Religion Reexamined is a concise introduction to world religions. It is designed to facilitate a comparative study of religions. It is divided into eight chapters that thoroughly examine the foundations of Judaism, Christianity, Islam, Hinduism, Buddhism, Confucianism, Taoism, and Secularism. Following Clifford Geertz, it treats each religion as a cultural system composed of three parts: ethos (character), ethics (way of life), and ethnos (social entity). Using Stephen Prothero's approach, it identifies each religion's problem, solutions to the problem, techniques for moving from problem to solution, and exemplars who chart the path from problem to solution. It includes critical reviews of religion by psychologists, sociologists, anthropologists, and philosophers from Aristotle to Karen Armstrong.

With recent changes in technology, media, and the communication landscape, the journey to ethics has become more complicated than ever before. This book aims to answer ethical questions, from applying ethics and sound judgment through your organization and communication channels to taking your ethics and values into every media interview. With the understanding of how personal and professional ethics align, business leaders, managers, and students will maneuver their way around this new landscape showcasing their values in ethical conduct. This book is divided into eight important areas based on where and why a breakdown in ethical behavior is likely to occur, and delivers advice from experts on the frontlines of business communications who know what it means to face the inherent changes and challenges in this field. With more than 80 questions and answers focused on guiding marketing, PR and business professionals, readers will uncover situations where ethics are challenged, and their values will be tested. This straightforward Q&A guidebook is for professionals who realize ethics are a crucial part of decision-making in their communications and who want to maintain trust with the public and their positive brand reputations in business. Readers will receive answers to pressing ethical questions to help them apply best practice guidelines and good judgment in their own situations, based on the stories, theories, and practical instruction from the author's 30 years of experience as well as the thought leaders featured in this book.

***Who is Andrew Elric, and what's he doing here? Says he's here with answers. As Andrew would explain it, "We live our lives shrouded with mysteries. We're compelled to show faith in explanations that we really don't believe in—the origins of our being, the nature and existence of God, are we alone in the universe? Less weighty issues as well as stuff we'd just like to know—who really shot Kennedy? What happened to Jimmy Hoffa? You think about it and know there really are answers to all of it, but you don't have access to them. I've got those answers and, more importantly, proof for all of it. Some of it you can hold in your hand. You follow the news, you know this place is going to blow. I'm here to try and stop it. Religion, race, nationalism . . . We all come from the same place. But the world has suffered through too many charlatans and false prophets. I'm going to use these proofs to get you savages to settle down."***  
***Andrew has recruited renowned attorney, author, and sports agent Aron Samuelson to help him get the word out. Aron, in the throes of a midlife crisis, is looking for the next "big thing" in his life. As they say, be careful what you wish for.***

***Designed for review and practice of math skills and concepts. Work each exercise, then search for the answer on the grid. Each answer will appear one or more times; shade each square containing the answer just like the example next to the exercise. If the grid is shaded correctly, a pleasing geometric design emerges.--Verso.***

Introducing the fundamentals of ethical theory, this text exposes the reader to the ways and means of making moral judgments by covering the teachings of the great philosophers, sources of criminal justice ethics and unethical patterns in the criminal justice system. It is presented from two perspectives: a thematic perspective that addresses ethical principles common to all components of the discipline, and an area-specific perspective that addresses the state of ethics in criminal justice in the fields of policing, corrections, and probation and parole. The fourth edition features expanded discussion of the formula of ethical discretion to enhance students' understanding of ethics decision making in real-life situations, as well as a new chapter on the ethics of loyalty and loyalties in the workplace.
