

Le Puy De Da Me Et Puis En Aquarelles

This volume examines the changing role of Marian devotion in politics, public life, and popular culture in Western Europe and America during the nineteenth and twentieth centuries. The book brings together, for the first time, studies on Marian devotions across the Atlantic, tracing their role as a rallying point to fight secularization, adversarial ideologies, and rival religions. This transnational approach illuminates the deep transformations of devotional cultures across the world. Catholics adopted modern means and new types of religious expression to foster mass devotions that epitomized the catholic essence of the nation. In many ways, the development of Marian devotions across the world is also a response to the questioning of Pope Sovereignty. These devotional transformations followed an Ultramontane pattern inspired not only by Rome but also by other successful models approved by the Vatican such as Lourdes. Collectively, they shed new light on the process of globalization and centralization of Catholicism.

C.G. Jung argued that the definition of the doctrine of the Assumption was the most important religious event since the Reformation: the feminine principle has been absorbed into the Godhead. The author argues that Christian theology should conceive of creation, both physical and spiritual, as sacred in the highest degree, and that this understanding is already implicit in traditions of Marian doctrine and devotion, making her a vital theological symbol reclaimed by women as a symbol of true humanity which the church and the modern world urgently needs.

La Belle Dame qui eust mercy and Le Dialogue d'amoureux et de sa dame are two late-medieval poems in which a courtly gentleman and lady debate the merits of his pleas for her affections. In both cases, the lady is recalcitrant, dismissing her suitor's lovesickness as a trifle, denying that she ever gave any sign of encouragement, and wishing to protect her reputation. The lady in Le Dialogue never capitulates; in contrast, the Belle Dame ends by agreeing to her lover's suit and imagining a future in which they will joyfully live together. Both poems merit serious attention for their kinship with Alain Chartier's La Belle Dame sans mercy (1424) and other poems in the so-called "Belle Dame" cycle. Their presence in numerous fifteenth- and sixteenth-century manuscript and printed collections attests to their appeal in their day. Equally as significant is their unusual bipartite stanzaic structure, suggesting amalgamation of separate poems and/or continuations of existing poems. Such an anomaly complicates attribution of authorship and dating, but close study of La Belle Dame qui eust mercy and Le Dialogue d'amoureux et de sa dame can only enhance our understanding of the process(es) of poetic composition, as well as the mise en page and reception of literary works, in the late Middle Ages.

An Encyclopedia

Marian Devotions, Political Mobilization, and Nationalism in Europe and America

Routledge Revivals: Medieval France (1995)

Citation and Allusion in the Age of Machaut

This ambitious and vivid study in six volumes explores the journey of a single, electrifying story, from its first incarnation in a medieval French poem through its prolific rebirth in the nineteenth and twentieth centuries. The Juggler of Notre Dame tells how an entertainer abandons the world to join a monastery, but is suspected of blasphemy after dancing his devotion before a statue of the Madonna in the crypt; he is saved when the statue, delighted by his skill, miraculously comes to life. Jan Ziolkowski tracks the poem from its medieval roots to its rediscovery in late nineteenth-century Paris, before its translation into English in Britain and the United States. The visual influence of the tale on Gothic revivalism and vice versa in America is carefully documented with lavish and inventive illustrations, and Ziolkowski concludes with an examination of the explosion of interest in The Juggler of Notre Dame in the twentieth century and its place in mass culture today. Volume 2: Medieval Meets Medievalism deals with the influence of the tale in nineteenth- and early-twentieth-century Europe and America, and the development of literary medievalism at this time. The Juggler of Notre Dame and the Medievalizing of Modernity is a rich case study for the reception of the Middle Ages in modernity. Spanning centuries and continents, the medieval period is understood through the lens of its (post)modern reception in Europe and America. Profound connections between the verbal and the visual are illustrated by a rich trove of images, including book illustrations, stained glass, postage stamps, architecture, and Christmas cards. Presented with great clarity and simplicity, Ziolkowski's work is accessible to the general reader, while its many new discoveries will be valuable to academics in such fields and disciplines as medieval studies, medievalism, philology, literary history, art history, folklore, performance studies, and reception studies. Journey into twelve of the world's favorite medieval mysteries and cross the threshold into the world of the High Middle Ages. From Chaucer's "Canterbury Tales" to Umberto Eco's "Name of the Rose" to Dan Brown's bestselling "The Da Vinci Code," the medieval period continues to intrigue, inspire, entertain and fascinate many today. For the general reader and specialist alike, medieval expert, former Rosslyn Chapel museum exhibition curator and bestselling author Dr. Karen Ralls guides the reader through the key historical facts, legends and lore, affiliated places and major symbolism of each of these 12 popular medieval enigmas, providing a lively introductory portal which includes some of the lesser-known, sidelined or unacknowledged aspects of each of these enduring topics. The story of each subject comes alive as never before, providing a solid introduction for all readers as well as further suggested resources for teachers and researchers. Also included are photographs, a recommended reading section, maps, a list of the key major sites associated with each topic, and a full Bibliography.

