Fifteen Years in India

In a poignant family memoir, the record-breaking quarterback of the Green Bay Packers shares his lifelong love affair with football from the perspective of his close relationship with his father, Irvin Favre, from his youth and high-school career under the tutelage of his father to the December 2003 game against Oakland, which he played one day after Irv's death.

Today's world is full of ups and downs and young

people must guard their mental health. Whether it is dealing with the realities of COVID-19, depression, anxiety, anger, grief, guilt, low self-esteem, or the stresses of everyday life, a person's mental health can suffer. 10,000 Reasons reveals the stories beyond the well-known church anthem, fusing global worship leader Matt Redman's own encounters of God with those from believers throughout the ages. In just four years,

"10,000 Reasons" has become one of the church's most popular modern worship anthems in times of triumph as well as trial. In this book, global worship leader Matt Redman connects the dots between singing the song and living the life. In addition to sharing details behind the song's creation, this book takes readers beyond the song. Matt explores the influences and experiences that have taught him how to trust God in all situations—from his own personal trials to stories of hymn writers like John Wesley as well from current and ancient heroes of our faith.

Forced to take shelter together from the ravages of a dangerous storm, adversaries Sean Frame, a single father, and counselor Cassandra Mercer, who has been treating Sean's troubled young son, discover unexpected passion in each other's arms.

More than ten years ago the International Criminal Court (ICC) was established as a universal court meant to achieve criminal justice worldwide. That goal still stands, but so far the Court has dedicated most of its time and resources to African conflicts in which international crimes (may) have been committed. While

the ICC can be said to contribute to criminal justice in Africa, it cannot be denied that the relationship between the Court and the continent has been troublesome. The ICC has been accused of targeting Africa, and many African states do not seem willing to cooperate with the Court. Debates on Africa and international criminal justice are increasingly politicized. The authors of this volume recognize the current problems and criticism. Yet they do not side with populist pessimists who, after just over a decade of ICC experiences, conclude that

the Court and international criminal justice are doomed to fail. Rather, the contributors believe there is a future for international criminal justice, including the ICC. The contributors use their unique specific knowledge, expertise, and experiences as the basis for reflections on the current problems and possible paths for improvement, both when it comes to the ICC as such, and its specific relationship with Africa.
