Collection of pieces first printed in 'Tempo', the banned Indonesian weekly news magazine. Focuses on many of the issues facing Indonesia including social justice, democracy, censorship, human rights, Islam and the impact of western culture. Includes a glossary, bibliography and index. The author was editor and proprietor of 'Tempo', the magazine that caused the clampdown on Indonesia's free press and was closed in June 1994.

Part of the material issued in 1958 under title: Modjokuto, religion in Java. Includes index.

“Abbey’s latter-day Luddites, introduced in his novel The Monkey Wrench Gang, are back—and not a moment too soon” (The New York Times). George Washington Hayduke III, ex-Green Beret, was last seen clinging to a rock face in the wilds of Utah as an armed posse hunted him down for his eco-radicalist crimes. Now he’s back, with a fiery need for vengeance . . . This sequel to Edward Abbey’s cult classic brings back the old gang of environmental warriors, as they battle a fundamentalist preacher intent on turning the Grand Canyon into a uranium mine—in “a fine novel, combative and comic, anarchistic and ultimately redemptive” (Albuquerque Journal). “I laughed out loud reading this book.” —Los Angeles Times

A fully-updated and reworked version of the classic book by Stephen Kemmis and Robin McTaggart, now joined by Rhonda Nixon. The Action Research Planner is a detailed guide to developing and conducting a critical participatory action research project. The authors outline new views on ‘participation’ (based on Jürgen Habermas’s notion of a ‘public sphere’), ‘practice’ (as shaped by practice architectures), and ‘research’ (as research within practice traditions). They provide five extended examples of critical participatory action research studies. The book includes a range of resources for people planning a critical participatory research initiative, providing guidance on how to establish an action research group and identify a shared concern, research ethics, principles of procedure for action researchers, protocols for collaborative work, keeping a journal, gathering evidence, reporting, and choosing academic partners. Unlike earlier editions, The Action Research Planner focuses specifically on critical participatory action research, which occupies a particular (critical) niche in the action research ‘family’. The Action Research Planner is an essential guide to planning and undertaking this type of research.

The Indonesian talent for harmoniously blending indigenous styles with the arts of the Asian mainland has given rise to fighting arts that are among the most fascinating in the world.

Preserved in music, dance, and art as-well as in ritual, tribal law, and mythology—the fighting arts of Indonesian archipelago play a central role in Indonesian culture. Weapons and Fighting Arts of Indonesia – a profusely illustrated and well researched work from renowned scholar and martial arts teacher Donn F. Draeger – provides a comprehensive introduction to the sophisticated forms of empty-hand combat and myriad unique weapons that characterize Indonesian fighting styles like Pentjak-silat and Kuntao. Draeger shows how the forms are related to their mainland cousins, provides a historical context for their development, and describes the combat methods of Menangkabau warriors, Alefuru headhunters and the Celates pirates. With over 400 illustrations, Weapons and Fighting Arts of Indonesia is an indispensable addition to any martial artist's library.

Silat Seni Gayong is an art of self-defense, a fighting art but one that also emphasizes the development of the self, becoming a better person, and serving humanity. Sometimes compared to a tiger ready to devour its prey, Gayong helps practitioners develop and increase physical fitness, flexibility, mental conditioning, and self-confidence. Author Sheikh Shamsuddin, who has studied Gayong for 25 years, introduces this little-known practice to Western readers in this first book on the subject in English. The most comprehensive study in any language on Gayong and its customs, The Malay Art of Self-Defense explores in depth the system, techniques, crucial elements, and philosophies involved. Also covered are the art's history, profiles of the most notable practitioners, and an informative Q&A collected from various martial art practitioners to expand readers' knowledge and appreciation. Included are photos of Gayong demonstrations, traditional training centers, customs, and events.

***In Martial Arts and the Body Politic in Indonesia Lee Wilson offers an innovative study of nationalism and the Indonesian state through the ethnography of the martial art of Pencak Silat. Simple, direct, and deadly—it's the art of ngo cho kun, or fists of the five ancestors. In its approach to iron body training, its reliance on the sam chien stance, and its special emphasis on hard and soft techniques, this Fukien style of kung-fu is believed to be the root of the Goju-ryu and Uechi-ryu Okinawan karate systems. During the declining years of the Ching dynasty, Sijo Chua Giok Beng combined the salient features of five styles from five masters into the formation of ngo cho kun, a distinct blend of both external and internal Chinese martial arts. Aside from being an effective form of self-defense, diligent practice of Ngo Cho Kun can balance the body's metabolism, strengthen internal organs, and improve general well-being. Ngo cho kun is at once historically significant and practical for modern-day self-defense needs. Five Ancestor Fist Kung-Fu is a must for those who are interested in the historical connection between kung-fu and karate, or who wish to expand their self-defense repertoire.***

Clear photography captures each featured book, and interviews with prominent book designers, art directors, and publishers provide extra insight. New Book Design is sure to provide a rich source of inspiration to book designers and bibliophiles alike.

