A man was promised riches if he could swim three kilometers; he swam one and a half kilometers, got tired, and swam back. It takes the same amount of energy to retreat, so invest it in completion. Combining powerful concepts and principles from both theology and business, *So You Want to Be the Master?* delivers tools and techniques for taking control of your inner thoughts and outward actions so that you can navigate today's complicated society with confidence and ease. Joshua Maponga takes an in-depth philosophical yet practical approach to ten guiding values: privacy, effort, development, action, self-esteem, sympathy, situations, service, joy, and direction. He offers insight into each value, how society has corrupted it, and how you can use it to recover yourself and succeed in your own life with relationships and in business. Asserting that "how you believe is how you behave," Maponga shows you how faith—no matter what religion you follow—directly impacts your morality and your ability to deal ethically and effectively with modern issues. Weaving theological wisdom with common-sense advice and exercises, this inspirational guide will help you master the art of registering your existence, leaving your footprint, and impacting the world. Offers a "bible" for success in life and work that advocates living by one simple principle: fear nothing.

Throughout history, there has been one quality that great leaders, makers, artists and fighters have shared. The Zen Buddhists described it as inner peace, the Stoics called it ataraxia and Ryan Holiday calls it stillness: the ability to be steady, focused and calm in a constantly busy world. Drawing on a wide range of history's greatest thinkers, Holiday shows us how crucial stillness is, and how it can be cultivated in our own lives today. Just as Winston Churchill, Oprah Winfrey and baseball player Sadaharu Oh have done, we can all benefit from stillness to feed into our greater ambitions - whether building a business or simply finding happiness, peace and self-direction. Stillness is the key to the self-mastery, discipline and focus necessary to succeed in this competitive, noisy world.

Which sort of seducer could you be? Siren? Rake? Cold Coquette? Star? Comedian? Charismatic? Or Saint? This book will show you which. Charm, persuasion, the ability to create illusions: these are some of the many dazzling gifts of the Seducer, the compelling figure who is able to manipulate, mislead and give pleasure all at once. When raised to the level of art, seduction, an indirect and subtle form of power, has toppled empires, won elections and enslaved great minds. In this beautiful, sensually designed book, Greene unearths the two sides of seduction: the characters and the process. Discover who you, or your pursuer, most resembles. Learn, too, the pitfalls of the anti-Seducer. Immerse yourself in the twenty-four manoeuvres and strategies of the seductive process, the ritual by which a seducer gains mastery over their target. Understand how to 'Choose the Right Victim', 'Appear to Be an Object of Desire' and 'Confuse Desire and Reality'. In addition, Greene provides instruction on how to identify victims by type. Each fascinating character and each cunning tactic demonstrates a fundamental truth about who we are, and the targets we've become - or hope to win over. The Art of Seduction is an indispensable primer on the essence of one of history's greatest weapons and the ultimate power trip. feel inadequate. Those children tapped as possessing special abilities will go on to achieve great things, while the rest of us have little chance of realizing our dreams. Right? In *Ungifted*, cognitive psychologist Scott Barry Kaufman -- who was relegated to special education as a child -- sets out to show that the way we interpret traditional metrics of intelligence is misguided. Kaufman explores the latest research in genetics and neuroscience, as well as evolutionary, developmental, social, positive, and cognitive psychology, to challenge the conventional wisdom about the childhood predictors of adult success. He reveals that there are many paths to greatness, and argues for a more holistic approach to achievement that takes into account each young person's personal goals, individual psychology, and developmental trajectory. In so doing, he increases our appreciation for the intelligence and diverse strengths of prodigies, savants, and late bloomers, as well as those with dyslexia, autism, schizophrenia, and ADHD. Combining original research, anecdotes, and a singular compassion, *Ungifted* proves that anyone -- even those without readily observable gifts at any single moment in time -- can become great.

Each day features a Daily Law as well as a prescription that readers cannot afford to ignore in the battle of life. Who doesn't want to be more powerful? More in control? The best at what they do? The secret: Read this book every day. "Daily study," Leo Tolstoy wrote in 1884, is "necessary for all people." More than just an introduction for new fans, this book is a Rosetta stone for internalizing the many lessons that fill Greene's books and will reward a lifetime of reading and rereading.

'Machiavelli has a new rival, and Sun-tzu had better watch his back' New York Times The perfect pocketbook gift for the power-hungry - from the modern Machiavelli Robert Greene, international bestselling sensation author of *The 48 Laws of Power*, *The Art of Seduction* and *The 33 Strategies of War*. This concise version of the business classic *Mastery* provides a shortcut to Greene's powerful new tools for achieving greatness. Around the globe, people are facing the same problem - that we are born as individuals but are forced to conform to the rules of society if we want to succeed. To see our uniqueness expressed in our achievements, we must first learn the rules - and then change them completely. Charles Darwin began as an underachieving schoolboy, Leonardo da Vinci as an illegitimate outcast. The secret of their eventual greatness lies in a 'rigorous apprenticeship': they learnt to master the 'hidden codes' which determine ultimate success or failure. Then, they rewrote the rules as a reflection of their own individuality. Told through Robert Greene's signature blend of historical anecdote and psychological insight and drawing on interviews with world leaders, *Concise Mastery* builds on the strategies outlined in *The 48 Laws of Power* to provide a practical guide to greatness - and learn how to start living by your own rules.

A biologist slowly becomes convinced that his internal musings about the nature of life are something more - something disturbing. Was it possible that he was actually having an ongoing conversation with Earth, herself?

From composer, musician, and philanthropist Peter Buffett comes a warm, wise, and inspirational book that asks, Which will you choose: the path of least resistance or the path of potentially greatest satisfaction? You may think that with a last name like his, Buffett has enjoyed a life of endless privilege. But the son of billionaire investor Warren Buffett says that the only real inheritance handed down from his parents was a philosophy: Forge your own path in life. It is a creed that has allowed him to follow his own passions, establish his own identity, and reap his own successes. In *Life Is What You Make It*, Buffett expounds on the strong set of

values given to him by his trusting and broadminded mother, his industrious and talented father, and the many life teachers he has met along the way. Today's society, Buffett posits, has begun to replace a work ethic, relishing what you do, with a wealth ethic, honoring the payoff instead of the process. We confuse privilege with material accumulation, character with external validation. Yet, by focusing more on substance and less on reward, we can open doors of opportunity and strive toward a greater sense of fulfillment. In clear and concise terms, Buffett reveals a great truth: Life is random, neither fair nor unfair. From there it becomes easy to recognize the equal dignity and value of every human life—our circumstances may vary but our essences do not. We see that our journey in life rarely follows a straight line but is often met with false starts, crises, and blunders. How we push through and persevere in these challenging moments is where we begin to create the life of our dreams—from discovering our vocations to living out our bliss to giving back to others. Personal and revealing, instructive and intuitive, *Life Is What You Make It* is about transcending your circumstances, taking up the reins of your destiny, and living your life to the fullest.

Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control - from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed "beguiling" and "fascinating," Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence ("Law 1: Never Outshine the Master"), others teach the value of confidence ("Law 28: Enter Action with Boldness"), and many recommend absolute self-preservation ("Law 15: Crush Your Enemy Totally"). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48*

Laws of Power is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.
