change the way we interact with our children forever. They demonstrate that for years our best intentions with children have been our worst ideas, using break-through scientific studies to prove that our instincts and received wisdom are all wrong. Nurtureshock is the Freakonomics of childhood and adolescence, exploring logic-defying insights into child development that have far-reaching relevance for us all.

playwright played the role of Mrs. Hale. Glaspell is the author of seven full-length plays and eight one-act plays. In addition, she wrote nine novels and three collections of short stories. The sukkah, the symbolic ritual home built during the annual Jewish holiday of Sukkot, commemorates the temporary structures that sheltered the Israelites as they journeyed across the desert after the exodus from Egypt. Despite the simple Biblical prescription for its design, the remarkable variety of creative expression in the construction, decoration, and use of the sukkah, in both times of peace and national upheaval, reveals the cultural traditions, political convictions, philosophical ideals, and individual aspirations that the sukkah communicates for its builders and users today. In this ethnography of contemporary Sukkot observance, Gabrielle

Anna Berlinger examines the powerful role of ritual and vernacular architecture in the formation of self and society in three sharply contrasting Jewish communities: Bloomington, Indiana; South Tel Aviv, Israel; and Brooklyn, New York. Through vivid description and in-depth interviews, she demonstrates how constructing and decorating the sukkah and performing the weeklong holiday's rituals of hospitality provide unique circumstances for creative expression, social interaction, and political struggle. Through an exploration of the intersections between the rituals of Sukkot and contemporary issues, such as the global Occupy movement, Berlinger finds that the sukkah becomes a tangible expression of the need for housing and economic justice, as well as a symbol of the longing for home.

New diversity style guide helps journalists write with authority and accuracy about a complex, multicultural world A companion to the online resource of the same name, The Diversity Style Guide raises the consciousness of journalists who strive to be accurate. Based on studies, news reports and style guides, as well as interviews with more than 50 journalists and experts, it offers the best, most up-to-date advice on writing about underrepresented and often misrepresented groups. Addressing such thorny questions as whether the words Black and White should be capitalized when referring to race and which pronouns to use for people who don't identify as male or female, the book helps readers navigate the minefield of names, terms, labels and colloquialisms that come with living in a diverse society. After being married for less than a year, country music legend Alan Jackson's daughter Mattie was faced with navigating a future that didn't include her young husband and their lifelong plans. Ben Selecman passed away twelve days after a traumatic brain injury—and three weeks before celebrating his first anniversary with his wife.

Twenty-eight-year-old Mattie had to find a way to move forward and reconcile herself with a good God, even when He did not give her the healing miracle she prayed for. In *Lemons on Friday*, readers walk with Mattie Jackson Selecman during

the first years of grief following Ben's tragic death as she grapples with her loss and leans on a steadfast God. Based on Selecman's journal writings, Lemons on Friday will speak to all readers who must carry on without their loved ones and take a hard look at faith when their lives have not gone as planned. Lemons on Friday grapples with questions like these: How did I get here? Will this always hurt? Who am I now? How do I move forward? "When fundamental parts of our lives are lost, when people and things we thought we'd never lose are suddenly gone, it's natural to want answers," writes Selecman. "Why

Not just where was He when the tragedy happened, but where is He now in my darkest days of hurt, wondering, and longing for comfort? When I am on the floor, writhing in tears with no idea what the rest of my life will look like, where is God?" Lemons on Friday offers insight and peace for anyone grieving, but especially for young people experiencing loss and facing a future that feels full of question marks.

This is an entirely new edition of the author's 1984 study (originally published by South End Press) of radical media and movements. The first and second sections are original to this new edition. The first section explores social and cultural theory in order to argue that radical media should be a central part of our understanding of media in history. The second section weaves an historical and international tapestry of radical media to illustrate their centrality and diversity, from dance and graffiti to video and the internet and from satirical prints and street theatre to culture-jamming, subversive

song, performance art and underground radio. The section also includes consideration of ultra-rightist media as a key contrast case. The book's third section provides detailed case studies of the anti-fascist media explosion of 1974-75 in Portugal, Italy's long-running radical media, radio and access video in the USA, and illegal media in the dissolution of the former Soviet bloc dictatorships.

