A powerful resource and tool for preparing for two of the most important examinations in counselor preparation and credentialing - the National Counselor Examination for Licensure and Certification (NCE) and the Counselor Preparation Comprehensive Examination (CPCE). Mastering the National Counselor Examination and the Counselor Preparation Comprehensive Examination is specifically designed to help students preparing for the NCE or CPCE and professional counselors preparing to take the NCE as a licensure exam. This practical guide provides numerous sample questions, includes four full-length practice exams - two for the NCE and two for the CPCE - and presents pertinent information about the NCE and CPCE, including discussion of its rationale, structure, format, and scoring procedures. Readers have ample opportunities to test their knowledge and practice answering the types of questions that they will encounter on the exams. Fully updated to align with 2016 CACREP standards and current NCE/CPCE content, the 3rd Edition includes new test preparation items, additional case studies, and a revised glossary of key terms. An updated Chapter 1 includes test-taking strategies, and a revised Chapter 9 focuses on what future counselors need to know about getting a job and marketing themselves as professional counselors. Two children survive a shipwreck in the South Pacific and must learn to fend for themselves on a remote island, where their love blossoms amid a tropical paradise. Illustrations by Willy Pog á ny.

This brisk retelling of Le Morte D'Arthur highlights the narrative drive, humor, and poignancy of Sir Thomas Malory ' s original while updating his fifteenth-century English and selectively pruning over-elaborate passages that can try the patience of modern readers. The result is an adaptation that readers can enjoy as a fresh approach to Malory's sprawling masterpiece. The book's most famous episodes--the sword in the stone, the cataclysmic final battle--are all here, while lesser-known key episodes stand forth with new brightness and clarity. The text is accompanied by an up-to-date bibliography, including websites and video resources, and a descriptive index keyed--like the retelling itself--to the book and chapter divisions of William Caxton's first printed edition of 1485.

Nobel Prize-winning economist explains why we need to reclaim finance for the common good The reputation of the financial industry could hardly be worse than it is today in the painful aftermath of the 2008 financial crisis. New York Times best-selling economist Robert Shiller is no apologist for the sins of finance—he is probably the one who helped create the stock market bubble of 2000 and the real estate bubble that led up to the subprime mortgage meltdown. But in this important and timely book, Shiller argues that, rather than condemning finance, we need to reclaim it for the common good. He makes a powerful case for recognizing that finance, far from being a parasite on society, is essential to our well-being. We have for solving our common problems and increasing the general well-being. We need more financial innovation—not less—and finance should play a larger role in helping society achieve its goals. Challenging the public and its leaders to rethink finance and its role in society, Shiller argues that finance should be defined not merely as the management of risk but as the stewardship of society's assets. He explains how people in financial careers—from CEO, investment manager, and banker to insurer, lawyer, and regulator—can and do manage, protect, and increase these assets. He describes how finance has historically contributed to the good of society through inventing new products, such as mortgages, savings accounts, and pensions, and argues that we need to envision new ways to rechannel financial creativity to benefit society as a whole. Ultimately, Shiller shows how society can once again harness the power of finance for the greater good.

For fans of Elmore Leonard and Robert B. Parker, meet hockey scout turned private detective Brad Shade, from “one of the best sports writers on the continent!” Brad Shade has been just about everywhere hockey is played. He has ridden the buses in the minors, shared dressing rooms with the legends of the game, closed bars with guys who were once NHL players, and dropped the gloves with journeymen like himself who'll never get near it. And even though he's retired after fourteen years of bouncing around the league with more losses than wins and his net worth eroding, he's still living out of a suitcase and still taking numbers. That's his day job—scout for LA, where someone in management owes him a few playing days. But when the brutally murdered body of coaching legend Red Hanratty turns up in the parking lot after an old-timers charity game (Shade goes scoreless, again), Shade's job of scouting the local phenom starts to overlap with investigating the killing of the kid's grizzled old coach. When the killer goes after Shade's girlfriend, he's in for the long haul. Stay in the league because they're good—they stick around because they're smart enough to know what needs to get done, and just ornery enough to actually do it. From small-town rinks to the draft tables in the big league, G.B. Joyce introduces us to a character Canadians already love—the fourth-liner with a self-deprecating sense of humor and a winning attitude. He's got the heart of a champion and the skill of a professional. He's got the guts to win—and weaves a story out of strands of resentment, greed, and fear that span generations and build to a surprising, thrilling conclusion.

