

## Lutheran Liturgy Commendation Of The Dying

**Drawn from three decades of parish ministry experience, Steward of Stories opens the delightfully complex and nuanced world of the congregation to a wider audience beyond, but including, local parish pastors. Each chapter brings together dramatically different stories about ordinary ministry situations organized around a core thematic connection, including pastoral incidents focused on topics like "Paying Attention," "Marry Me," and "Time to Go." Linking these together is the interwoven wisdom of an experienced pastor who encourages readers to consider the theological and ministry challenges at stake for us all. Clearly written and highly accessible, these vignettes are meant for lay and clergy audiences alike, especially as they come together in their mutual life in Christian community. These are stories about real people drawn from actual events--accounts that will prompt thoughtful contemplation and conversation among the faithful about saints and sinners in everyday congregations and situations. Each chapter concludes with helpful questions for use in both educational settings and individual study. This book is ideal for personal reflection or group discussion and will stimulate a richer awareness of the challenges and opportunities we all face in the ministries we share.**

**The pew edition of the prayer book of the Anglican Church of Canada. Includes: the Divine Office; Baptism and Reconciliation; the Holy Eucharist; the Proper of the Church Year; Pastoral Offices; Episcopal Offices; Parish Thanksgiving and Prayers; the Psalter; and Music. (ABC).**

**Janet Peterman presents a variety of healing and comforting rituals that can be used in situations that are likely to be encountered in congregations but yet are not typically treated in standard liturgies. Peterman offers her reflections on the significance of rituals and includes a broad spectrum of rituals for personal use, for life in the home or at church, for use in the wider community, or for help in leading to transformation. She concludes by describing a seven-step process for creating new rituals and suggests ways to adapt existing worship materials for use in new settings. This much-needed resource will help pastors and lay leaders develop their own skills and insights for creating liturgies and rituals that provide relief, healing, and support for those in congregations who are faced with critical and life-altering situations.**

"If Christian hope is reduced to the salvation of the soul in a heaven beyond death," writes Jürgen Moltmann, "it loses its power to renew life and change the world, and its flame quenched." Thomas Rausch, SJ, agrees, arguing that too often the hoped-for eschaton is replaced by an almost exclusive emphasis on the "four last things"-death and judgment and hell. But eschatology cannot be reduced to the individual salvation. In his new book, Rausch explores eschatology's intersections with Christology, soteriology, ecclesiology, and, perhaps most intriguingly, liturgy. With the early Christians, he sees God's future as a radically present reality, already present initially in Christian worship, especially in the celebration of the Eucharist. This fresh and insightful work of theology engages voices both ancient and contemporary.

This book takes the principles found in Constance Cherry's successful *The Worship Architect*--in which she provided dynamic blueprints for designing worship services--and applies them to special services in the life of the church. Cherry, a worship professor and practitioner, offers theological reflection, practical guidance, and suggested resources to help worship leaders and ministry students in training to create meaningful special services related to the sacraments, life passages, and other occasions. Cherry sets forth a process concerning worship design for special services and demonstrates how this process is conducive to virtually any style of worship practiced today in a myriad of Christian communities. She includes a model order for

each service type, including weddings, funerals, baptisms, child dedications, Holy Communion, and more. The book not only explains what leaders do in order to preside at special services and how to do it, but also why they make certain choices. Each chapter includes discussion questions, practical exercises, and a basic glossary. This liturgical resource will help guide pastors and other church workers as they help church members through the bereavement process. The Presbyterian Supplemental Liturgical Resource (SLT) series includes liturgies that were used on a trial basis in preparation for the development of the Book of Common Worship. Though superseded by the Book of Common Worship, SLR resources remain valuable, both for the variety of liturgical texts they contain and for the commentary on the text, which contains rich historical, theological, and practical background.

***Death Liturgy and Ritual is a two-volume study of Christian funerary theology and practice, presenting an invaluable account of funeral rites and the central issues involved for compilers and users. Paul Sheppy writes from direct experience of conducting funerals and of drafting liturgical resources for others. In Volume II: A Commentary on Liturgical Texts, reviews a wide range of current Christian funeral rites and examines how they reflect both the Church's concern for the death and resurrection of Christ and the contemporary secular demand for funerals which celebrate the life of the deceased. The companion volume, Volume I: A Pastoral and Liturgical Theology, proposes that the Church ought to construct its theological agenda in dialogue with other fields of study. Sheppy argues for a Christian statement about death that finds its basis in the Paschal Mystery, since human death must be explained by reference***

**Caring through the Funeral is a guidebook to take pastors through the complete funeral process, from the moment the call is received to the weeks following the funeral. More than just a "how-to," Caring through the Funeral uniquely addresses the funeral process from the perspective of pastoral ministry—of pastoral caring throughout the time of mourning, from the death through post-funeral grieving. Many times the funeral is the most momentous means of pastoral caring for the bereaved, and often it is the only time that the church has an opportunity to care for the family and friends. Gene Fowler explores what pastors go through at each stage of the funeral process. Both descriptive and conceptual, Fowler's practical advice, solid pastoral and theological grounding, and case illustrations take pastors and student pastors through many issues: - the language of loss—the vocabulary ministers need for this caring ministry - bereavement and grief - pastoral care of family members - pastoral care of non-family members, including groups within the church and community - the funeral as worship service, including a comparison of our Protestant liturgical books and the elements that comprise a Christian funeral - practical issues of planning the service, including sample services - funeral service as means of caring for the bereaved and as a rite of passage, and the interrelationship between funerals, mourning, and grief - how funerals often launch mourners on a spiritual journey - questions asked by the bereaved - role of resurrection in pastoral care - pastoral care after the funeral**

