As the fall of France took place, almost the entire coastline of Western Europe was in German hands. Clandestine sea transport operated lines of vital intelligence for wartime Britain. These "secret flotillas" landed and picked up agents in and from France, and ferried Allied escapees. This activity was crucial to the SIS (Secret Intelligence Service) and the SOE (Special Operations Executive). This authoritative account by the official historian, the late Sir Brooks Richards, vividly describes and analyses the clandestine naval operations that took place during World War Two. The Leopard is a modern classic which tells the spellbinding story of a decadent, dying Sicilian aristocracy threatened by the approaching democracy and revolution. 'There is a great feeling of opulence, decay, love and death about it' Rick Stein In the spring of 1860, Fabrizio, charismatic Prince of Salina, still rules over thousands of acres and hundreds of people, including his own numerous family, in mingled squalor. Then comes Garibaldi's landing in Sicily and the Prince must decide whether to resist the forces of change or come to terms with them. Once in a while, like certain golden moments of happiness, infinitely memorable, one stumbles on a book or a writer, and the impact is landmark. From the Silent Era Through 1965: Third Edition

*You can't go back and change the past. All you have left is the future. Melbourne secretary Anna Emerson's life is turned upside down when a stranger hands her a plane ticket to the Congo. The newly independent country is in turmoil, Simba rebels are on the move - but the invitation holds a precious clue to the whereabouts of her estranged father. Dan Miller signs up as a mercenary commando to fight the Communist uprising. He supports the cause, but that's not really why he's there. A devastating tragedy has taken all meaning from his life, and he's got nothing left to lose. In the Congo, Dan's belief in the war begins to crumble. Anna heads deeper into danger as she travels from a grand colonial mansion to an abandoned hotel on the shores of Lake Tanganyika, to a leprosy mission in the jungle and beyond. Their two paths collide through circumstances more extraordinary than fate. Inspired by real events, Congo Dawn combines epic drama with an intimate journey into the heart of a fractured family, as two characters, in search of people they lost, at last find a way to come home. It is a landmark novel about good and evil, and the inexhaustible power of love.*

**Focusing upon Allied clandestine operations by sea to Brittany from 1940 to 1944 this second edition effectively splits the original book on 'Secret Flotillas' into two volumes. Had the book remained as one volume it would have become unwieldy with the weight of new information that has come to light in the interim. Previous ed.: published as 1 vol.**
