For courses in Pediatric Nursing. A comprehensive survey of family-centered pediatric nursing care Child Health Nursing: Partnering with Children & Families promotes excellence in nursing care for infants, children, and adolescents--in hospitals and in the community. It focuses on the importance of partnering with families to adapt care plans for children based on their age, health status, and social and cultural influences. The text considers the impact of contemporary care environments on nursing practice, both in health promotion and in the care of children with acute or chronic health conditions. By offering industry best practices and practical applications, the book encourages students to apply evidence-based findings and clinical reasoning to planning superior care. The updated 3rd edition explains how modern nursing practice is affected by reforms to healthcare and its delivery--such as electronic health records, new approaches to chronic and acute condition management, and a focus on prevention. To support safe, effective, and innovative care, this edition draws on the latest recommendations of NANDA International diagnoses, Nursing Intervention Classifications (NIC), Nursing Outcomes Classifications (NOC), and Healthy People 2020. Also available with MyLab Nursing MyLab(tm) Nursing is an online self-study and class preparation program designed to engage students and improve results. Its personalized learning path helps students think like nurses as they move beyond memorization to true understanding through application. Learn more. Founded in 1947, the Southern University Law Center (SULC) in Baton Rouge, Louisiana, is a model for student body and faculty diversity. While SULC was once required by law to be an all-black institution, the school's founders and subsequent leadership have created a legacy of providing access and opportunity to legal education that continues today. SULC graduates, beginning with the legendary civil rights attorney, political leader, and educator Jesse N. Stone Jr. and others in the school's first graduating class of 1950, have become trailblazers. The alumni have been successful in law, business, government, and other careers in Louisiana and places beyond. This book highlights their successes as well as the historical events that have shaped this institution. From student-led efforts to desegregate public accommodations to alumni leadership in achieving greater diversity in the Louisiana judiciary, SULC has and continues to produce lawyer-leaders who effect positive change.

This updated edition offers three practice exams, a diagnostic pretest designed to identify strengths and weaknesses, state-specific certification requirements, financial aid programs, and other valuable resources.

This review module is a component of the Comprehensive Assessment and Review Program and is designed to be used in conjunction with content area exams. It includes key points and critical thinking exercises (with answer keys) for nursing management for a variety of conditions.
