

Nata Question Papers

National Aptitude Test in Architecture (NATA) is a national level entrance exam for admission to 5 year B. Arch Degree Courses at all recognized institutions across India and many private and government universities (except IIT and NITs) consider NATA scores to provide admission in Architecture courses. This examination is conducted twice a year and comprises two sections Aptitude Section & Drawing Section with time duration of 3 hours & 15 minutes where 45 minutes will be given for aptitude section while 135 minutes for drawing section. Work of an Architecture is to plan and design houses, factories, office buildings and other structures. It could be a good career for anyone interested in creating real structures out of their imagination.

When life presents problems, all a heroine really wants is an answer key to fix them. Shannon Waller lives a paycheck-to-paycheck existence in far north Montana. A missing husband. Not even a pet. Alone. Suddenly life hands her the kind of money she only dreams of—an amount that starts with a B. A move to Ithaca, New York and into a home she inherits plus new friends—what more can she ask for? Private investigator Michael Silver is determined to find out who might want to kill Shannon. While his life seems safe, hers is one ‘accident’ after another, each hurting her worse. When a bullet barely misses Shannon, she and Michael have to discover who, what and why she’s a target for murder. And do it fast before the next attempt succeeds!

The classic, bestselling reference on architecture now revised and expanded! An essential one-volume reference of architectural topics using Francis D.K. Ching's signature presentation. It is the only dictionary that provides concise, accurate definitions illustrated with finely detailed, hand-rendered drawings. From Arch to Wood, every concept, technology, material and detail important to architects and designers are presented in Ching's unique style. Combining text and drawing, each term is given a minimum double-page spread on large format trim size, so that the term can be comprehensively explored, graphically showing relations between concepts and sub-terms. A comprehensive index permits the reader to locate any important word in the text. This long-awaited revision brings the latest concepts and technology of 21st century architecture, design and construction to this classic reference work. It is sure to be by the side of and used by any serious architect or designer, students of architecture, interior designers, and those in construction.
