

La Tortue De Jardin

What is involved in 'seeing' a foreign culture? Guidebooks, historical references and cultural prejudices constantly colour what the traveller might hope to see afresh, with a 'naked eye'. Through whose eyes, for instance, do we see Japan today? This book is an analytical history of French literary images of Japan, since its reopening to the West in 1854 to the present day. It aims to analyse the social and historical contexts surrounding French perceptions of Japan, to present close readings of selected texts, and to show how Japan offers an 'exceptional' instance in postcolonial studies of French literary relations with the east, being a Far Eastern country that was never colonised by the west. The book is centrally concerned with the experience of seeing and understanding a foreign culture, focusing on each writer's individual vision of Japan.

Les tortues de jardin, maladies

At the age of 42, following the death of his 15-year-old daughter and in failing health, Tobias Smollett embarked on a yearlong journey through France and Italy in 1763. Written as a series of letters, Travels in France and Italy describes in a delightfully grouchy manner his miserable experiences in each and every city he visited. Described by some as the "champion bad traveler," Smollett argues with his hosts and fellow travelers and holds in contempt not only French and Italian art and politics, but the Catholic religion as well. The intolerance and prejudice he displays makes for what critics call a thoroughly entertaining and perceptive travel book. TOBIAS GEORGE SMOLLETT (1721-1771) was a Scottish author best known for his picaresque novels about the adventures and expeditions of such characters as Roderick Random, Peregrine Pickle, and Humphrey Clinker. He was educated as a

surgeon, joined the Navy, and began writing, all without much success. His whole life seemed to be a series of turns for the worst. His last words are said to have been "All is well, my dear."
