

## Minutes To Kill Scarlet Falls Book 2 English Edit

Poe's preference for not naming his narrators is potent once again in "The Tell-Tale Heart", a story that is trying so hard to appear sane, but fails miserably in the end. With minute preparations, perfect calculations, and even more precise execution of the conceived gruesome act, the narrator successfully fulfils his purpose, only to be lost in a battle with his sanity and guilt afterwards. Backed by the numerous movie and theatrical adaptations, the story is considered one of Poe's most popular and critically acclaimed. Edgar Allan Poe (1809-1849) was an American poet, author, and literary critic. Most famous for his poetry, short stories, and tales of the supernatural, mysterious, and macabre, he is also regarded as the inventor of the detective genre and a contributor to the emergence of science fiction, dark romanticism, and weird fiction. His most famous works include "The Raven" (1845), "The Black Cat" (1843), and "The Gold-Bug" (1843).

The #1 Amazon Charts bestselling series continues as Morgan Dane and PI Lance Kruger fight for the innocence of a young murder suspect--if only they could find him. When a retired sheriff's deputy is shot to death in his home, his troubled teenage stepson, Evan, becomes the prime suspect. Even more incriminating, the boy disappeared from the scene of the crime. Desperate to find her son, Evan's mother begs PI Lance Kruger for help. She knows her son is innocent. Kruger and defense attorney Morgan Dane want to believe that too, but the evidence against the boy is damning. Just as the trail goes cold, another deputy vanishes. His shocking connection to Evan's stepfather throws the investigation into chaos as Lance and Morgan fear the worst...that Evan is the killer's new target. With so many secrets to unravel, will Lance and Morgan find him before it's too late?

*Sarai was only fourteen when her mother uprooted her to live in Mexico with a notorious drug lord. Over time she forgot what it was like to live a normal life, but she never let go of her hope to escape the compound where she has been held for the past nine years. Victor is a cold-blooded assassin who, like Sarai, has known only death and violence since he was a young boy. When Victor arrives at the compound to collect details and payment for a hit, Sarai sees him as her only opportunity for escape. But things don't go as planned and instead of finding transport back to Tucson, she finds herself free from one dangerous man and caught in the clutches of another. While on the run, Victor strays from his primal nature as he succumbs to his conscience and resolves to help Sarai. As they grow closer, he finds himself willing to risk everything to keep her alive; even his relationship with his devoted brother and liaison, Niklas, who now like everyone else wants Sarai dead. As Victor and Sarai slowly build a trust, the differences between them seem to lessen, and an unlikely attraction intensifies. But Victor's brutal skills and experience may not be enough in the end to save her, as the power she unknowingly holds over him may ultimately be what gets her killed.*

First published in 1897, *The Invisible Man* is one of the first science fiction stories. The disturbing tale centers on Griffin, a scientist who has discovered the means to make himself invisible. His initial, almost comedic, adventures are soon overshadowed by the bizarre streak of terror he unleashes upon the inhabitants of a small village. Notable for its sheer invention, suspense, and psychological nuance, *The Invisible Man* had been filmed many times and continues to enthrall science-fiction fans today as it did the reading public nearly 100 years ago.

that combines magic, murder, intrigue, adventure, and a hint of romance. In a realm where one's magical power determines one's worth, Lady Everleigh's lack of obvious ability relegates her to the shadows of the royal court of Bellona, a kingdom steeped in gladiator tradition. Seventeenth in line for the throne, Evie is nothing more than a ceremonial fixture, overlooked and mostly forgotten. But dark forces are at work inside the palace. When her cousin Vasilia, the crown princess, assassinates her mother the queen and takes the throne by force, Evie is also attacked, along with the rest of the royal family. Luckily for Evie, her secret immunity to magic helps her escape the massacre. Forced into hiding to survive, she falls in with a gladiator troupe. Though they use their talents to entertain and amuse the masses, the gladiators are actually highly trained warriors skilled in the art of war, especially Lucas Sullivan, a powerful magier with secrets of his own. Uncertain of her future—or if she even has one—Evie begins training with the troupe until she can decide her next move. But as the bloodthirsty Vasilia exerts her power, pushing Bellona to the brink of war, Evie's fate becomes clear: she must become a fearsome gladiator herself . . . and kill the queen.

A missing person case gone cold has become one of murder, and Lance and attorney Morgan Dane must face the deadly past that's risen to the surface. For Lance, the investigation yields troubling questions about a man he thought he knew. But memories can play dirty tricks. For Morgan, uncovering each new lie comes with a disquieting fear that someone is out there watching, because someone is killing every witness tied to this decades-old crime. Morgan and Lance follow in the shadows of a relentless killer and walk right into the cross fire.
