In his prints, objects, and installations, Stefan Strumbel (b. 1979) overdraws the features of cultural products and cult objects from his native Black Forest by adding stylistic elements from Street and Pop art. He places cuckoo clocks, wooden masks worn during the local Carnival celebrations, or crucifixes in new and sometimes provocative contexts. For instance, he will supplant original elements of the cuckoo clock with motifs associated with violence, pornography, and death.

The critical engagement with the idea of the "homeland" is a central theme in Strumbel's art. "Home" must here be read as a metaphor for experiences of socialization and the cornerstone of personal identity--an identity that, in a globalized and increasingly digital world, takes on an anachronistic aspect. Local tradition thus becomes a cultural construction; the cuckoo clock turns into an alien element and vehicle of the transference of individual identity. The aggressive defamiliarization of traditional attributes and the garish colors of Stefan Strumbel's works have proven widely popular. His objects are collected by Karl Lagerfeld, Frieder Burda, and others.

In the years between 1848 and 1918,

the Habsburg Empire was an intensely pluricultural space that brought together numerous “ nationalities ” under constantly changing – and contested – linguistic regimes. The multifaceted forms of translation and interpreting, marked by national struggles and extensive multilingualism, played a crucial role in constructing cultures within the Habsburg space. This book traces translation and interpreting practices in the Empire ’ s administration, courts and diplomatic service, and takes account of the “ habitualized ” translation carried out in everyday life. It then details the flows of translation among the Habsburg crownlands and between these and other European languages, with a special focus on

Italian – German exchange. Applying a broad concept of “ cultural translation ” and working with sociological tools, the book addresses the mechanisms by which translation and interpreting constructs cultures, and delineates a model of the Habsburg Monarchy ’ s

“ pluricultural space of communication ” that is also applicable to other multilingual settings. Published with the support of the Austrian Science Fund (FWF)

case away from him. Barudi continues to investigate clandestinely and discovers the murderer ' s motive: it is a blood feud between the Mushtak and Shahin clans, reaching back to the beginnings of the 20th century. And, linked to it, a love story that can have no happy ending, for reconciliation has no place within the old tribal structures. Rafik Schami dazzling novel spans a century of Syrian history in which politics and religions continue to torment an entire people.

Simultaneously, his poetic stories from three generations tell of the courage of lovers who risk death sooner than deny their passions. He has also written a heartfelt tribute to his hometown Damascus and a great and moving hymn to the power of love.

matures, his strange gift—an acute sensitivity to impending death—never leaves him, and he yearns to become a healer. Arab madrassas are the only authentic medical schools, and he makes his perilous way to Persia. Christians are barred from Muslim schools, but claiming he is a Jew, he studies under the world's most renowned physician, Avicenna. How the woman who is his great love struggles against her only rival—medicine—makes a riveting modern classic. The Physician is the first book in New York Times–bestselling author Noah Gordon's Dr. Robert Cole trilogy, which continues with Shaman and concludes with Matters of Choice.

Im Zuge der kulturellen und wirtschaftlichen Globalisierung kommt der Aneignung sowie der Erforschung und Vermittlung interkultureller Kompetenzen eine große Bedeutung zu. Auch auf dem

Arbeitsmarkt wird diese Schlüsselqualifikation in zunehmendem Maße vorausgesetzt und nachgefragt. Diese Einführung informiert über Konzeptionen, Problembereiche, Methoden, Theorieansätze sowie zentrale Begriffe der Interkulturellen Kommunikation und bietet zahlreiche anschauliche Beispiele. Der Autor analysiert Interaktionssituationen (beim Lernen, in der Wirtschaft und in multikulturellen Gesellschaften) und beschreibt als weitere Schwerpunkte Kulturtransfer (in den Medien und der Werbung) sowie Fremdwahrnehmungsprozesse (Stereotypenbildung, Vorurteilsstrukturen etc.). Die vierte Auflage wurde durchgehend

A man goes in search of the Roman poet Ovid, banished to the end of the world. He finds that Ovid's personality and stories have undergone a sea-change, and have fragmented themselves into lots of clues - people, bizarre events, odd stretches of landscape, and a story emerges.

Sure to be the subject of much discussion, this book takes a look at the post Vatican II approach to liturgy through the eyes of a man who says the Church has lost much and gained nothing through the

promulgation of the "Novus Ordo" Mass. An accomplished novelist and writer, German author Martin Mosebach gives a plea for a return to the preconciliar Latin Rite, giving a persuasive and compelling argument against what he sees as a jarring break in tradition. Yet there is another way to approach the Liturgy. In his foreword, Fr. Joseph Fessio, S.J., points out the difference between Mosebach's approach and "those who, like myself, the Adoremus Society, and--I think I can assert this with confidence--Pope Benedict XVI, advocate a rereading and restructuring of the liturgical renewal intended by the Second Vatican Council, but in light of the Church's two-thousand-year tradition."

