quantitative methods for analyzing the antecedents and characteristics of entrepreneurial marketing, as well as their relationships with internationalization activities and firms ' performances. It goes on to show how the application of entrepreneurial marketing may lead to an accelerated internationalization of companies originating from a transition market, as well as the Western-European markets. It addresses these topics with regards to entrepreneurial marketing and management and will be of interest to researchers, academics, managers, entrepreneurs, and students in the fields of international business, international marketing, and entrepreneurship.

Unlike other International Marketing texts, Essentials of International Marketing includes only the most important information that can be easily covered in one semester. The book covers all the key topics for an International Marketing course, but in a concise, no-nonsense manner that meets the needs of undergraduates..In addition to including all the basic topics, this affordable text also offers two unique chapters on the metric system and on countertrade that provide essential information for successful international marketers. Essentials of International Marketing has been extensively class-tested and is well crafted to serve as a learning tool and a ready reference for students. Each chapter includes an opening case vignette, learning objectives, plentiful exhibits and tables, a summary, key terms, and discussion questions.

International Marketing

Strategic, comprehensive, and concise, the fifth edition of this popular textbook introduces students to the important concepts of global marketing today, and their managerial implications. Increasingly, marketing activities must be integrated at a global level. Yet, the enduring influence of culture requires marketers to adapt local strategies in light of cultural differences. Global Marketing takes a strategic approach, recognizing the need to address both the forces of globalization and those of localization. Key updates include: Extensive real-life examples and cases from developed and emerging markets, including Africa, Latin America, and the Middle East; New topics such as digital distribution options, the participation of customers, and the rise of social media, including Twitter, Facebook, and TikTok; Updated exploration of often overlooked topics, such as China ' s state-owned enterprises, the importance of diasporas as target markets, the threat of transnational criminal organizations to legitimate marketers, and new tensions among trading partners; A stronger recognition of the need for a growth mindset, value orientation, and innovation. Written in a student-friendly style, this fully updated new edition continues to be the textbook of choice for students of global marketing.

A fresh addition to the current international marketing literature, Entrepreneurship in International Marketing address both important issues concerning entrepreneurship in the international market and looks at the contemporary international marketing issues.

Conceived by Chris Grey, the Very Short, Fairly Interesting and Reasonably Cheap series offers an antidote to conventional textbooks. Each book takes a core area of the curriculum and turns it on its head by providing a critical and sophisticated overview of the key issues and debates in an informal, conversational and often humorous way. Looking beyond the usual colonial narrative of the subject, Amanda Earley encourages the reader to think reflectively and critically about overlooked aspects of International Marketing such as power relations, history, ethics, culture and politics. Examples are provided throughout with coverage of student-friendly brands such as Apple, Facebook and Google and their role in international marketing practices today. The author draws on history and the colonial era as well as illustrating the failure of American brands to break into other markets. There are also gritty, thought-provoking examples around racial divides in Asia and Australia. Need another "VSFI" book? Browse the series here

International Business Case Studies For the Multicultural Marketplace

Contemporary Theory, Practice, and Cases

A Strategic Approach to World Markets

Practical Insights and International Analysis

This is the first-ever book about product and country images. It goes considerably beyond what was known until now about these images on buyer behavior and international market strategy. Thousands of companies use country identifiers as part of their international marketing strategy and hundreds of researchers have studied the ways in which these identifiers influence behavior. As markets become more international, the more prominently the origin of products will figure in sellers' and buyers' decisions. The time is ripe for practitioners and academicians to delve into the insights offered in this seminal volume so as to better prepare for meeting the competitive challenges of the global marketplace. National stereotyping and consumer biases in favor or against countries, based on image, have been known for some time to influence their marketplace decisions. Businesspeople who want to learn how to use country identifiers effectively, when to use them and when to avoid them, and how country images affect the behavior of consumers in their target markets will want to read this book cover to cover. Product-Country Images discusses the nature and role and influence of product-country images in international marketing strategy and consumer behavior. It is a wide-ranging and state-of-the-art book offering specific information and case studies to further understanding of the various aspects of this complex topic. Written by the world's preminent researchers in the field from both academic and business sectors--a total of twenty-nine researchers from eleven countries--Product-Country Images presents the work of some of the best minds in the area--Johansson, Morello, Nebenzahl and Jaffe, Crawford and Lumpkin, Yaprak, Liefeld, and Wall, and the editors, Papadopoulos and Heslop, who have also authored some of its chapters. The chapters cover areas related to the main theme from both theoretical and practical perspectives and address questions of international marketing strategy, public policy, and research methodology. The subject is treated at a level suitable for business executives, public policymakers, academic researchers, and university students. Generally, the influence of product country images is so pervasive that this will be an indispensable reference and guidebook to anyone interested in understanding better, and/or enhancing the effectiveness of, international consumer behavior, international marketing, and international marketing strategy. Academic researchers specializing in country-product images, international marketing, and other fields, such as decisionmaking, cultural anthropology, international behavior, and perhaps most importantly, social psychology for international relations, will find readily applicable information and new directions for further research. International business marketing practitioners and public policymakers will find the practical information on the role and importance of country image in attracting foreign investment, promoting a nation's exports, protecting domestic markets from imports, and capitalizing on major international events for promoting national image immediately useful in formulating strategies and policies. International marketing/business students will be better prepared for a competitive world from being exposed to this field of knowledge and its implications which are relevant to many subdisciplines. The made-in notion is a matter of tremendous importance in international marketing strategy, public policymaking, and research. With this in mind, editors Papadopoulos and Heslop take special care to achieve a blend of practice and theory and of the strategic, policy, and research perspectives. As such, Product-Country Images is divided into five main sections so that readers will be able to find the information they need: In the first section, the chapters that introduce the subject, provide an overview of the field.