Physics for the Internet Age

Poetry, Journals, Transcripts, and Lyrics

The technology behind computers, fiber optics, and networks did not originate in the minds of engineers attempting to build an Internet. The Internet is a culmination of intellectual work by thousands of minds spanning hundreds of years. We have built concept upon concept and technology upon technology to arrive at where we are today, in a world constructed of silicon pathways

and controlled by silicon processors. From computers to optical communications, *The Silicon Web: Physics for the Internet Age* explores the core principles of physics that underlie those technologies that continue to revolutionize our everyday lives. Designed for the nonscientist, this text requires no higher math or prior experience with physics. It starts with an introduction to physics, silicon, and the Internet and then details the basic physics principles at the core of the information technology revolution. A third part examines the quantum era, with in-depth discussion of digital memory and

computers. The final part moves onto the Internet era, covering lasers, optical fibers, light amplification, and fiber-optic and wireless communication technologies. The relation between technology and daily life is so intertwined that it is impossible to fully understand modern human experience without having at least a basic understanding of the concepts and history behind modern technology, which continues to become more prevalent as well as more ubiquitous. Going beyond the technical, the book also looks at ways in which science has changed the course of history. It clarifies common

Which sort of seducer could you be?

Siren? Rake? Cold Coquette? Star? Comedian? Charismatic? Or Saint? This book will show you which. Charm, persuasion, the ability to create illusions: these are some of the many dazzling gifts of the Seducer, the compelling figure who is able to manipulate, mislead and give pleasure all at once. When raised to the level of art, seduction, an indirect and subtle form of power, has toppled empires, won elections and enslaved great minds. In this beautiful, sensually

designed book, Greene unearths the two sides of seduction: the characters and the process. Discover who you, or your pursuer, most resembles. Learn, too, the pitfalls of the anti-Seducer. Immerse yourself in the twenty-four manoeuvres and strategies of the seductive process, the ritual by which a seducer gains mastery over their target. Understand how to 'Choose the Right Victim', 'Appear to Be an Object of Desire' and 'Confuse Desire and Reality'. In addition, Greene

provides instruction on how to identify victims by type. Each fascinating character and each cunning tactic demonstrates a fundamental truth about who we are, and the targets we've become - or hope to win over. The Art of Seduction is an indispensable primer on the essence of one of history's greatest weapons and the ultimate power trip. From the internationally bestselling author of The 48 Laws of Power, Mastery, and The 33 Strategies Of War.

The #1 national bestselling “riveting” (The New York Times), “propulsive” (Time) behind-the-scenes account “that reads like a tense thriller” (The Washington Post) of the 116 days leading up to the American attack on Hiroshima by veteran journalist and anchor of Fox News Sunday, Chris Wallace. April 12, 1945: After years of bloody conflict in Europe and the Pacific, America is stunned by news of President Franklin D. Roosevelt’s death. In an instant, Vice

President Harry Truman, who has been kept out of war planning and knows nothing of the top-secret Manhattan Project to develop the world's first atomic bomb, must assume command of a nation at war on multiple continents—and confront one of the most consequential decisions in history. Countdown 1945 tells the gripping true story of the turbulent days, weeks, and months to follow, leading up to August 6, 1945, when Truman gives the order to

drop the bomb on Hiroshima. In Countdown 1945, Chris Wallace, the veteran journalist and anchor of Fox News Sunday, takes readers inside the minds of the iconic and elusive figures who join the quest for the bomb, each for different reasons: the legendary Albert Einstein, who eventually calls his vocal support for the atomic bomb “the one great mistake in my life”; lead researcher J. Robert “Oppie” Oppenheimer and the Soviet spies who secretly infiltrate his

team; the fiercely competitive pilots of the plane selected to drop the bomb; and many more. Perhaps most of all, Countdown 1945 is the story of an untested new president confronting a decision that he knows will change the world forever. But more than a book about the atomic bomb, Countdown 1945 is also an unforgettable account of the lives of ordinary American and Japanese civilians in wartime—from “Calutron Girls” like Ruth Sisson in Oak Ridge,

Tennessee, to ten-year-old Hiroshima resident Hideko Tamura, who survives the blast at ground zero but loses her mother and later immigrates to the United States, where she lives to this day—as well as American soldiers fighting in the Pacific, waiting in fear for the order to launch a possible invasion of Japan. Told with vigor, intelligence, and humanity, Countdown 1945 is the definitive account of one of the most significant moments in history.

