The present book, Scientists Inventions and Discoveries is one among the five books of the series, Children's Encyclopedia - The World of Knowledge. The book has been broadly divided into two parts- Part-I: The brief life histories and salient contributions of some well-known Scientists like Archimedes, Albert Einstein, Charles Darwin, Galileo, Newton, Louis Pasteur, Michael Faraday, Marie Curie, Thomas Alva Edison and many more. The second part or Part II emphasises on some major Inventions and Breakthroughs in the scientific world, such as: Bacteria, Vitamins, Vaccines, Aeroplane, Electricity, Cinema, Steam Engine and so on which have revolutionised and transformed the human life completely. Therefore dear readers, grab the book as soon as you can, for it's a treasure trove of knowledge and information, and if you happen to be a school student, you can even use it as a reference book or guide.

Happy Reading and Learning too!

Munshi Premchand-pen name of Dhanpat Rai Srivastava born in Lamhi Village, near Banaras on August 31 July, 1880, died at Banaras on October 8, 1936. Mother died when he was 7 and father died when he was 15 years old. First wife, married when he was 13, left him in 1904 and he remarried a child widow. Became a teacher in 1899 and served in Education department. U.P. till 1921, when he

resigned his post to support Gandhiji's non co-operation movement worked as editor of "Maryada" and "Madhuri" and started "Jagaran" and "Hans" from self established Saraswati Press Literary life began in 1901: articles in the Zamana, first short story in 1907, left over 220 stories on his death. First novel in 1901 but that which stamped him as a writer of marked ability was "Sevasadan", or Bazaar-a-Husn (1914). followed in rapid succession by "Premasharam", "Nirmala", "Rangbhumi," "Ghaban", "Godan" 1936, He joined a film company as a scenario writer in 1934 but gave it up in disgust. When asked why he does not write anything about himself, he answered: "What greatness do I have that I have to tell anyone about? I live just like millions of people in this country; I am ordinary. During my whole lifetime, I have been grinding away with the hope that I could become free of my sufferings. But I have not been able to free myself from suffering. What is so special about this life that needs to be told to anybody?".

Akbar's India tells the story of Akbar (emperor of India 1556 -1605) through eight paintings. The paintings were selected from many produced in his workshops to tell the story of his remarkable reign. The book was written and the different exercises were devised to encourage children to give the pictures more than a cursory glance -- to help them see the hidden history, the drama, the stories behind them. The last section of

the book labelled "for the especially curious" gives information, sometimes quite lengthy, about matters just touched on or not mentioned in the first section.

Machine design is one of the important subjects in mechanical engineering and a thorough knowledge of the design aspects of machine elements is essential for all design engineers. Working out the design of a machine as a whole, or its components, usually involves the use of several formulae, graphs, standard tables and other relevant data. Availability of all such information in one handbook not only eliminates the unnecessary task of remembering the required formulae and equations, but also helps design engineers to solve the problems in machine design quickly and efficiently. This handbook has been prepared keeping these basics in mind. References have been made to several standard textbooks on machine design while compiling the data of this book. In the preparation of the fourth edition, most of the chapters and topics have been upgraded and improved by adding additional information on current design.

***of climbing the world's most difficult and unpredictable mountain, by the bestselling authors of The Mountain and No Shortcuts to the Top "Gripping . . . reveals a good deal about the rarefied noble-gonzo world of high-altitude mountaineering."—The New York Times Ed Viesturs, one of the world's premier high-altitude mountaineers, explores the remarkable history of K2 and of those who have attempted to conquer it. At the same time, he probes the mountain's most memorable sagas in order to illustrate lessons about the fundamental questions mountaineering raises—questions of risk, ambition, loyalty to one's teammates, self-sacrifice, and the price of glory. Viesturs knows the mountain firsthand. He and renowned alpinist Scott Fischer climbed it in 1992 and got caught in an avalanche that sent them sliding to almost certain death before Ed managed to get into a self-arrest position with his ice ax and stop both his fall and Scott's. Focusing on seven of the mountain's most dramatic campaigns, from his own troubled ascent to the 2008 tragedy, Viesturs crafts an edge-of-your-seat narrative that climbers and armchair travelers alike will find unforgettably compelling. With photographs from Viesturs's personal collection and from historical sources, this is the definitive account of the world's ultimate mountain, and of the lessons that can be gleaned from struggling toward its elusive summit.***

Since at least 1939, when daily-strip caveman Alley Oop time-traveled to the Trojan War, comics have been drawing (on) material from Greek and Roman myth, literature and history. At times the connection is cosmetic-as perhaps with Wonder Woman's Amazonian heritage-and at times it is almost irrelevant-as with Hercules' starfaring adventures in the 1982 Marvel miniseries. But all of these make implicit or explicit claims about the place of classics in modern literary culture. *Classics and Comics* is the first book to explore the engagement of classics with the epitome of modern popular literature, the comic book. This volume collects sixteen articles, all specially commissioned for this volume, that look at how classical content is deployed in comics and reconfigured for a modern audience. It opens with a detailed historical introduction surveying the role of classical material in comics since the 1930s.