Topics covered include: King Arthur, Merlin and GlastonburyThe Grail Quest Mary MagdaleneThe real meaning of Black MadonnasThe Knights Templar, the Cathers, and Rosslyn ChapelMedieval Guides and TroubadoursHeresy and Heretics Let this book serve as your personal pilgrimage back to the High Middle Ages - a time of potent symbolism, occult knowledge, and spiritual quests.

Les icrivains qui ont composi des histoires ginirales de la France ont presque toujours encouru le reproche de ne pas avoir su rendre assez attachans les ricits que nous ont conservis les documens originaux et contemporains. En mjme temps, on trouve avec raison beaucoup de charme dans ces documens eux-mjmes, dans ces mimoires, simples timoignages des temps passis.

Lonely Planet's France is your passport to the most relevant, up-to-date advice on what to see and skip, and what hidden discoveries await you. Grab a café crème at a Parisian sidewalk cafe, take in glacial panoramas above Chamonix and explore the Champagne-soaked city of Reims – all with your trusted travel companion.

DK Eyewitness Travel Family Guide France offers you the best things to see and do on a family holiday in France, from visiting magnificent sights such as the Eiffel Tower and Notre-Dame to exploring the treasures housed in the Louvre and the Palace of Versailles, and brings those places alive for children with fun facts, quizzes, and cartoons. The major sights are treated as "hub" destinations and are followed by places of interest near the "hub," ideal for planning your day ahead. These offer a pragmatic as well as enjoyable itinerary, giving children a real insight into France, but balanced with opportunities to let off steam in parks or playgrounds. All the practical information you need appears alongside the sight, including transportation information, budget tips, age range suitability, and where to eat. DK Eyewitness Travel Family Guide France is bursting with insider knowledge and loaded with ideas for activities that will engage children, from how to get the best out of a trip to Disneyland Paris to enjoying the coast and discovering where the Man in the Iron Mask was imprisoned. Meanwhile, the most family-friendly, best-value accommodation options have been chosen with family budgets and needs in mind. Full-colour throughout, with detailed maps of the main sightseeing areas for easy navigation and all the practical information you need for a fun, stress-free family holiday.

First published in 1995, *Medieval France: An Encyclopedia* is the first single-volume reference work on the history and culture of medieval France. It covers the political, intellectual, literary, and musical history of the country from the early fifth to the late fifteenth century. The shorter entries offer succinct summaries of the lives of individuals, events, works, cities, monuments, and other important subjects, followed by essential bibliographies. Longer essay-length articles provide interpretive comments about significant institutions and important periods or

events. The Encyclopedia is thoroughly cross-referenced and includes a generous selection of illustrations, maps, charts, and genealogies. It is especially strong in its coverage of economic issues, women, music, religion and literature. This comprehensive work of over 2,400 entries will be of key interest to students and scholars, as well as general readers.

