Jerome Klapka Jerome was an English writer and humourist, best known for the comic travelogue *Three Men in a Boat*. Other works include the essay collections *Idle Thoughts of an Idle Fellow* and *Second Thoughts of an Idle Fellow*; *Three Men on the Bummel*, a sequel to *Three Men in a Boat*, and several other novels. Jerome sat right down to write *Three Men in a Boat* as soon as the couple returned from their honeymoon. Within the novel, his wife was replaced by his longtime friends George Wingrave (George) and Carl Hentschel (Harris). This allowed him to make comic (and non-sentimental) situations which were nonetheless intertwined with the history of the Thames region. The book, published in 1889, became a momentous success and has never been out of print. Its popularity was such that the amount of registered Thames boats went up one-half within the year following its publication, and it contributed significantly to the Thames becoming a tourist attraction. In its first twenty years alone, the book sold over 1,000,000 copies worldwide. It has been adapted to films, TV and radio shows, stage plays, and a musical. Its literary genre influenced many humourists and satirists in England et al. With the financial security that the sales of the book provided, Jerome was ready to dedicate all of his time to writing. He wrote a variety of plays, essays, and novels, but was never ready to recapture the

success of Three Men during a Boat. In 1892, he was chosen by Robert Barr to edit The Idler (over Rudyard Kipling). The magazine was an illustrated satirical monthly catering to gentlemen (who, following the theme of the publication, appreciated idleness). In 1893, he founded To-Day, but had to withdraw from both publications due to financial difficulties and a libel suit. Jerome's play Biarritz had a run of two months at the Prince of Wales Theatre between April and June 1896. In 1898, a brief stay in Germany inspired Three Men on the Bummel, the sequel to 3 Men during a Boat, reintroducing an equivalent characters within the setting of a far off bicycle tour. The book was nonetheless unable to capture the life-force and historic roots of its predecessor, and it enjoyed only a light success. In 1902, he published the novel Paul Kever, which is widely considered autobiographical. His 1908 play The Passing of the Third Floor Back introduced a more sombre and non secular Jerome. the most character was played by one among the leading actors of the time, Johnston Forbes-Robertson, and therefore the play was an incredible commercial success. it had been twice made into film, in 1918 and in 1935. However, the play was condemned by critics - Beerbohm described it as "vilely stupid" and as written by a "tenth-rate writer"

O. Henry is the pen name of American writer William Sydney Porter (1862-1910). Porter's 400 short stories are known for their wit, wordplay, characterization and the clever use of twist endings. He travelled to Austin in 1884, where he took a number of different jobs over the next several years, first as pharmacist then as a draftsman, bank teller and journalist. He also began writing as a sideline to employment. Porter's most prolific writing period started in 1902, when he moved to New York City to be near his publishers. He wrote 381 short stories while living there. He wrote a story a week for over a year for the New York World Sunday Magazine. His wit, characterization and plot twists were adored by his readers, but often panned by the critics. Yet, he went on to gain international recognition and is credited with defining the short story as a literary art form. His works include: Cabbages and Kings (1904), The Four Million (1906), Heart of the West

(1907), The Trimmed Lamp and Other Stories of the Four Million (1907), The Voice of the City: Further Stories of the Four Million (1908), The Gentle Grafter (1908) and Roads of Destiny (1909).

Swiss Family Robinson - Johann David Wyss - First published in 1812, Johann David Wyss's The Swiss Family Robinson is a classic story of survival on a deserted tropical island. While en route to Australia, the titular Swiss Family Robinson finds themselves in great peril when their vessel is caught in a violent storm. As the ship breaks apart when it is battered against a reef, the family is abandoned by their crew, who escape without them in the lifeboats. The family, which consists of a mother, father, and their four sons,

are left to fend for themselves. Luckily as the storm subsides they see an island in the distance. After salvaging a plethora of food, livestock, and other supplies they fashion a crude raft from the wreckage and make their way for the island. Every day on the island brings a new adventure and a new obstacle to overcome, as the family struggles to survive in a foreign land isolated from society. Johann David Wyss, a Swiss pastor, wrote this tale of adventure not only to entertain but to instruct, specifically his four sons, in the ways of good family values and the virtue of self-reliance. The impact of economic geography both within and beyond the wider field of geography has been constrained in the past by its own limitations. Drawing together the work of several eminent geographers this superb collection assesses the current state of knowledge in the sub discipline and its future direction. In doing so, the contributors show how economic geographers have offered explanations that affect places and lives in the broader context of the global economy. Offering a discussion of theoretical constructs and methodologies with the purpose to show the need to combine different approaches in understanding spatial (inter) dependencies, contributors also demonstrate the need to engage with multiple audiences, and within this context they proceed to examine how geographers have interfaced with businesses and policy. This excellent collection moves economic geography from a preoccupation with theory towards more rigorous empirical research with greater relevance for public policy. With excellent breadth of coverage, it provides an outstanding introduction to research topics and approaches.