This open access book approaches the anxieties inherent in food consumption and production in Vietnam. The country's rapid and recent economic integration into global agro-food systems and consumer markets spurred a new quality of food safety concerns, health issues and distrust in food distribution networks that have become increasingly obscured. This edited volume further puts the eating body centre stage by following how gendered body norms, food taboos, power structures and social differentiation shape people's ambivalent relations with food. It uncovers Vietnam's trajectories of agricultural modernisation against which consumers

and producers manoeuvre amongst food self-sufficiency, security and abundance. Food Anxiety in Globalising Vietnam is explicitly about 'dangerous' food – regarding its materiality and meaning. It provides social science perspectives on anxieties related to food and surrounding discourses that travel between the local and the global, the individual and society and into the body. Therefore, the book's lens of food anxiety matters for social theory and for understanding the embeddedness and discontinuities of food globalizations in Vietnam and beyond. Due to its rich empirical base, methodological approaches and thematic foci, it will

From the author of the bestselling Prozac Nation comes one of the most entertaining feminist manifestos ever written. In five brilliant extended essays, she links the lives of women as demanding and disparate as Amy Fisher, Hillary Clinton, Margaux Hemingway, and Nicole Brown Simpson. Wurtzel gives voice to those women whose lives have been misunderstood, who have been dismissed for their beauty, their madness, their youth. Bitch is a brilliant tract on the history of manipulative female behavior. By looking at women who derive their

power from their sexuality, Wurtzel offers a trenchant cultural critique of contemporary gender relations. Beginning with Delilah, the first woman to supposedly bring a great man down (latter-day Delilahs include Yoko Ono, Pam Smart, Bess Myerson), Wurtzel finds many biblical counterparts to the men and women in today's headlines. She finds in the story of Amy Fisher the tragic plight of all Lolitas, our thirst for their brief and intense flame. She connects Hemingway's tragic suicide to those of Sylvia Plath, Edie Sedgwick, and Marilyn Monroe, women whose beauty was an end, ultimately, in itself. Wurtzel, writing about the wife/mistress

dichotomy, explains how some women are anointed as wife material, while others are relegated to the role of mistress. She takes to task the double standard imposed on women, the cultural insistence on goodness and society's complete obsession with badness: what's a girl to do? Let's face it, if women were any real threat to male power, "Gennifer Flowers would be sitting behind the desk of the Oval Office," writes Wurtzel, "and Bill Clinton would be a lounge singer in the Excelsior Hotel in Little Rock." Bitch tells a tale both celebratory and cautionary as Wurtzel catalogs some of the most infamous women in history, defending their outsize desires,

describing their exquisite loneliness, championing their take-no-prisoners approach to life and to love. Whether writing about Courtney Love, Sally Hemings, Bathsheba, Kimba Wood, Sharon Stone, Princess Di--or waxing eloquent on the hideous success of The Rules, the evil that is The Bridges of Madison County, the twisted logic of You'll Never Make Love in This Town Again--Wurtzel is back with a bitchography that cuts to the core. In prose both blistering and brilliant, Bitch is a treatise on the nature of desperate sexual manipulation and a triumph of pussy power.

?This volume situates Indians in the contemporary world and profiles the major facets of their thought and behaviour; then goes back to trace their roots to ancient thought to see how the past predisposes and the present guides Indians in their everyday life. The volume begins with a conceptual

framework showing how the Indian worldview has encompassed and enveloped a variety of ideas and influences from divergent sources. As a result, Indians are both collectivists and individualists, hierarchically oriented while respecting merit and quality, religious as well as secular and sexually indulgent, spiritual as well as materialists, excessively dependent but remarkably entrepreneurial, non-violent in principle but violent in practice and comfortable in shifting between analytical, synthetic as well as intuitive approaches to reality. Such a coexistence of opposites often causes

inaction, hesitation and perfunctory action, but also equips Indians to be innovative by continuously aligning their thought and behaviour to the demands of a milieu. The milieu has an inner layer consisting of desh (place), kaal (time) and paatra (person), which are embedded in the larger societal contexts of castes and classes, poverty, corruption, fragmenting politics, conflicts and violence and unfolding global opportunities and challenges. Cultural heritage permeates in all these. Indians function in this tiered, multifactorial, dynamic space. This volume draws evidence

from ancient texts and the latest national and international research, many of which were conducted by the author and his associates. It does not, however, hesitate to indulge in anecdotal evidence, cases and speculative ideas in order to complete the picture. The author takes an in-depth view of the Indian mindset without getting the reader lost in either the intricacies of ancient philosophical abyss or the trivialities of present-day non-events.
