Indulge yourself with the finest pastries in the world, created by the award-winning pastry chef of the legendary Ritz Hotel in Paris Welcome to the universe of François Perret, pastry chef at the Ritz Paris. Savor sumptuous pastries and cakes: the famous honey madeleine, or the Poire BelleHélène en cage, and explore too this legendary hotel on the Place Vendome. Perret writes about his inspiration for his top ten creations, and then five haute pâtisseries desserts are each interpreted in three different variations: as an appetizer (la touche), as a main dessert, and as a light, sweet finishing flourish (la sucrerie). The book concludes with Perret's favorite: marble cake nestled in its pretty box stamped with the name of the famous hotel; the dessert unveils itself like a precious gem.

La Réunion, île déserte, a été colonisée tardivement : sa géographie ne la prédisposait pas aux grands rôles stratégiques. Cette colonisation s'est déroulée dans des conditions spécifiques, qui ne sont ni celles de l'île Maurice toute proche, ni a fortiori celles des Antilles : La Réunion s'est battue sa propre histoire, contre vents, marées et crises économiques. Elle comporte ses pages d'ombre et de lumière, ses horreurs et ses exploits. Ces épisodes anciens sont plus importants qu'on ne le croit pour La Réunion d'aujourd'hui : dans nombre de domaines (structure de la population, mentalités collectives, relations avec l'environnement régional, etc.), l'histoire détermine le présent.

Passionné par le sujet, ancien rédacteur en chef du Memorial de la Réunion, écrivain, Daniel Vaxelaire s'est efforcé d'observer l'histoire de La Réunion sous tous les angles possibles : événements, stratégie régionale, grandes tendances économiques et sociales, personnages clés, anecdotes. Plusieurs milliers de documents commentés, de graphiques, de repères chronologiques, de renvois bibliographiques font de cet ouvrage une référence pour l'étudiant, le chercheur ou le simple curieux. Sa présentation originale en chapitres brefs fait qu'on peut aussi bien le lire du début à la fin, chercher instantanément une information précise ou le feuilleter au hasard de sa fantaisie.

La 4e de couverture indique : "Puissance mondiale incontournable, la Chine fait l'objet de nombreux fantasmes : fascination, peur, rejet... Entièrement mis à jour, ce livre de référence dresse un panorama inédit pour rendre compte de la réalité chinoise. Il aborde successivement histoire, géographie, civilisation, pensée, vie quotidienne et économie. Conçu conjointement par un historien et un chef d'entreprise, validé et cautionné par une équipe de sinologues, il constitue un outil unique de découverte et d'étude, agrémenté d'une dizaine de cartes"

"Dans citrouille, il y a trouille. Et c'est en dépliant un flap que vous saurez pourquoi. Thierry Dedieu revisite les peurs enfantines avec d'ingénieux volets qui permettent de voir ce qui se cache dans la gueule des figures emblématiques des cauchemars enfantins ! Un loup, ça fait peur. Mais cap ou pas cap d'aller voir dans sa gueule si c'est davantage effrayant ? Et dans un crapaud on voit quoi ? Quelque chose d'encore plus dégoûtant ! Sur un air de "même pas peur !"

To build a good house, it must first have a solid foundation! The same principles apply when making laminated pastry products. My book The Art of Lamination is built on a solid knowledge of understanding the recipes, methods, processes and ingredients required to make the finest laminated viennoiserie possible. This book is the culmination of seven years of research, in particular, it was my chosen subject during my masters degree studies. As an international competitor, lecturer, businessman

and international jury member, I have witnessed the work of exceptional craftsmen and carefully documented procedures and practices. In my business, I was able to try the latest cutting edge techniques and sell beautiful products to my customers. In my role as a lecturer at TU Dublin, I generated much new class content and took note of the most common problems encountered by students in pastry making and also the questions asked by my students. I identified and documented all the stages of production of laminated pastry and engaged in problem solving for students and bakers during my masterclasses in foreign countries. The result is a clearly explained road map, how to plan and execute perfect pastry. I explain some of the basic lamination systems used in industry with a modern twist, and take the reader through a step by step approach on how to become proficient at making laminated viennoiserie. In my capacity as a jury member at the world championships I have witnessed as close to perfection as is possible to make beautiful products. Many of the more advanced products in the book have been inspired directly by my observations over the past 25 years of competitive baking at the cutting edge of creativity. This book will serve as an essential guide for students, bakers, pastry chefs, home bakers and hobbyists. I include detailed process notes for both commercial bakers using mechanical sheeters and home bakers and students, who want to make laminated pastry at home. I have stripped down the procedures of laminated pastry production to the very basics, building on that knowledge and adding more advanced levels throughout the book. I hope my book will both educate and inspire you, the readers now, and in your future baking.