By establishing the parameters of international consumer behavior patterns, Dr. Samli provides the foundation to develop successful international marketing strategies.

This book is a basic text for international marketing courses. It introduces the different elements of the international marketing mix and sets these in context. It discusses the firm's strategic position: how it is orientated at present to take advantage of international marketing opportunities and how its strategy is developing. It: Stresses the wide differences between different overseas markets and the importance of handling sensitively particular local features. Examines the need to structure the whole business organisation in the right way and make international marketing effective Discusses the importance of communication and control Throughout case studies are used to highlight particular issues.

This new textbook introduces students to the essential concepts, theories and perspectives of Global Marketing and these are supported by real-world case studies from North America, Europe and the emerging markets of China, India and Latin America. These emerging markets are given balanced coverage alongside developed markets and the text also includes a dedicated chapter on emerging markets multinationals. Practical in its orientation, the text equips students with the tools needed to make strategic marketing decisions and find solutions in a global business environment. Key features include: A full-colour text design with photos to help bring the content to life and enhance students' learning 'Spotlight on Research' and 'Expand Your Knowledge', introducing students to some of the seminal scholarly research undertaken in the field 'Real World Challenges' offering additional engaging practice-led examples to Case Studies in chapters and providing a scenario for students to analyse and reflect upon via questions A companion website (<https://study.sagepub.com/farrell>) offering a range of instructor and student support materials including PowerPoint slides, a testbank for instructors and quizzes for students

New Challenges to International Marketing

International Consumer Behavior

Strategies, Concepts and Cases in Europe

Advances in Global Marketing

This book takes as its perspective that the customer undoubtedly is positioned in the center of the firm's overall management activities. True understanding of the customer requires efficient marketing research about the firm's international business environment. As discussed in the first chapters of the book, the firm's business success depends in part on its ethical standards; thus awareness of its environmental and social responsibility is required. The following chapters concentrate on various aspects of culturally biased customer behavior and how the firm ensures sensitivity when planning and selecting its marketing strategies. The most efficient techniques of international market segmentation, targeting, and strategic competitive positioning are introduced. Furthermore, concepts of consumer loyalty programs and their implementation in diversified international markets are presented. An important part is dedicated to describing suitable mixes of marketing policies for firms operating in culturally heterogeneous international markets. Finally, forecasting changes in consumer behavior as a tool of planning international marketing activities is taken into consideration. Marketing control mechanisms that seek to increase efficiency of selected marketing activities further contribute to the valuable insights of this publication.

This book considers problems which can be serious obstacles in international marketing but which are much less difficult in domestic marketing, such as cultural differences; the establishing and maintaining of relationships with customers' and the special problems for firm strategy and organisation arising from the internationalisation process.

????????????????

