The aim of this work is to make the science of the language, of which all the essentials are thoroughly presented, tributary to the art of expression. Every principle unfolded in the "Hints," and every idiom, common construction, and form, learned by the pupil in the analysis and parsing of the wide range of sentences given, is fixed in memory and, above all, in practice by varied and exhaustive drill in composition. The pupil is constantly stimulated to the attractive labor of composing sentences, arranging and rearranging their parts, contracting, expanding, punctuating, and criticizing them -- the analysis furnishing him materials for the synthesis, and the synthesis supplementing the analysis. Even if the study of grammar were only to lodge in the memory the facts and principles of the language, we contend that this could be done only by work and composition -- this, and this only, can make them permanent possessions. The first half of the book is devoted to "The Sentence and the Parts of Speech;" the next thirty pages to "Parts of Speech Subdivided;" the next seventy to "Modifications of the Parts of Speech;" and the remaining thirty to composition. - Preface.

Middle Egyptian introduces the reader to the writing system of ancient Egypt and the language of hieroglyphic texts. It contains twenty-six lessons, exercises (with answers), a list of hieroglyphic signs, and a dictionary. It also includes a series of twenty-six essays on the most important aspects of ancient Egyptian history, society, religion, literature, and language. Grammar lessons and cultural essays allows users not only to read hieroglyphic texts but also to understand them, providing the foundation for understanding texts on monuments and reading great works of ancient Egyptian literature. This third edition is revised and reorganized, particularly in its approach to the verbal system, based on recent advances in understanding the language. Illustrations enhance the discussions, and an index of references has been added. These changes and additions provide a complete and up-to-date grammatical description of the classical language of ancient Egypt for specialists in linguistics and other fields.

This is a print on demand book and is therefore non- returnable. The Handbook,

designed as a complete tool for the student of Biblical Hebrew, is the result of over twenty- five years of teaching the language. While it is primarily intended for use in Hebrew courses, it is also an excellent tool for a refresher course or useful as a basic grammatical reference work to aid the exegete. Similar in format to the author's Handbook of New Testament Greek, it combines reading lessons (vol. 1) with grammar, paradigms, and basic vocabulary (vol. 2). William LaSor uses the inductive method, studying directly from the text, rather than the conventional method of language study in which beginning students learn the rules of grammar and syntax and memorize vocabulary, often without reading the actual text. Instead of memorizing numerous forms that will never be encountered in actual reading, the student learns only what he or she encounters. The lessons are based on the Hebrew text of Esther, chosen because it presents little difficulty in theological or textual matters and has an excellent vocabulary. LaSor has included readings from other portions of the Bible, such as several chapters from Genesis, to introduce the student to Hebrew other than that found in Esther. The diligent student of this method will learn not only the elements of Hebrew but also how to inductively study the language and how to learn by induction what the Hebrew text says.

Brainerd Kellogg (August 15, 1834 - January 9, 1920) was born in Champlain, New York. He was a Tutor (1860-1861) and Professor of Rhetoric and English Literature (1861-1868) at Middlebury College in Vermont, United States. From 1868 to 1907 he was professor at the Brooklyn Polytechnic Institute. He published a number of influential education books, some of which are available on Project Gutenberg. Kellogg was the author of Rhetoric; History of the English Language. With Alonzo Reed, he jointly authored Graded Lessons in English; Higher Lessons in English; A One Book Course. He authored a variety of textbooks on English writing and literature, including a series on the works of William Shakespeare. Most methods of diagramming in pedagogy are based on the work of Alonzo Reed and Brainerd Kellogg in their book Higher Lessons in English, first published in 1877, though the method has been updated with recent understanding of grammar. Reed and Kellogg were preceded, and their work probably informed, by W. S. Clark, who published his "balloon" method of depicting grammar in his 1847 book A Practical Grammar: In Which Words, Phrases & Sentences are Classified According to Their Offices and Their Various Relationships to Each Another. Some schoolteachers continue to use the Reed-Kellogg system in teaching grammar, but others have discouraged it in favor of more modern tree diagrams.

DESCRIPTION - (ANALYSIS) Whosoever wants to learn English, he/she has to learn English Grammar. Grammar teaches how to read, write and speak English correctly. Grammar is divided into five important parts: 1. : Orthography 2. : Etymology 3. : Syntax 4. : Punctuation 5. : Prosody A learner of English Grammar is taught about alphabet 26 letters – Capital and Small letters separately – how to read , how to write and how to speak (pronounce) these letters nicely with ease. Then with the joining of one letter to another letter or letters they are taught how to form words step by step. Here also they are taught the method or art how to spell well these letters and how to learn nicely to read, write and speak these words with ease. At the third stage of teaching they are taught how to make sentence with the help of subject, verb, object and moreover with the complements, if any. For the students of senior classes they have to learn more about important chapters of Grammar so that they can be able to write the answers of long type questions, essays, letters etc. Over and above some grammar portions are also prescribed in the syllabus/prospectus. As these portions are very important ones and tough also, the students have to pay proper attention to the rules and get them by heart. These chapters are very important in English grammar: 1. : Kinds of sentence 2. : Parts Of Speech 3. : Tense 4. : Narration – Direct and Indirect Speech 5. : Transformation 6. : Analysis (Clauses)

7. : Synthesis 8. : Punctuation Analysis is a very important chapter of English Grammar. Analysis means to analyze a complex sentence mainly into two parts – 1 – Principal Clause and 2 – Subordinate Clause with its exact kind i.e. whether it is a Noun Clause or an Adjective Clause or an Adverb Clause. In this chapter the author has made an attempt in a very simple language with very suitable examples as to how students can understand which part of the sentence is a Principal Clause and which part is a Subordinate Noun Clause or Subordinate Adjective Clause or Subordinate Adverb Clause and why ? Students after learning the lesson can easily pick out the clauses from the complex sentence comprising of Principal Clause and Subordinate Noun Clause or Subordinate Adjective Clause or Subordinate Adverb Clause but with appropriate reasons under the rules as stated in the booklet of Analysis – A part of English Grammar. Do hope students and the boys desirous of learning English can be able to learn this important chapter within a few hours and can mastery over the subject by getting by heart all the relevant rules and practising to pick out clauses and naming them correctly with reasons. Over and above those people who couldn ' t learn it in their students ' life can also get a golden opportunity of learning this important chapter any time while in leisure particularly on tour waiting for bus, train or flight or when they are in leisure in their houses or in their offices. The Philippines series of the PALI Language Texts, under the general editorship of Howard P. McKaughan, consists of lesson textbooks, grammars, and dictionaries for seven major Filipino languages. Ilokano is an Austronesian language. It ranks third among the major languages of the Philippines, being spoken by just over 12 percent of the population. Widely spoken throughout the Philippines, Ilokano is the dominant language of most of the provinces of Northern Luzon and is used as a lingua franca by non-Ilokano speakers in this area. Settlers have also carried the language to Mindoro and to several areas in Mindanao. The Ilokano reference grammar was developed under the auspices of the Pacific and Asian Linguistics Institute (PALI) of the University of Hawaii, and accompanies the Ilokano dictionary by the same author as well as Ilokano Lessons by Bernabe, Lapid, and Sibayan. This reference grammar concentrates on syntactic structures. Professor Constantino cites morphological forms in depth in his dictionary. Consequently the treatment here should be used in conjunction with both the dictionary and the lessons mentioned above. It is the hope of the editor and author alike that this reference grammar will prove of value and interest to learners of Ilokano.