Lawrence of Arabia and Wilfred Thesiger, The English Patient and Star Wars, and home to nomadic communities whose ways of life stretch back millennia. Today it's a teeth-janglingly dangerous destination, where the threat of jihadists lurks just over the horizon. Following in the footsteps of 16th century traveller Leo Africanus, Nicholas Jubber went on a turbulent adventure to the forgotten places of North Africa and the legendary Timbuktu. Once the seat of African civilization and home to

the richest man who ever lived, this mythic city is now scarred by terrorist occupation and is so remote its own inhabitants hail you with the greeting, 'Welcome to the middle of nowhere'. From the cattle markets of the Atlas, across the Western Sahara and up the Niger river, Nicholas joins the camps of the Tuareg, Fulani, Berbers, and other communities, to learn about their craft, their values and their place in the world. "The Committee for Humanities and the Social Sciences at the Research Council has been commissioned by the government to carry out a program of research into Sweden's relations with Nazism, Nazi Germany and the Holocaust. A part of this commission was to produce a survey of the research field. This survey was organized around the three key concepts of the title of

the research program, with chapters on Sweden and the Holocaust. A special chapter on Sweden's economic relations to Nazi Germany was added, as well as a bibliography. The survey gives both a picture of a broad research in the field, with ongoing debates in a number of areas, but also of significant gaps, where research still is lacking. The survey presents an internationally unique presentation of the state of research in a much debated and controversial field."

Writing, Remembrance, and Political Imagination

Now available to an English-speaking audience, this book presents a groundbreaking theoretical analysis of memory, identity, and culture. It investigates how cultures remember, arguing that human memory exists and is communicated in two ways, namely inter-human interaction and in external systems of notation, such as writing, which can span generations. Dr. Assmann defines two theoretical concepts of cultural memory, differentiating between the long-term memory of societies, which can span up

to 3,000 years, and communicative memory, which is typically restricted to 80-100 years. He applies this theoretical framework to case studies of four specific cultures, illustrating the function contexts and specific achievements, including the state, international law, religion, and science. Ultimately, his research demonstrates that memory is not simply a means of retaining information, but rather a force that can shape cultural identity and allow cultures to respond creatively to both daily challenges and catastrophic changes.

On 6 July 2005, the world held a collective intake of breath as IOC president Jacques Rogge declared: 'The games of the 30th Olympiad in 2012 are awarded to the city of ... London.' Despite the images of jubilant crowds in the streets of Britain's capital, there were some, like Lance Forman, for whom those words spelled only dread and uncertainty. His 100-year-old, fourth-generation family business, H. Forman & Son, was facing eviction to make way for the Olympic Stadium, and teetered on the

It is a story of skulduggery and bullying mounted against 350 local businesses, employing over 12,00 people, who stood in the way not just of the world's most famous sporting event, but of an opportunity to develop the land on which they had successfully run businesses over decades.

Text in English and German. Rudiger Kramm is one of the most prominent representatives of that generation of architects having stepped out, in the late seventies, of the shadow of their predecessors, who had

refounded and developed further Modern architecture in Germany in the three decades after the war. Kramm, with his constantly independent interpretation of brief and spatial context, avoids both the dogma of rigid functionalism and the random qualities of Postmodern aesthetics in order to find an astonishing range of design concepts for the functional quality of buildings, which is a central question for him. Kramm studied at the Technische Hochschule Darmstadt from 1966 to 1972, where the architecture faculty largely bore the stamp of Gunter Behnisch at

the time. After gaining his diploma he went on to the University College in London, where he subsequently worked on urban renewal projects with D W Insall. He opened his own office in Darmstadt in 1977. In 1990 he was appointed professor of building construction and design at the University of Karlsruhe; in the same year he made Axel Strigl his office partner. After projects for refurbishing historical building stock and early residential buildings, in which he tried out concepts for energy- and resource-saving construction, Kramm acquired a reputation

OTHERS HAVE SAID ABOUT THE DIARY For an in depth review of The Diary, please visit The Herald Palladium. Initially, the material upset me emotionally in an unexpected way. It took me some time to re-read the diary entries one by one to gain a calmer perspective. Of course, for 60 years or longer I have been aware of the strategies and tactics, the techniques and methods applied and utilized by the Nazi regime to contaminate and poison the minds and souls of people—beginning with children from the age

of 10—with its fierce, all-embracing ideology. Never, before reading Wolfhilde's Hitler Youth Diary, have I been confronted with such massive, monstrous evidence as to what the Nazi regime was doing to us—and how they did it. What is presented here in the diary of a girl from 13 through 21 years of age is a textbook example—concrete evidence—of how they did it. Wolfgang Schleich, 1928-Journalist.