**Is death merely the cessation of life? Are our final years simply a wearing out of the body? Are hospitals and funeral homes--the bureaucratic machinery of death--capable of handling the profound spiritual dimension of dying? In *The Last Passage*, Donald Heinz offers wise answers to these questions in a book that urges us to "recover a death of our own" and to view our final years as a fulfillment, a "last career." Despite the recent spate of books on death and dying, death remains a fact our culture tries desperately to ignore. In other times and in other cultures, preparing for death was seen as an important spiritual task--perhaps the most important task of our lives. Heinz argues that we can reconceive of death, reinvest it with meaning, and save it from becoming a meaningless biological event. Seeking appropriate models for such a reconstruction, Heinz offers a fascinating overview of the many ways death has been envisioned and ritualized throughout human history, from the Tibetan Book of the Dead to 15th century Christian *ars moriendi*--manuals on the art of dying--and from Jean Paul Sartre to Elizabeth Kubler-Ross. He also surveys the more recent contributions of psychologists, anthropologists, cultural critics, and death awareness advocates, whose efforts have largely failed to integrate death into a larger human story and the larger human community. Finally, Heinz shows us how we might create rituals through the use of music, visual arts, dance, drama, and language that would enable us to approach death with reverence, as the spiritual**

Perspectives on Christian Worship presents in counterpoint form five basic common beliefs on Christian worship that have developed over the course of church history with a view toward determining which is most faithful to Scripture. Each chapter is written by a prominent person within each tradition, and each writer has the opportunity to respond to each differing view.

"The Encyclopedia of Christianity is the first of a five-volume English translation of the third revised edition of Evangelisches Kirchenlexikon. Its German articles have been tailored to suit an English readership, and articles of special interest to English readers have been added. The encyclopedia describes Christianity through its 2000-year history within a global context, taking into account other religions and philosophies. A special feature is the statistical information dispersed throughout the articles on the continents and over 170 countries. Social and cultural coverage is given to such issues as racism, genocide, and armaments, while historical content shows the development of biblical and apostolic traditions."--"Outstanding reference sources 2000", American Libraries, May 2000. "Lutheranism in America is a comprehensive history of the Lutheran church and the Lutheran people in the United States. This volume...presents the historical facts and interprets the general course of events in such a way as to prevent the reader from losing the main thread in a mass of details. At the same time this work points the way toward advanced study. Beginning with the early Lutheran church in New Netherlands, the author shows the relationship between American culture and the Lutheran Church. He carefully presents the development of this church in the light of historical perspective, showing how the church and the nation were born in America at the same time, grew up side by side and developed by similar stages of progress. Dr. Wentz also shows how the Lutheran church in America is an integral and potent part of American Christianity, and its members a typical element of the American nation." -- BOOK JACKET.

This unique volume offers a handbook for busy pastor, student or interested layperson to better understand the use of Christian art and the history of its use in Lutheranism since the time of the Reformation. The author states in the introduction to the book: "The Lutheran Church was never an enemy of the art, neither the fine arts nor industrialized arts. . . . The Lutheran Church, to confess its faith did not hesitate to enlist the aid of pure and beautiful art forms, not only in the harmonies of poetry and music, but also in architecture, sculpture, painting, bronze work, wood-carving, and embroidery." This book concerns itself chiefly with church architecture, but necessarily also discusses the place of the fine arts in the construction and use of spaces consecrated to the worship of the One True God: Father, Son and Holy Spirit, where God's people are gathered to receive His gifts of grace and mercy through His Holy Word and the Blessed Sacrament of the Altar.

*Throughout history, Christians have prayed for the dead – both for continual growth of the faithful and for their advancement from purgatory, and sometimes, even, for the deliverance of the unsaved from hell. Understanding Prayer for the Dead defends all three kinds of prayer. It challenges Protestants, who seldom pray for the dead, to begin doing so – and Roman Catholics and Eastern Orthodox, who pray only for the Christian dead, to include the unsaved as well. James B. Gould addresses the biblical credentials of prayer for the dead and provides a historical overview of such prayers from ancient Christianity to the current practice of the three main branches of the Church. He also discusses the logical assumptions prayer for the dead requires – that prayer is effective, that the dead are conscious, and that the afterlife involves change – and lays out a theological framework for such prayers. Prayer for the departed raises the most basic of theological questions, matters that go to the centre of God's purpose in creating spiritual beings and redeeming sinful humankind. The argument, while revisionary in some respects, is orthodox, ecumenical, and integrative, engaging a range of academic disciplines so as to be biblically accurate, historically informed, and philosophically reasoned.*
