The Triumph Stag was a two-door, four-seat, luxury touring car, designed to be Triumph's flagship model for the 1970s. Styled by prolific designer Giovanni Michelotti, and engineered by Harry Webster and Spen King, the Stag had no direct competitors throughout its production life and was the blueprint for the many four-seat convertibles on the market today. It was in production from 1970 through to 1977, but suffered from a lack of development and gained a reputation for engine problems caused by poor cooling. Triumph Stag: An Enthusiast's Guide explores the history, design and development of the car, taking a special look at the Stag's

unique Triumph V8 engine - and how Stag owners today have largely solved the cooling problems. It also covers owners' experiences, specialist modifications and improvements, and the car clubs that help the Stag remain one of the most popular classic cars in the UK. Superbly illustrated with 121 colour photographs.

The Commando was the main bike in Norton's range from 1968, and was produced until the demise of Norton Villiers Triumph in 1977. The bike featured the unique 'Isolastic' system that rubber-mounted the engine and protected the rider from the twin-cylinder's vibrations. The model range provided the rider with a choice of touring and sporting models, as well as offering special police machines and off-

dash where others plod. The definition of a sports car is somewhat fluid, still, most car fans feel that they know a sports car when they see one, and when asked to name a few will rattle off Jaguar, Corvette, Triumph, MG, Aston Martin, Ferrari, Lotus, Alfa-Romeo, BMW, and many others. Sports cars have offered road and track excitement for nearly 100 years. The original cars evolved for racing, but their appeal and popularity ensured that production versions were soon available for those whose sporting intents never left the boulevard or winding back road. The Art of the Classic Sports Car offers enthusiasts a beautifully illustrated review of several decades of high-performance cars, featuring cars from around the globe all shot in the studio to ensure a handsome

The Lotus Elan was Colin Chapman and Lotus' first affordable road car, produced from 1962 and, along with its larger Plus 2 variant, until 1974. As a replacement for the expensive Lotus Elite, the Elan and Plus 2 were both successful sports cars, which carried Lotus through the 1960s and into the 1970s. Starting with a brief history of Lotus and the Elan, Lotus Elan & Plus 2 Source Book provides a detailed originality guide to the Elan and Plus 2, identifying the design changes Lotus made to the models through their lifetimes. An 'owner's guide'

provides detailed information on owning and maintaining the cars in tip-top condition, and gives details of common faults and upgrades. The restoration guide gives any potential restorer the information to carry out the tasks needed to bring one of these cars back from the dead. With anecdotes and experiences from current and previous owners of Elans and Plus 2's, along with many colour photographs the book provides a valuable insight into owning running and racing these iconic cars.

1950s, it marked Lotus' transition from a maker of small racing cars, which had limited utility on the road, to the producer of a highly sophisticated road and race car. In the Elite, Lotus exploited its knowledge of new technology and racing pedigree to produce a car which, with its glass fibre monocoque and Coventry Climax engine, had the potential to be a world beater. This book gives an insight into the reasons the car was produced and

backbone chassis, the Elan was an affordable replacement for the expensive and exotic glass fibre monocoque Lotus Elite, and became the mainstay of the Lotus road car range throughout the 1960s and into the 1970s. First introduced as an open two-seater in 1962, and as a Coupé in 1966, the Elan was available as a do-it-yourself 'kit' car or in factory assembled form, and was refined through the 1960s, culminating in the famous

Sprint models of 1971, with the big valve 130bhp Twin Cam engine. The widened and stretched 2+2 Elan with its vestigial rear seats - named, unsurprisingly, the Plus 2 - was introduced in 1967, followed by the higher-spec Plus 2S in 1969, which was the first Elan not available in kit form. The Plus 2S 130 gained the Sprint specification engine in 1971, and the final Elan was the Plus 2S 130/5 of 1972. Just over 9000 Elans were

Lotus introduced the Type 75 Elite in 1974. Being a full four-seater coupe with an opening glass tailgate, it was designed to carry a family in comfort while retaining Lotus' trademark, excellent road holding and handling. Perhaps most importantly, it was the first - and successful - step in Colin Chapman's plan to move upmarket and away from Lotus' kit car image. The Elite gave rise to two derivatives, the Eclat and the Excel. The

Eclat was a restyled coupe version, sacrificing the Elite's unique rear styling and good rear passenger headroom for a more stylish exterior. With its conventional coupe styling, the Eclat was more mainstream than the Elite, and it was in the end the better seller. In turn, the Eclat spawned the Excel, the last of the Elite-inspired family. Matthew Vale looks at the history of these unusual Lotus models, and gives a thorough guide to buying and owning the cars today. Of interest to all motoring enthusiasts and Lotus owners in particular, it includes information on buying and owning the cars today, specifications, owner's experiences and
