Gulzar, one of India's finest film-makers and lyricists and has always been a poet at heart. His oeuvre is steeped in a poetic sensibility, marked by a lyricism rare in the world of Hindi cinema. Today, Gulzar is regarded as one of India's foremost Urdu poets, unparalleled in his exploration of human relationships and the insight and sensitivity with which he addresses the many facets of daily life. The sophistication and cadences of Gulzar's work come alive in this bilingual edition of some of his best poetry, sensitively translated by Pavan K. Varma.

In 1897 the promising young sociologist William Edward Burghardt Du Bois (1868-1963) was given a temporary post as Assistant in Sociology at the University of Pennsylvania in order to conduct a systematic investigation of social conditions in the seventh ward of Philadelphia. The product of those studies was the first great empirical book on the Negro in American society. More than one hundred years after its original publication by the University of Pennsylvania Press, *The Philadelphia Negro* remains a classic work. It is the first, and perhaps still the finest, example of engaged sociological scholarship—the kind of work that, in contemplating social reality, helps to change it. In his introduction, Elijah Anderson examines how the neighborhood studied by Du Bois has changed over the years and compares the status of blacks today with their status when the book was initially published.

A narrative in correspondence from the "Guggenheim Letters," a remarkable archive that, in its entirety, would make a stack equal in height to the model of the Guggenheim Frank Lloyd Wright made in 1946. Here is a very personal and detailed account of the creative struggle required to build the extraordinary Guggenheim Museum. It is a seventeen-year saga which saw the firing of the first curator, the death of the donor, and the creation of six complete sets of plans and 749 drawings. Ironically, Wright died six months before its completion. From its opening in October 1959, The Solomon R. Guggenheim Museum has been recognized as Frank Lloyd Wright's crowning achievement. Pfeiffer demonstrates that the story of its construction is arresting drama as well. The Guggenheim, while periodically modified and adapted to meet its changing needs, continues to give expression to Wright's artistic vision and is a testament to the spirit of both Wright and Guggenheim.

A grisly murder reveals the hateful secrets that lie beneath a small town ' s surface The locals call her the Ballou. An illustrator for a high-fashion magazine, she has been the talk of the upstate town of Sutton ever since she first appeared, paying cash for one of the finest houses on Nicholas Street. Daring, gaudy, and grand, she inspires envy in the women and lust in the men. And in one member of this quiet town, she is about to inspire murder. The trouble starts when her rakish New York lover moves in full time, scandalizing the prudish Ayers family next door. When the Ayers ' maid pays a social call to the Ballou, she finds her lying dead at the foot of a staircase—gray, cold, and fabulous no more. Suspicion falls on the Ayerses, whose starched exterior hides a wealth of ugly secrets. From this interlocking narrative told from the perspectives of the citizens of Sutton comes a reminder that no town is too small for murder.

***The traditional understanding of Shiva told through stories and teachings from the Shiva Mahapurana • Explains Shiva's contradictory forms, such as destroyer or benefactor, and how his form depends on the needs of the devotee • Reveals how Shiva's teachings allow one to see through the illusions at the root of all grief and alienation in human life • Explores Shiva's relationships with Durga, Shakti, Sati, and Parvati and with his sons Ganesh and Kartikeya Shiva, the most ancient and complex deity of the Hindu pantheon, has been portrayed in many contrasting lights: destroyer and benefactor, ascetic and householder, wild demon slayer and calm yogi atop Mount Kailash. Drawing from the Hindu sacred text the Shiva Mahapurana--said to be written by Shiva himself--Vanamali selects the essential stories of Shiva, both***

**those from his dark wild side and those from his benevolent peaceful side. Vanamali discusses Shiva's many avatars such as Shambunatha and Bhola, as well as Dakshinamurti who taught the shastras and tantras to the rishis. She explores Shiva's relationships with Durga, Shakti, Sati, and Parvati and with his sons Ganesha and Kartikeya. Examining Shiva's acceptance of outsiders, Vanamali explains why ghosts and ghouls are his attendants and why his greatest devotees are demon kings, like Ravana. She includes famous Shiva stories such as the Descent of the River Ganga and Churning the Milky Ocean as well as those that reveal the origin of the festival of lights, Diwali; his creation of the cosmic couple, or hierogamos; and how Shiva and Parvati taught the world the secrets of Kundalini Shakti. The author also draws upon Shaivite teachings to illustrate the differences between Western science and Vedic science and their explanations for the origins of consciousness. Integrating Shiva's two sides, the fierce and the peaceful, Vanamali reveals that Shiva's form depends on the needs of the devotee. Understanding his teachings allows one to see through the illusions at the root of all grief and alienation in human life, for Shiva is the wielder of maya who does not fall under its spell. While Ganesha is known as the remover of obstacles, Shiva is the remover of tears.**

The Muslim man is perceived as an ideal type of an always ready sexual partner. Love and Sex in Islam lifts the veil covering the delicate theme, in which the phenomena seeming incompatible turn out to be good neighbors.

THE TOP 10 SUNDAY TIMES BESTSELLER Shortlisted for the FT Business Book of the Year Award 2019 'Easily the most important book to be published this century. I find it hard to take any young activist seriously who hasn't at least familiarised themselves with Zuboff's central ideas.' - Zadie Smith, The Guardian The challenges to humanity posed by the digital future, the first detailed examination of the unprecedented form of power called "surveillance capitalism," and the quest by powerful corporations to predict and control us. The heady optimism of the Internet's early days is gone. Technologies that were meant to liberate us have deepened inequality and stoked divisions. Tech companies gather our information online and sell it to the highest bidder, whether government or retailer. Profits now depend not only on predicting our behaviour but modifying it too. How will this fusion of capitalism and the digital shape our values and define our future? Shoshana Zuboff shows that we are at a crossroads. We still have the power to decide what kind of world we want to live in, and what we decide now will shape the rest of the century. Our choices: allow technology to enrich the few and impoverish the many, or harness it and distribute its benefits. The Age of Surveillance Capitalism is a deeply-reasoned examination of the threat of unprecedented power free from democratic oversight. As it explores this new capitalism's impact on society, politics, business, and technology, it exposes the struggles that will decide both the next chapter of capitalism and the meaning of information civilization. Most critically, it shows how we can protect ourselves and our communities and ensure we are the masters of the digital rather than its slaves.

***Jaishankar Prasad's epic poem Kamayani (1936) is a feast for intellectuals. It operates at three different levels: the gross or mythological, the emotional and the spiritual. Prasad infused the vision of a rishi, a sage, into this work. The reader experiences poetic currents of human emotions - anxiety, hope, desire, love, shyness, sorrow, conflict - and finally emerges at an elevated level of consciousness.***