International Marketing addresses global issues and describes concepts relevant to all international marketers, regardless of their international involvement. Notwithstanding the extent of global perspective that firms may have, they are affected by the competitive activity in the global marketplace. It is this perspective that the authors bring into this edition of the text. The text focuses on the strategic implications of competition in different markets. The environmental and cultural approach to international marketing permits a truly global orientation. Thus the reader's horizon is not limited to any specific nation but the text provides an approach and framework for identifying and analyzing the important cultural and environmental uniqueness of any nation or global region. Salient Features:
? 10 Indian cases included in the book
? New sections on negative impact of new communication tools, intellectual property rights in the international context, Brexit, inventive international negotiation etc.
? Thoroughly updated data, text, pictures and exhibits across the chapters
? More than 100 new academic articles and their findings integrated and cited across the chapters

The Handbook of Marketing Research

International Strategic Marketing

The Handbook of Marketing Research: Uses, Misuses, and Future Advances comprehensively explores the approaches for delivering market insights for fact-based decision making in a market-oriented firm. Divided into four parts, the Handbook addresses (1) the different nuances of delivering insights; (2) quantitative, qualitative, and online data gathering techniques; (3) basic and advanced data analysis methods; and (4) the substantial marketing issues that clients are interested in resolving through marketing research.

Global Marketing, 3rd edition, provides students with a truly international treatment of the key principles that every marketing manager should grasp. International markets present different challenges that require a marketer to think strategically and apply tools and techniques creatively in order to respond decisively within a fiercely competitive environment. Alon et al. provide students with everything they need to rise to the challenge: Coverage of small and medium enterprises, as well as multinational corporations, where much of the growth in international trade and global marketing has occurred; A shift toward greater consideration of services marketing as more companies move away from manufacturing; A shift from developed markets to emerging markets with more dynamic environments A focus on emerging markets to equip students with the skills necessary to take advantage of the opportunities that these rapidly growing regions present; Chapters on social media, innovation, and technology teaching students how to incorporate these new tools into their marketing strategy; New material on sustainability, ethics, and corporate social responsibility; key values for any modern business; Short and long cases and examples throughout the text show students how these principles and techniques are applied in the real world; Covering key topics not found in competing books, Global Marketing will equip today's students with the knowledge and confidence they need to become leading marketing managers. A companion website features an instructor's manual with test questions, as well as additional exercises and examples for in-class use.

This book proposes a theoretical framework identifying external and internal factors that influence internationalization strategy of Chinese brands and brand performance. It explores several key strategies e.g. standardization versus adaptation, price leadership versus branding, OBM export versus OEM export, and incremental versus leap-forward internationalization model. The relationships are examined between various international marketing mix e.g. distribution channel and pricing strategies, and brand performance. Through case studies the text also analyses the internationalization of contract-based firms.

Re-issuing this successful book in its seventh edition the author starts with an overview of basic marketing concepts and their applicability on an international basis. It then covers each ingredient of the marketing mix and explores them in relation to multinational markets. Each ingredient is studied in the light of the fundamental question: 'How far can it be standardised internationally or in a research-based cluster of countries?' Research, planning and organisation problems receive particular attention. A whole chapter is devoted to 'Creativity and Innovation' on a global scale.

Opportunities and Challenges in the 21st Century

International Marketing: Consuming Globally, Thinking Locally has been written for students taking a modular or one semester course in international marketing. In this book, Andrew McAuley examines key aspects of international marketing from the perspective of SMEs (small and medium sized enterprises), as well as MNCs (multinational companies). He includes numerous examples throughout the text that describe the experiences of both SMEs and MNCs. Examples and case studies are provided that illustrate situations faced by marketers in the international marketplace e.g. market entry decisions, international expansion decisions, the use of strategic alliances, dealing with distributors, and issues raised in cross cultural negotiations. Features: * Examines the experiences and practices of SMEs throughout the text * Provides an appreciation of the influence of culture on international marketing decisions * Critical incidents are used throughout the book to illustrate various aspects of international marketing practice * Includes a range of case studies drawn from different countries that discuss both business and consumer products Supplementary materials for lecturers adopting International Marketing can be found on the web site.

International Market Analysis: Theories and Methods is an indispensable book for students and executives of international businesses who want to make sense of their global market opportunities. The book gives readers a concise overview of the theoretical foundations of international market analysis and practical guidance on how to generate and disseminate knowledge about existing and new markets in order to support executives' strategic responses to customer needs. The discussions are based on tested concepts and frameworks in combination with the author's own professional insights into global business situations. Highlights of the book include detailed discussions of the relationships between market-orientation and market analysis, concepts and types of international market knowledge, meta-theoretical foundations of international market analysis, an integrative model for international market opportunity identification, as well as specific tools for quantitative and qualitative data collection and analyses.

A key text examining the principles and practice of marketing in a global context, this new edition provides new case studies and is accompanied by a fully updated website.

