When a young Asian man becomes involved with a male prostitute in New York, he learns that there is a fine line between both passion and cultural and personal identity, in an intense novel that combines the turbulent history of Southeast Asia with present-day culture.

The Yaak Valley of northwestern Montana is one of the last great wild places in the United States, a land of black bears and grizzlies, wolverines, coyotes, bald and golden eagles, wolverine, lynx, marten, fisher, elk, and even a handful of humans. It is a land of magic, but its magic may not be enough to save it from the forces threatening it now. The Yaak does have one trick up its sleeve, though: a writer to give it voice. In *The Book of Yaak* he portrayed the wonder of living in the valley. In *The Book of Yaak* he captures the soul of the valley itself, and he shows how, if places like this are lost, we too are lost. Rick Bass has never been a writer to hold back, but *The Book of Yaak* is his most passionate book yet, a dramatic portrait of a man fighting to defend the place he loves.

In *Horse Housekeeping*, Margaret and Michael Korda (she is a successful novice- and training-level eventer and he is the author of *Horse Care*) provide everything you need to know to set up a barn of your own and care for your horse (or horses) at home. The Kordas offer a unique and reliable guide to horse care that not only will be invaluable to beginner and experienced horse owners alike, but also is astonishingly readable. They take you through the steps of deciding if having a horse barn is practical for you, including suggestions on space-saving barn designs, creating pastures, building fences, sample exercise routines, the right feed, the basics of horse care, and the equipment needed for both horse care and property maintenance. Anatomy, particularly functional anatomy, is a vital and dynamic subject, an appreciation of which leads not only to superior husbandry and welfare, but also to a better understanding of the anatomical challenges associated with riding, training, overtraining, injury and rehabilitation. Using Alexa McKenna's fabulous illustrations, this book shows the correlation of the skeleton, muscular system and locomotion, providing a clear insight into the functional and dysfunctional horse. It also addresses the largely misunderstood concept of 'perfect conformation' and looks at the effect on function of the rider and tack, using cutting-edge diagnostic techniques such as thermal imaging and gait analysis. Again with the emphasis on the visual, readers will be able to appreciate how muscles function in differing athletic disciplines by analysing the heat generated in musculoskeletal structures after exercise. This will also highlight the importance of post-competition recovery. The book concludes with a range of useful techniques to improve the function of any horse, including stretches, taping, wrapping and other proprioceptive techniques to increase balance, flexibility, awareness and posture.

The heartwarming true story of a woman and the horse who changed her life. Jana Harris had always dreamed of having a horse farm, and she knew the horse on whom she could build her dreams the moment she saw her on a ranch in the Eastern Mountains of Washington State, where a herd had been corralled to be sold: a beautiful, deep dark red-colored mare standing about sixteen hands, with a white star on her pretty head. Something about the way this mare guarded her handsome foal spoke to Harris. The mare was named True Colors. When True Colors was delivered to Harris's ranch three months later, however, she was unrecognizable: head-shy from the infected sores on her face, and lungs damaged by pneumonia, she sensed demons hiding in everything from the scent of fabric softener on clothes to a gate in a fence. This injured, traumatized horse existed between two worlds—wild and domesticated—and belonged to neither. Remarkably, the other horses fell in love with her on sight. And true to her name, True Colors would never pretend to be something she was not; with her wise, intuitive nature, she would end up changing the lives of everyone she encountered. This is the story of True Colors and how, with her quiet wisdom, she became the heart of the range and farm. There is a famous horseman's saying: A horse never lies about its pain. But maybe we should also consider: A horse never lies about love.

Forget the aesthetics of mainstream minimalism and discover a life of authenticity and intention with this practical guide to living with less...your way. When Christine Platt set out on her journey to live with less, she never intended to become The Afrominimalist. She just wanted to tame the chaos in her closet! But after struggling with the austerity and whiteness of mainstream minimalism, Christine realized why minimalism often seems unattainable for so many: the emphasis on all-white, barren aesthetics distracts from the practice of living with intention. And so, she decided to do things her way by curating a life of less influenced by the African diaspora. In The Afrominimalist's Guide to Living With Less, Christine gets right to the heart of how childhood experiences and expectations manifest in adulthood, the delicate dance between needs and wants, and the complicated weight of familial and societal pressures. A far cry from Konmaried closets, capsule wardrobes, and conspicuous consumption, Christine's brand of "living with less" is more than a decluttering regimen. Inspired by her personal journey, Christine presents a radical revisioning of minimalism, one that celebrates the importance of history and heritage, and gives you permission to make space for what really matters...your way. Beautifully illustrated with original black-and-white prints and line drawings, The Afrominimalist's Guide to Living With Less is a testament to the idea that anyone can be a minimalist and a warm invitation to a life curated with intention, perfect for readers of Joshua Fields Millburn and Ryan Nicodemus (The Minimalists), Marie Kondo, Joshua Becker, and Courtney Carver.
