History for Little Pilgrims Teacher's Manual In History of Little Pilgrims, we have sought to show God's providence working throughout history from its earliest days until the

The teacher's manual for *History of Little Pilgrims* seeks to enhance this study of the world and American history. Additional information and lesson ideas are provided, so teachers should use these to expand the instruction of this course beyond the textbook.

Have you ever wondered what the church would look like if Christians began to take the words of Jesus seriously—the words some Bibles print in red? What if Jesus actually meant for us to do the things he said? What if those who “believe in Jesus” really did value the things he valued? Would the church look different? Would your neighborhood stay the same? In *Think Red*, Larry Stoess takes a close look at the values, the vision, and the mission of Jesus, and then holds up a mirror for us to see if our communities look anything like Jesus. If we dare look in the mirror we may be inspired to leave behind our obsession with consumer-based religion and follow the way of Jesus. Those who do will be set free to imagine creative and whimsical expressions of community.

The scope of the subject presented in this work is expressed on the title page. It will be readily seen that the author has departed from the course usually followed by writers on the *Life of Jesus Christ*, which course, as a rule, begins with the birth of Mary's Babe and ends with the ascension of the slain and risen Lord from Olivet. The treatment embodied in these pages, in addition to the narrative of the Lord's life in the flesh comprizes the antemortal existence and activities of the world's Redeemer, the revelations and personal manifestations of the glorified and exalted Son of God during the apostolic period of old and in modern times, the assured nearness of the Lord's second advent, and predicted events beyond all so far as the Holy Scriptures make plain.

Here are 26 creative activities to engage students with insightful and intriguing science experiments! Correlated with

Bible-in-Life and Echoes curricula for Units 1-12, this book is loaded with innovative ideas, as well as Scripture references and teacher tips. It provides great alternatives for Bible-in-Life Step Three activities. This handy resource fits well with any curriculum or can be used for stand-alone activities. Kids love a good slimy activity and things that go boom. So put on your lab coats and get ready to show 5- to 7-year-olds God's amazing, awesome world! From electricity to basic chemistry, these simple science and nature explorations reinforce biblical truths. With every fizzle, pop, and gurgle these oozing, bubbling, sticky, yet teacher-friendly activities lead kids straight to the Ultimate Scientist-God! Each lesson includes Bible references, supply lists, teacher tips, and wrap-up questions. What do indoor picnics and funny face contests have to do with loving Jesus? More than you realize! That perspective propelled her to create this idea-packed book, in which she offers motivating reflections, real-life stories, and a sandbox full of inventive ways to help you turn your kids' hearts toward God. Each chapter focuses on one virtue that is key for developing your child's character. Here you'll find a full year of ways to draw your children closer to God through delightful antics like Family Olympics, One Fancy Feast, and Light 'Em Up.