AFTER several years of contemplation and of thought upon the matter herein contained, it has at last come about... that I have been able to write this work with such pleasure of spirit that, if it gives to you but a part of the joy that it hath afforded me, I shall be very well content with what I have done. For I believe that King Arthur was the greatest of all who ever lived in all the world. And those who were his fellows of the Round Table... made, altogether, such a company of noble knights that it is hardly to be supposed that their like will ever be seen again in this world... So in the year of grace one thousand nine hundred and two I began to write this history of King Arthur and his Knights of the Round Table. I shall endeavor, with love of that task, to finish the same at some other time in another book and to the satisfaction of whosoever may care to read the story thereof.

Sherlock Holmes, the world's 'only unofficial consulting detective', was first introduced to readers in A Study in Scarlet published by Sir Arthur Conan Doyle in 1887. It was with the publication of The Adventures of Sherlock Holmes, however, that the master sleuth grew tremendously in popularity, later to become one of the most beloved literary characters of all time. In this book series, the short stories comprising The Adventures of Sherlock Holmes have been amusingly illustrated using only Lego® brand minifigures and bricks. The illustrations recreate, through custom designed Lego models, the composition of the black and white drawings by Sidney Paget that accompanied the original publication of these adventures appearing in The Strand Magazine from July 1891 to June 1892. Paget's iconic illustrations are largely responsible for the popular image of Sherlock Holmes, including his deerstalker cap and Inverness cape, details never mentioned in the writings of Conan Doyle. This uniquely illustrated collection, which features some of the most famous and enjoyable cases investigated by Sherlock Holmes and his devoted friend and biographer Dr. John H. Watson, including A Sandal in Bohemia and The Red-Headed League, is sure to delight Lego enthusiasts, as well as fans of the Great Detective, both old and new. The Man with the Twisted Lip: Dr. Watson accompanies Sherlock Holmes to Kent, to investigate the strange disappearance of Neville St. Clair, a respectable country businessman. A disfigured beggar is arrested for the murder of the missing man as some clothes of Neville St. Clair were recovered from his room above an opium den. Holmes surmises, however, that the truth is less sinister and simply an exceptional case of mistaken identity.

With more questions and answers than any other edition, the Encyclopedia of Counseling, Fourth Edition, is still the only book you need to pass the NCE, CPCE, and other counseling exams. Every chapter has new and updated material and is still written in Dr. Rosenthal's lively, user-friendly style counselors know and love. The book's new and improved coverage incorporates a range of vital topics, including social media, group work in career counseling, private practice and nonprofit work, additions, neurocounseling, research trends, the DSM-5, the new ACA and NBCC codes of ethics, and much, much more.

The Crucible is a 1953 play by American playwright Arthur Miller. It is a dramatized and partially fictionalized story of the Salem witch trials that took place in the Massachusetts Bay Colony during 1692/93. Miller wrote the play as an allegory for McCarthyism, when the United States government ostracized people for being communists. The play was first performed at the Martin Beck Theatre on Broadway on January 22, 1953, starring E. G. Marshall, Beatrice Straightand Madeleine Sherwood. Miller felt that this production was too stylized and cold and the reviews for it were largely hostile (although The New York Times noted "a powerful play [in a driving performance]"). Nonetheless, the production won the 1953 Tony Award for Best Play - In Salem Massachusetts, a group of girls of Girls

are caught by the puritan Minister Reverend Paris dancing naked in the forest. The Reverend's daughter collapses immediately on sighting her father knowing well the consequences of their sin and the severe punishment that may be met on them. They however allege that they have been bewitched by the witches. - Due to their claims, a special court is set up to investigate this alleged claim by the girls prompting judges to come all the way from Boston to assist the residence of Salem - As court proceedings are going on, the supposedly afflicted girls indict individuals in the town of witchcraft, over and over again choosing victims who they or their families loathe. The special courts discovers over a hundred of Salem citizens are witches...The court's attempt to preserve Puritan morality by arresting and putting to death accused witches ironically leads to the removal of the most righteous people in the society.