*This comprehensive guidebook describes the Way of St James (Camino de Santiago) pilgrim route through France. Also known as the Chemin de St Jacques or GR65, the 730km (454 mile) route runs from Le Puy-en-Velay in central France to Saint-Jean-Pied-de-Port in the Pyrenees. People have been walking it as a pilgrimage route for over 1000 years, and with adequate preparation it is suitable for most walkers with a basic level of fitness. This indispensable guide contains detailed descriptions and sketch mapping for the route, accompanied by a wealth of practical advice on accommodation, facilities and local points of interest. It also includes information about the history of the pilgrimage, and notes on holy sites and imagery along the route. The guidebook describes 2-3 additional days from Saint-Jean-Pied-de-Port to Roncevalles (and Pamplona), for those continuing along the Camino Francés through northern Spain. It also outlines a 3-4 day route from Saint-Palais direct to Irún, which links with the Camino del Norte coastal route. A companion volume: *The Way of St James: Pyrenees-Santiago-Finisterre* covers the Spanish section of the route.*

Spoken Word and Social Practice: Orality in Europe (1400-1700) aims to recapture words spoken in medieval and early modern times, tracking women's voices, on trial, or bantering and gossiping, and tracing those of princes, priests, and magistrates, townsmen, villagers, mariners, bandits, and songsmiths.

Notre-Dame of Amiens is one of the great Gothic cathedrals. Its construction began in 1220, and artistic production in the Gothic mode lasted well into the sixteenth century. In this magisterial chronicle, Stephen Murray invites readers to see the cathedral as more than just a thing of the past: it is a living document of medieval Christian society that endures in our own time. Murray tells the cathedral's story from the overlapping perspectives of the social groups connected to it, exploring the ways that the layfolk who visit the cathedral occasionally, the clergy who use it daily, and the artisans who created it have interacted with the building over the centuries. He considers the cycles of human activity around the cathedral and shows how groups of makers and users have been inextricably intertwined in collaboration and, occasionally, conflict. The book travels around and through the spaces of the cathedral, allowing us to re-create similar passages by our medieval predecessors. Murray reveals the many worlds of the cathedral and brings them together in the architectural triumph of its central space. A beautifully illustrated account of a grand, historically and religiously important building from a variety of perspectives and in a variety of time periods, this book offers readers a memorable tour of Notre-Dame of Amiens that celebrates the cathedral's eight hundredth anniversary. Notre-Dame of Amiens is enhanced by high-resolution images, liturgical music, and animations embedded in an innovative website.

L'Établissement de la Fête de la Conception Notre-Dame dite la Fête aux Normands, par Wace, trouvère Anglo-Normand du XIIe siècle. Publié pour la première fois d'après les manuscrits de la Bibliothèque du Roi, par MM. G. Mancel et G. S. Trebutien

Description historique de l'Église Cathédrale de Notre Dame d'Amiens

In this detailed study of the wines of France, one of the world's leading authorities on wine discusses every appellation and explains its character and the best growers. He uses a star system to identify the finest estates. More than 40 specially commissioned maps show the main appellations and wine villages of France.

Pilgrim shrines were places of healing, holiness, and truth in early modern France. This book explains how this came about. The wooden statue of the Mother and Child enthroned, known as *sedes sapientiae*, the Seat or Throne of Wisdom, reached the brilliant culmination of its development as a genre of religious sculpture in the twelfth century. As a visible expression of the mystery of Incarnation, its iconography dated back to the early church. Translated by the Romanesque sculptor into a fully plastic, freestanding form, its style conveys convincingly the medieval vision of humanity and divinity interfused. The recent cleaning and restoration of a number of these wood-carved figures of the Madonna in Majesty has now made possible a full appraisal of the genre. Mrs. Forsyth's discussion examines the character, function, iconography, and history of the statues; distinguishes types and regional styles; considers their role within the broader context of medieval art; and assesses their artistic merit. Her register of principal examples includes 110 sculptures dating from twelfth century France, some of which have never been published before. 192 illustrations accompany the text. Ilene H. Forsyth is Associate Professor in the Department of the History of Art, at the University of Michigan. Originally published in 1972. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

