Indian indigenous societies are especially known for their elaborate rituals, which offer an excellent chance for studying religion as practice.

However, few detailed ethnographic works exist on the ritual practices of these societies. Based on long-term ethnographic fieldwork in Jharkhand, India this book offers insights into contemporary,

Where To Download Mera Mota Lan Story

previously not described rituals of the Santal, one of the largest indigenous societies of Central India. Its focus lies on culturally specific notions of place as articulated and created during these rituals. In three chapters the book

Where To Download Mera Mota Lan Story

discusses how the Santal "make place" on different local, regional and global levels through their rituals: They reaffirm their ancestral roots in their land during large sacrificial rituals. They offer sacrifices to the dangerous deities of the forest in

exchange for rain.

And they claim their region to be a

Through an analysis

of the rituals of a specific society, this book addresses broader issues. It presents an example of how to study religion as a practical activity. It portrays culture-specific perceptions of the environment. And last, the book underlines the

potential that lies in choosing place as a lens to study social phenomena in context.
