"This edited volume aims to understand the policies, practices and limitations of refugee education in four South Asian countries: Bangladesh, India, Nepal and Pakistan. Evidence suggests that refugee education in three countries including Bangladesh, India and Pakistan is being viewed as a relief activity, whereas education for Bhutanese refugees in Nepal is being observed as a development activity. This book suggests that refugee education in Bangladesh, India and Pakistan should be provided from a development point of view whereby refugee children can live with honor and dignity if they have an opportunity to be integrated in host countries, resettled in third countries or repatriated in their home countries"--

This book is essential reading for electronic consumer-product manufacturers doing business in the European marketplace. Compliance with directives and procedures can be a complex and confusing process, resulting in wasted money and effort. With the help of the CE Marking Handbook, engineers and managers can more easily identify which rules apply to them and pinpoint what they need to do to comply. Dave Lohbeck was formerly the Manager for Seminars and Training at TUV Rhineland, the largest German testing and certification agency. He has worked for many years as an engineer, including nine years in the field of European safety and EMC compliance. A once complicated topic is made clear as the author addresses the confusion surrounding CE Marking. Lohbeck offers guidance on both legal and design issues. This book includes a step-by-step design guide aimed at both novice and experienced exporters. With its help, engineers and managers can easily identify which rules apply to their products and pinpoint what they need to do to comply. The information presented here is backed up with facts and examples. Many have been misled, unfortunately, but this book presents the real meaning of CE Marking. Shows design engineers how to comply with CE requirements for product conformity Explains legal and technical issues concisely and logically Presents and illuminates US and EU differences
