

La Da C Fonceuse Tome 2

New to the Nightfury pack, dragon-shifter Mac cannot understand the bond between his brothers-in-arms and their human mates--until the moment he spies Tania and the energy bond between them blazes to life.

Driven by a primal instinct, Mac will stop at nothing to find Tania, to keep her safe, to possess her. He has no time to waste: Ivar, leader of the rival Razorbacks, hunts her, hungry for a new high-energy pawn with which to destroy the human race. Caught between the warring factions, Tania finds herself immersed in a world she never knew existed--and bound by a love stronger than time. With Mac, her safety from Ivar and the perils of the human world is assured, but still she is left with a terrible choice: forsake the independence she's fought so hard to achieve and reclaim the life she loves, or abandon the man who now holds her heart.

When the laboratory technicians working for Ancestor Lu discover the key to the immortality genetic structure, Victor names it the 'Cathy Key' in honor of his quest to make Cathy immortal, but when events go fatally wrong and a fortune teller's grim prophecy comes true, soon a homicide investigation is underway. Jerome Bel's "Disabled Theater" polarizes the public: on the one hand celebrated as an outstanding conceptual dance piece, on the other hand harshly criticized for being a contemporary "freak show." In either case, the production raises central questions on the role of people with cognitive differences in Western society, as well as on basic norms and conventions of theater and dance: Can a theatrical stage serve as a place of emancipation for people with disabilities? To

what extent are performers with disabilities able to challenge and subvert the rules of an economized society, above all its performance principle? What would the training of an actor or a dancer look like without an ideology of ability? Do we need new categories of aesthetic judgment? The book takes "Disabled Theater" by Jerome Bel and Theater Hora as a springboard to a broader transdisciplinary discussion on "theater and disability," to a debate at the intersections of politics and aesthetics, of inclusion and exclusion, of virtuosity and dilettantism, of identity and empowerment.

Choko Kuze is in a relationship with Masayuki Domoto, her current boss and former servant. But his eccentric behavior is nothing compared to that of company president Yanagi. Yanagi issues a challenge for Masayuki to protect Choko's nether regions from him for three days while she stays in the president of Benten Estate's home. Can Masayuki rise to the challenge--and will Choko get caught in the cross fire?!

One country's sacrament is another's illicit drug, as officials in South America and the United States are well aware. For centuries, a hallucinogenic tea made from a giant vine native to the Amazonian rainforest has been taken as a religious sacrament across several cultures in South America. Many spiritual leaders, shamans, and their followers consider the tea and its main component - ayahuasca - to be both enlightening and healing. In fact, ayahuasca (pronounced a-ja-was-ka) loosely translated means spirit vine.

In this book, de Rios and Rumrill take us inside the history and realm of, as well as the raging arguments about, the substance that seems a sacrament to some and a scourge to others. Their book includes text from the United Nations Convention on Psychotropic Substances and interviews with shamans in the Amazon. The Rising of the Shield Hero Volume 08

As Europe wrangles over questions of national identity, nativism and immigration, Olivier Roy interrogates the place of Christianity, foundation of Western identity. Do secularism and Islam really pose threats to the continent's 'Christian values'? What will be the fate of Christianity in Europe? Rather than repeating the familiar narrative of decline, Roy challenges the significance of secularized Western nations' reduction of Christianity to a purely cultural force- relegated to issues such as abortion, euthanasia and equal marriage. He illustrates that, globally, quite the opposite has occurred: Christianity is now universalized, and detached from national identity. Not only has it taken hold in the Global South, generally in a more socially conservative form than in the West, but it has also 'returned' to Europe, following immigration from former colonies. Despite attempts within Europe to nationalize or even racialize it, Christianity's future is global, non-European and immigrant-as the continent's Churches well know. This short but bracing book confirms

Roy's reputation as one of the most acute observers of our times. It represents a persuasive and novel vision of religion's place in national life today.