A visually captivating, novelistic travelogue that chronicles the first civilian environmental cleanup expedition in Antarctica—an engaging true story told through anecdotes, journal entries, vignettes, recipes, and archival and contemporary photography. “The first thing that comes to mind about Antarctica is not likely the food. But if you are going there, it is the second.” –Wendy Trusler and Carol Devine The Antarctic Book of Cooking and Cleaning is a unique journey through an austral summer, when a group of dedicated individuals—fifty-four people from five countries—picked up nearly three decades’ worth of garbage during a three-month period in Antarctica. In this visually captivating polar journal, Wendy Trusler and Carol Devine transport readers back twenty years and thousands of miles to Bellinghausen, the Russian research station that became their temporary home. Devine, a humanitarian who piloted the project, and Trusler, a visual artist and cook, use journal entries, letters, provision lists, recipes, and menus to document their voyage. They share pithy, insightful observations on life, food, science, politics, and the environment. Showcased throughout are modern and vintage photos and vignettes from Antarctica’s short history—all of which add delightful color and warm detail to this unique book. Trusler reveals the challenges of cooking in a makeshift kitchen during long, white nights at the bottom of the world. While the dozens of eco-tourists strive to help preserve the continent, she must figure out how to cook for all of them in the small camp kitchen, using limited ingredients. The Antarctic Book of Cooking and Cleaning includes forty-two eclectic, tasty, and hearty recipes tinged with Russian, Chinese, and South American influences, such as Honey Oatmeal Bread, Cheese Fondue, Great Wall Dumplings, Roasted Pepper Goulash with Smoked Paprika, Roast Leg of Pork, and Frozen Chocolate Cream. All beautifully photographed, these dishes reflect the expedition’s colorful cultural fabric and the astonishing raw beauty of their surroundings—a continent uniquely devoted to peace, cooperation, and science. This book provides insight into the primary issues faced by older adults; the services and benefits available to them; and the knowledge base, techniques, and skills necessary to work effectively in a therapeutic relationship. Dr. Kampfe offers empirically and anecdotally based strategies and interventions for dealing with clients’ personal concerns and describes ways counselors can advocate for older people on a systemic level. Individual and group exercises are incorporated throughout the book to enhance its practicality. Topics covered include an overview of population demographics and characteristics; counseling considerations and empowering older clients; successful aging; mental health and wellness; common medical conditions; multiple losses and transitions; financial concerns; elder abuse; veterans’ issues; sensory loss; changing family dynamics; managing Social Security and Medicare; working after retirement age; retirement transitions, losses, and gains; residential options; and death and dying. *Requests for digital versions from the ACA can be found on wiley.com. *To request print copies, please visit the ACA website here. *Reproduction requests for material from books published by ACA should be directed to permissions@counseling.org.

From the bestselling author of Blink and The Tipping Point, Malcolm Gladwell's Outliers: The Story of Success overturns conventional wisdom about genius to show us what makes an ordinary person an extreme overachiever. Why do some people achieve so much more than others? Can they lie so far out of the ordinary? In this provocative and inspiring book, Malcolm Gladwell looks at everyone from rock stars to professional athletes, software billionaires to scientific geniuses, to show that the story of success is far more surprising, and far more fascinating, than we could ever have imagined. He reveals that it's as much about where we're from and what we do, as who we are - and that no one, not even a genius, ever makes it alone. Outliers will change the way you think about your own life story, and about what makes us all unique. 'Gladwell is not only a brilliant storyteller; he can see what those stories tell us, the lessons they contain' Guardian 'Malcolm Gladwell is a global phenomenon ... he has a genius for making everything he writes seem like an impossible adventure' Observer 'He is the best kind of writer - the kind who makes you feel like you're a genius, rather than he's a genius' The Times

Why do most people never have sex with close relatives? And why do they disapprove of other people doing so? Incest Avoidance and Incest Taboos investigates our human inclination to avoid incest and the powerful taboo against incest found in all societies. Both subjects stir strong feelings and vigorous arguments within and beyond academic circles. With great clarity, Wolf lays out the modern assumptions about both, concluding that all previous approaches lack precision and balance on insecure evidence. Researchers he calls "constitutionalists" explain human incest avoidance by biologically-based natural aversion, but fail to explain incest taboos as cultural universals. By contrast, "conventionalists" ignore the evolutionary roots of avoidance and assume that incest avoidant behavior is guided solely by cultural taboos. Both theories are incomplete. Wolf tests his own theory with three natural experiments: bint'amm (cousin) marriage in Morocco, the rarity of marriage within Israeli kibbutz peer groups, and "minor marriages" (in which baby girls were raised by their future mother-in-law to marry an adoptive "brother") in China and Taiwan. These cross-cultural comparisons complete his original and intellectually rich theory of incest, one that marries biology and culture by accounting for both avoidance and taboo.

