*Absent the Archive: Cultural Traces of a Massacre in Paris, 17 October 1961 is the first cultural history devoted to literary and visual representations of the police massacre of peaceful Algerian protesters. Covered up by the state and hidden from history, the events of October 17 have nonetheless never been fully erased. Indeed, as early as 1962, stories about the massacre began to find their way their way into novels, poetry, songs, film, visual art, and performance. This book is about these stories, the way they have been told, and their function as both documentary and aesthetic objects. Identified here for the first time as a corpus - an archive - the works in question produce knowledge about October 17 by narrativizing and contextualizing the massacre, registering its existence, its scale, and its erasure, while also providing access to the subjective experiences of violence and trauma. Absent the Archive is invested in exploring how literature and culture represent history by complicating it, whether by functioning as first responders and persistent witnesses; reverberating against reality but also speculating on what might have been; activating networks of signs and meaning; or by showing us things that otherwise cannot be seen, while at the same time provoking important questions about the aesthetic, ethical, and political stakes of representation.*

massacre at paris From Christopher Marlowe

A riveting account of the Saint Bartholomew’s Day Massacre, its origins, and its aftermath, this volume by Barbara B. Diefendorf introduces students to the most notorious episode in France’s sixteenth century civil and religious wars and an event of lasting historical importance. The murder of thousands of French Protestants by Catholics in August 1572 influenced not only the subsequent course of France’s civil wars and state building, but also patterns of international alliance and long-standing cultural values across Europe. The book begins with an introduction that explores the political and religious context for the massacre and traces the course of the massacre and its aftermath. The featured documents offer a rich array of sources on the conflict – including royal edicts, popular songs, polemics, eyewitness accounts, memoirs, paintings, and engravings – to enable students to explore the massacre, the nature of church-state relations, the moral responsibility of secular and religious authorities, and the origins and consequences of religious persecution and intolerance in this period. Useful pedagogic aids include headnotes and gloss notes to the documents, a list of major figures, a chronology of key events, questions for consideration, a selected bibliography, and an index.

*The landmark history of France and French culture in the eighteenth-century, a winner of the Los Angeles Times Book Prize When the apprentices of a Paris printing shop in the 1730s held a series of mock trials and then hanged all the cats they could lay their hands on, why did they find it so hilariously funny that they choked with laughter when they reenacted it in pantomime some twenty times? Why in the eighteenth-century version of Little Red Riding Hood did the wolf eat the child at the end? What did the anonymous townsman of Montpelier have in mind when he kept an exhaustive dossier on all the activities of his native city? These are some of the provocative questions the distinguished Harvard historian Robert Darnton answers The Great Cat Massacre, a kaleidoscopic view of European culture during in what we like to call "The Age of Enlightenment." A classic of European history, it is an essential starting point for understanding Enlightenment France.*

*From a pre-eminent Yale historian comes the first popular history of the 1871 Paris Commune, a seminal episode in modern European history. The Paris Commune lasted for only 64 days in 1871, but during that short time it gave rise to some of the grandest political dreams of the nineteenth century -- before culminating in horrific violence. Following the disastrous French defeat in the Franco-Prussian War, hungry and politically disenchantd Parisians took up arms against their government in the name of a more just society. They expelled loyalists and soldiers and erected barricades in the streets. In Massacre, John Merriman introduces a cast of inimitable Communards -- from les péoleuses (female incendiaries) to the painter Gustave Courbet -- whose idealism fueled a revolution. And he vividly recreates the Commune's chaotic and bloody end when 30,000 troops stormed the city, burning half of Paris and executing captured Communards en masse. A stirring evocation of the spring when Paris was ablaze with cannon fire and its citizens were their own masters, Massacre reveals how the indomitable spirit of the Commune shook the very foundations of Europe.*

A Retelling

The story of Dido Queen of Carthage focuses on the classical figure of Dido, the Queen of Carthage. There are strong homosexual themes in this play. It tells an intense dramatic tale of Dido and her fanatical love for Aeneas (induced by Cupid), Aeneas’ betrayal of her and her eventual suicide on his departure for Italy. The playwrights depended upon Books 1, 2, and 4 of the Aeneid of Virgil as their main source. The opening scene, with its emphasis on homosexuality, as an indication of Marlowe’s own emotional orientation when he wrote this play.

The Massacre at Paris is an Elizabethan play that concerns the Saint Bartholomew’s Day Massacre, which took place in Paris in 1572, and the part played by the Duc de Guise in those events.

The massacre is believed to be planned by French Catholic leaders and resulted in a general atmosphere of religious terror throughout the country. The play also describes the way the Duke of Guise, leader of the Catholic League, was later lured into a trap and assassinated by his Protestant enemies. Although the play is set in the neighboring France, the religious massacre that took place and its connotations were of great importance to Protestant England. Significantly, by the end of Marlowe’s work, an English messenger had to take a letter to Queen Elizabeth from the French King Henry III who had recently converted from Protestantism to Catholicism in order to be crowned.*
