Profit Without Honor: White-Collar Crime and the Looting of America seeks to elucidate a very broad subject: white-collar crime. How broad? Its domain stretches from the small price-gouging merchant to the huge price-fixing cartel. It can breed in an antiseptic hospital or a toxic dump. It is at home on Main Street, Wall Street, Madison Avenue, and countless other addresses - including, at times, 1600 Pennsylvania Avenue.

The 1st edition of Back Office and Beyond became the benchmark source and reference for 'best practice' in back office procedures. Better attention to back office procedures would have prevented disasters at Barings, Sumitomo, and other causes celebres - not to mention the latest debacle at Allfirst in the USA.This ground breaking book is an essential read for anyone wanting his/her organisation to thrive and survive, containing particularly practical guidance and advice and now extends its cover to the implications of CAD II. There is a compelling requirement for aspects of risk to be situated in the Back/Middle office areas. Indeed, they should be involved at first base: for if data is not captured accurately, there is little chance of the institution's risk profile being accurate. With so many banks offering similar products and pricing, accurate and speedy settlements have become a competition issue not to be ignored. As an additional reason for purchase, this edition now offers a guide to Equities' settlement also.

Many companies have invested in building large databases and data warehouses capable of storing vast amounts of information. This book offers business, sales and marketing managers a practical guide to accessing such information.

Broker-level questions identified throughout the text distinguish higher-level questions from basic-level and intermediate-level questions. False friends feature identifies seemingly similar terms that are often confused with each other. Special sections containing real estate math questions, sample salesperson and broker final exams, and review exams."--BOOK COVER.