Le Morte D'Arthur

Over the last half a billion years, there have been five mass extinctions of life on earth. Scientists around the world are currently monitoring the sixth, predicted to be the most devastating extinction event since the asteroid impact that wiped out the dinosaurs. Elizabeth Kolbert combines brilliant field reporting, the history of ideas and the work of geologists, botanists and marine biologists to tell the gripping stories of a dozen species – including the Panamanian golden frog and the Sumatran rhino – some already gone, others at the point of vanishing. The sixth extinction is likely to be mankind's most lasting legacy and Elizabeth Kolbert's book urgently compels us to rethink the fundamental question of what it means to be human.

The New York Times best-selling author of Zombie Spaceship Wasteland reveals his addiction to film between 1995 and 1999, during which he absorbed classics and new releases three days a week and applied what he learned in these films to acting, writing, comedy and relationships. 70,000 first printing.

The Adventure of the Dying Detective' is one of the stories among 56 Sherlock Holmes adventure by Arthur Conan Doyle.

The Tibetan Book of the Dead is one of the texts that, according to legend, Padma-Sambhava was compelled to hide during his visit to Tibet in the late 8th century. The guru hid his books in stones, lakes, and pillars because the Tibetans of that day and age were somehow unprepared for their teachings. Now, in the form of the ever-popular Tibetan Book of the Dead, these teachings are constantly being discovered and rediscovered by Western readers of many different backgrounds—a phenomenon which began in 1927 with Oxford's first edition of Dr. Evans-Wentz's landmark volume. While it is traditionally used as a mortuary text, to be read or recited in the presence of a dead or dying person, this book—which relates the whole experience of death and rebirth in three intermediate states of being—was originally understood as a guide not only for the dead but also for the living. As a contribution to the science of death and dying—not to mention the belief in life after death, or the belief in rebirth--The Tibetan Book of the Dead is unique among the sacred texts of the world, for its socio-cultural influence in this regard is without comparison. This fourth edition features a new foreword, afterword, and suggested further reading list by Donald S. Lopez, author of Prisoners of Shangri-La: Tibetan Buddhism and the West. Lopez traces the whole history of the late Evans-Wentz's three earlier editions of this book, fully considering the work of contributors to previous editions (C. G. Jung among them), the sections that were added by Evans-Wentz along the way, the questions surrounding the book's translation, and finally the volume's profound importance in engendering both popular and academic interest in the religion and culture of Tibet. Another key theme that Lopez addresses is the changing nature of this book's audience—from the prewar theosophists to the beat poets to the hippies to contemporary exponents of the hospice movement--and what these audiences have found (or sought) in its very old pages.

Sophie Lawson should be enjoying her sister’s wedding day. But nothing could have prepared her to see the best man again. After her mother became bedridden and her father bailed on the family, Sophie found herself serving as a second mother to her twin brother, Seth, and younger sister, Jenna. Sophie supported her siblings through their college years, putting aside her own dream of opening a bookshop in Piper’s Cove—the quaint North Carolina beach town they frequented as children. Now it’s finally time for Sophie to follow her own pursuits. Seth has a new job, and Jenna is set to marry her college beau in Piper’s Cove. But the destination wedding reunites Sophie with best man Aiden Maddox, her high school sweetheart who left her without a backward glance. When an advancing hurricane strands Aiden in Piper’s Cove after the wedding, he finds the hotels booked to capacity and has to ask Sophie to put him up until the storm passes. As the two ride out the weather, old feelings rise to the surface. The delay also leaves Sophie with mere days to get her bookshop up and running. Can she trust Aiden to stick around? And will he find the courage to risk his heart? “Sophie and Aiden had me hooked from page one, and I was holding my breath until the very end.