Subsequent chapters cover a broad range of topics, including the incorporation of modern theories of myth into the creation and interpretation of comic books, the appropriation of characters from classical literature and myth, and the reconfiguration of motif into a modern literary medium. Among the well-known comics considered in the collection are Frank Miller's *300* and *Sin City*, DC Comics' *Wonder*

Woman, Jack Kirby's *The Eternals*, Neil Gaiman's *Sandman*, and examples of Japanese manga. The volume also includes an original 12-page "comics-essay," drawn and written by Eisner Award-winning Eric Shanower, creator of the graphic novel series *Age of Bronze*.

Get ready for another binge-worthy romance from New York Times and international bestselling author Elle Kennedy! She's good at achieving her goals... College senior Sabrina James has her whole future planned out: graduate from college, kick butt in law school, and land a high-paying job at a cutthroat firm. Her path to escaping her shameful past certainly doesn't include a gorgeous hockey player who believes in love at first sight. One night of sizzling heat and surprising tenderness is all she's willing to give John Tucker, but sometimes, one night is all it takes for your entire life to change. But the game just got whole lot more complicated Tucker believes being a team player is as important as being the star. On the ice, he's fine staying out of the spotlight, but when it comes to becoming a daddy at the age of twenty-two, he refuses to be a bench warmer. It doesn't hurt that the soon-to-be mother of his child is beautiful, whip-smart, and keeps him on his toes. The problem is, Sabrina's heart is locked up tight, and the fiery brunette is too stubborn to accept his help. If he wants a life with the woman his dreams, he'll have to convince her that some goals can only be made with an assist. This comic book is a must-read for every child. A new Indian superhero is here, and this time, it is a female superhero, Dabung Girl. She is a fearless hero, who has an elastic body as her superpower. However, unlike other superheroes, who come

and save the day, she helps children find solutions on their own. The imagination, creativity, and fun continues throughout the comic. This comic book inspires children to find their inner superhero. In this issue, she uses her elastic body to protect children while imparting the importance of saving the environment and a lesson on gender equality!"I wanted my daughter to read things that inspire her to strive for success, that fuel her imagination and nurture her creative spirit! I am thankful to Dabung Girl for giving her a superhero she deserves!" - A Mother

In Goa, India, the drug cartels and the police are at each other 's throats. But this fight is just a symptom of a bigger sickness, of an evil that not only intends to disrupt the peace in Goa, but to rule over all mankind. Thrust into this conflict is Pragya Parashar - Hindi comic book writer and artist. All Pragya wants is to return Indian Comics to its golden age - the nineties. And she might just succeed in doing this, in spite of the forces of evil that she's about to face off. But will she survive an even bigger threat - the last Hindi comic book publisher going out of business?

Through analysis of an impressive array of 'low' and 'high' Hindu literatures, particularly pamphlets, tracts, newspapers, and archival data, Gupta explores the emerging discourse of gender and sexuality, which was essential to the development of notions of Hindu communitality and nationalism in the colonial period. The book

offers an exceptionally nuanced account of Hindi gender politics.

*A young Russian woman comes into her own in the midst of revolution and civil war in this "brilliant" novel set in "a world of furious beauty" (Los Angeles Review of Books). After the loves and betrayals of The Revolution of Marina M., young poet Marina Makarova finds herself alone amid the devastation of the Russian Civil War -- pregnant and adrift, forced to rely on her own resourcefulness to find a place to wait out the birth of her child and eventually make her way back to her native city, Petrograd. After two years of revolution, the city that was once St. Petersburg is almost unrecognizable, the haunted, half-emptied, starving Capital of Once Had Been, its streets teeming with homeless children. Moved by their plight, though hardly*

*better off herself, she takes on the challenge of caring for these orphans, until they become the tool of tragedy from an unexpected direction. Shaped by her country's ordeals and her own trials -- betrayal and privation and inconceivable loss -- Marina evolves as a poet and a woman of sensibility and substance hardly imaginable at the beginning of her transformative odyssey. Chimes of a Lost Cathedral is the culmination of one woman's s journey through some of the most dramatic events of the last century -- the epic story of an artist who discovers her full power, passion, and creativity just as her revolution reveals its true direction for the future. The fifteenth century saint-poet Kabir's extempore outpourings of songs and couplets numbering thousands have been hailed widely for their deep spiritual fervour and poetic quality. They are widely read with rapture and regard by old and young alike in India. Kabir's couplets which are considered as rich gems for their spiritual message and worldly wisdom have not been rendered into English so far. Here are rhymed English verse translation of three hundred of them from a wide cross-section of the multifaced genius' utterances. Under each verse has been given a few lines in prose to help the reader grasp the underlying import of the message of the saint-poet.*