It’s the perfect meeting of minds. One, a general whose epigrammatic lessons on strategy offer timeless insight and wisdom. And the other, a visual thinker whose succinct diagrams and charts give readers a fresh way of looking at life’s challenges and opportunities. A Bronze Age/Information Age marriage of Sun Tzu and Jessica Hagy, The Art of War Visualized is an inspired mash-up, a work that completely reenergizes the perennial bestseller and makes it accessible to a new generation of students, entrepreneurs, business leaders, artists, seekers, lovers of games and game theory, and anyone else who knows the value of seeking guidance for the future in the teachings of the past. It’s as if Sun Tzu got a 21st-century do-over. Author and illustrator of How to Be Interesting, Jessica Hagy is a cutting-edge thinker whose language—comprising circles, arrows, and lines and the well-chosen word or two—makes her an ideal philosopher for our ever-more-visual culture. Her charts and diagrams are deceptively simple, often funny, and always thought-provoking. She knows how to communicate not only ideas but the complex process of thinking itself, complete with its twists and surprises. For The Art of War Visualized, she presents her vision in evocative ink-brush art and bold typography. The result is page after page in which each passage of the complete canonical text (in its best-known Lionel Giles translation) is visually interpreted in a singular diagram, chart, or other illustration—transforming, reenergizing, and making the classic dazzlingly accessible for a new generation of readers.

This manual lays out techniques of the Keluarga Pencak Silat Nusantara (KPSN), one of the leading pencak silat organizations in Indonesia. Moving from the fundamental elements—stances and strikes—to exploring complex series of moves for exercise, self-defense, and competition, the manual shows the richness and uniqueness of this still relatively unknown martial art. The concise text and attractive illustrations provide an easy learning tool for beginners or enthusiasts looking to expand their knowledge of pencak silat.

#### Pencak Silat for Future Generations

Buku ini menganalisis perubahan kondisi sosial-budaya di Indonesia, khususnya Jawa Barat, dan pengaruhnya pada perkembangan pencak silat. Berdasarkan penelitian sekaligus pengalaman pribadi sebagai seorang pesilat, Ian Douglas Wilson menulis mengenai masa Orde Baru, di mana meningkatnya intervensi pemerintah telah mendorong dikembangkannya versi silat nasional dengan nilai tertentu, maupun mobilisasi gerakan pencak silat demi tujuan politis. Terlihat di dalam buku ini, sejumlah pesilat merespons kondisi ini dengan lebih melihat ke dalam, mencapai pengejawantahan diri yang berpusat pada kekuatan, aliran, dan nafsu di dalam tubuh sendiri. Sebagian lainnya mengembangkan aliran yang timbul dari kebutuhan mereka untuk beradaptasi terhadap lingkungan sekitarnya. Pandangan secara historis ini penting untuk memusatkan pencak silat dalam konteks sejarah nasional negara. Ian Douglas Wilson adalah Dosen Senior di jurusan politik, peneliti di Asia Research Centre dan menduduki Academic Chair Global Security Program di Murdoch University, Perth, Australia Barat. Ia mendalami kajian tentang politik dan masyarakat Indonesia kontemporer. Sejak akhir tahun 1980-an ia menekuni dunia pencak silat dan pernah menjadi anggota perguruan Bhayu Manunggal (Yogyakarta) dan Tadjimalela (Bandung). Pada tahun 2000 ia sempat bertanding di Kejuaraan Dunia Pencak Silat di Jakarta mewakili tim Australia. O'ong Maryono Pencak Silat Award adalah sebuah program yang didedikasikan pada Guru dan ahli pencak silat alm. O'ong Maryono (1953-2013) dan memberi dukungan untuk penelitian, dokumentasi dan penerbitan mengenai pencak silat.

The Paradox of Plenty explains why, in the midst of two massive oil booms in the 1970s, oil-exporting governments as different as Venezuela, Iran, Nigeria, Algeria, and Indonesia chose common development paths and suffered similarly disappointing outcomes. Meticulously documented and theoretically innovative, this book illuminates the manifold factors—economic, political, and social—that determine the nature of the oil state, from the coherence of public bureaucracies, to the degree of centralization, to patterns of policy-making. Karl contends that oil countries, while seemingly disparate, are characterized by similar social classes and patterns of collective action. In these countries, dependence on petroleum leads to disproportionate fiscal reliance on petrodollars and public spending, at the expense of statecraft. Oil booms, which create the illusion of prosperity and development, actually destabilize regimes by reinforcing oil-based interests and further weakening state capacity. Karl's incisive investigation unites structural and choice-based approaches by illuminating how decisions of policymakers are embedded in institutions interacting with domestic and international markets. This approach—which Karl dubs "structured contingency"—uses a state's leading sector as the starting point for identifying a range of decision-making choices, and ends by examining the dynamics of the state itself.