Consumers in most parts of the world now have global access to products beyond those offered in their countries and cultures. This new space for comparison defined by globalization can result in very different purchasing behaviors, including those influenced by the 'country of origin'. This book investigates this effect, one of the most controversial fields of consumer literature, from a company perspective. In particular, it demonstrates the strategic relevance of the country of origin in creating and making use of the value in foreign markets. It also addresses the challenges connected with utilizing the value of the country of origin by considering different entry modes and international marketing channels. Further, it considers the role of international importers and international retailers' assortment strategies in terms of value creation in foreign markets. Combining theory and practice, the book features diverse company perspectives and interviews with importers and retailers.

This book examines both the theory and applications of marketing higher education in a global environment. Universities and colleges face new challenges in student recruitment and international competition. This book is designed to offer new insights into international marketing of higher education. With declining domestic enrollments and continuing funding cuts, many higher education institutions are exploring new ways to market and promote themselves to international students. Higher education institutions view international students not only as a source of revenue, but also as an integral part of an overall academic strategy. While international students face many destination choices, they normally choose universities and colleges in developed countries such as the US, Canada, UK, Australia, and New Zealand. The international marketing of higher education is of growing importance to universities and colleges today.

Successfully combining cross-cultural management and business research methods, this team of international authors provide much needed coverage of the implications that should be considered when undertaking research across different cultures.

This is a basic text in International Marketing, a major knowledge area for students of management studies. This book attempts to make learning of the nuances of the subject easy and enjoyable for students. International trade, economic free trade zones, embargoes on exports, and tariff and non-tariff barriers that the companies face overseas form a major part of the book. In addition, the role of international organizations under the guidance of the United Nations has been given its due importance.

Ethical Issues in International Marketing is a valuable resource for readers' increasing need for knowledge of this important area. In recent years, ethical issues in international marketing have come to the forefront due to publicity and controversy generated from several international cases of questionable ethics.

To date, little research has been conducted in the area of international marketing ethics. Delener's book comes at an important time to alert readers to the growing concern for greater ethical behavior in the international marketing arena. It provides illustrations to give readers hands-on experiences that can transfer directly into the marketing world. Delener and his contributing authors identify the unique importance of ethics and corporate social responsibility in global markets. Ethical Issues in International Marketing was conceived to allow researchers the liberty to explore the topic in the context of an environment supportive of the difficulties associated with this type of research. The contributing authors discuss these main topics: A social contract for analyzing and evaluating the activities of transnational corporations in developing countries The relationship of marketing ethics to gray markets for consumer goods How moral commitment is shaped by socialization and role of culture in Turkey The relationship between Egyptian consumers' ideology and their perceptions of ethical behavior Readers who desire to make steps toward better global decisionmaking will find this a compelling book. The authors make readers realize that conducting business transactions efficiently and effectively in a mere technocratic sense is no longer sufficient. Ethical issues in the international marketing environment are best addressed in learning more about the differences between cultures, which this book begins to do.

A marketing first approach to exploring the inter-relatedness of the key components that impact any international marketing venture – markets, the 4Ps, culture, language, political, legal and economic systems, and infrastructure – to support an understanding of the synergies between international marketing and international business. The book covers the incorporation of sustainability and bottom-of-the-pyramid markets within each chapter, along with 'International Incident' boxes encouraging the reader to engage with the ethical and cultural dimensions of international marketing and decision-making. It is also supported by vivid, real-world case studies from a varied cross section of international companies such as Alibaba.com, Best Buy, Facebook, DHL, Kikkoman, Tesco, McDonalds, Nintendo, KitKat in Japan, Mobile Communications in Africa, India's ArcelorMittal Steel, Wind Turbines in Finland, Uniqlo, and Banana Republic. New to this edition: A more global focus through examples, case studies and the experience brought by new co-author Barbara Czarnecka Chapter on "Culture and Cross-Cultural Marketing", featuring political unrest, the Syrian refugee crisis, the recent return to nationalism (e.g. Brexit and the Trump presidency) and further coverage of developing countries. Chapter feature, "Practitioner Insight", which provides applied insights from industry insiders. Coverage of digital advances and social media. Updated theory and methods, including S-DL, CCT, and Netnography. Additional videos supplementing the comprehensive online resource package for students and lecturers. A wealth of online resources complement this book. These include a test bank of 50-65 questions per chapter, PowerPoint slides, sample syllabi, interactive maps, country fact sheets, flashcards, SAGE journal articles, and guidelines for developing a marketing plan. Suitable reading for students of international or global marketing modules on Marketing, International Business and Management degrees.