An Encyclopedia of the Wines and Domains of France

Just as our society delights in citations, quotations, and allusions in myriad contexts, not least in popular song, late medieval poets and composers knew well that such references could greatly enrich their own works. In The Art of the Grafted Song: Citation and Allusion in the Age of Machaut, author Yolanda Plumley explores the penchant for borrowing in chansons and lyrics from fourteenth-century France, uncovering a practice integral to the experiments in form, genre, and style that ushered in a new school of lyric. Working across disciplinary boundaries, Plumley traces creative appropriations in the burgeoning "fixed forms" of this new tradition to build a more intimate understanding of the shared experience of poetry and music in the generations leading up to, and including, Guillaume de Machaut. Exploring familiar and less studied collections of songs as well as lyrics without music, this book sheds valuable light on the poetic and musical knowledge of authors and their audiences, and on how poets and composers devised their works and engaged their readers or listeners. It presents fresh insights into when and in which milieus the classic Ars nova polyphonic chanson took root and flourished, and into the artistic networks of which Machaut formed a part. As Plumley reveals, old songs lingered alongside the new in the collective imagination well beyond what the written sources imply, reminding us of the continued importance of memory and orality in this age of increasing literacy. The first detailed study of citational practice in the French fourteenth-century song-writing tradition, The Art of Grafted Song will appeal to students and scholars of medieval French music and literature, cultural historians, and others interested in the historical and social context of music and poetry in the late Middle Ages.

Inside Lonely Planet's Experience France you'll travel through vibrant cities, rural villages, majestic mountains and swanky chateaux, discovering the secrets to French style, embarking on your own study of wines and cheeses and immersing yourself in history, art and all things la belle France.

The renowned art historian Andre Chastel intended his history of art in France from prehistoric times to the nineteenth century to be the crowning achievement of his long and distinguished career. The fruit of ten years of research and writing, this fully documented and erudite study goes beyond conventional art historical analysis to get at the heart of over two millenia of artistic creation.

Mary In Our Life: An Atlas of the Names and Titles of Mary, The Mother of Jesus, and Their Place in Marian Devotion presents the 1,969 names, titles, and appellations used to identify the Blessed Virgin Mary over the

centuries in terms of their history and related events. Within these titles and their history can be seen the official and private attitudes and prejudices of the times; government pressures, conflicts, and interdictions; internal problems within the Catholic Church; and startling examples of dedication, devotion, and piety. Taken together, Marian titles are a real-life story of the Catholic faith.

Traditional histories of medieval art and architecture often privilege the moment of a work 's creation, yet surviving works designated as "medieval" have long and expansive lives. Many have extended prehistories emerging from their sites and contexts of creation, and most have undergone a variety of interventions, including adaptations and restorations, since coming into being. The lives of these works have been further extended through historiography, museum exhibitions, and digital media. Inspired by the literary category of biography and the methods of *longue durée* historians, the introduction and seventeen chapters of this volume provide an extended meditation on the longevity of medieval works of art and the aspect of time as a factor in shaping our interpretations of them. While the metaphor of "lives" invokes associations with the origin of the discipline of art history, focus is shifted away from temporal constraints of a single human lifespan or generation to consider the continued lives of medieval works even into our present moment. Chapters on works from the modern countries of Italy, France, England, Spain, and Germany are drawn together here by the thematic threads of essence and continuity, transformation, memory and oblivion, and restoration. Together, they tell an object-oriented history of art and architecture that is necessarily entangled with numerous individuals and institutions.

A Companion to Medieval and Early Modern Confraternities presents confraternities as fundamentally important venues for the acquisition of spiritual riches, material wealth, and social capital in early modern Europe and Post-Conquest America.

Orality in Europe (1400-1700)

Verse inscriptions in stone appeared in abundance on the facades of Romanesque churches in the eleventh and twelfth centuries. Marking the place where medieval worshippers were transported from secular to sacred space, portal verse inscriptions provide important, and often overlooked, insights into the dynamic function of the portals and their art. "The Allegory of

the Church" is the first full-length study of Romanesque verse inscriptions in the context of church portals and portal sculpture, and is the product of a twenty-year study. Calvin B. Kendall demonstrates how these inscriptions served to express the role of the church building as a concrete allegory of Christ and the Church. Describing them in detail, he traces the history and nature of the changes in allegorical interpretation of the inscriptions until, as medieval assumptions about language and rhetoric changed, they were finally abandoned by Gothic artists. An exemplary work of interdisciplinary scholarship, "The Allegory of the Church" includes a detailed catalogue of Romanesque verse inscriptions.
