" I loved this book! Wait. Let me say this again. I LOVED this book!" ~ Fallen Angels Reviews
**BOOK DESCRIPTION:** Her job is to make his life miserable. His job is to make her submit. Whose heart will surrender first? Across the country, rebellious BDSM submissives are being systematically kidnapped, one from each club. When her friend falls prey to the slavers, FBI victim specialist Gabrielle volunteers to be bait in a club not yet hit: the Shadowlands. She finds that being a bratty sub comes naturally, especially when she gets to twit the appallingly conservative Master of the trainees. But she soon discovers he ’s not as stuffy as she ’d thought. Or as mean. She ’d expected punishment, even humiliation, but she sure never expected to fall in love with a damned lawyer. Courtesy of a prima donna ex-wife, Marcus loathes disobedient submissives. When the club owner insists he admit an incredibly bratty trainee, he ’s furious. But as he comes to know Gabrielle and sees the alluring sweetness beneath the sass, he starts to fall for her. Unfortunately, Marcus isn’t the only one who believes the feisty redhead is a prize worth capturing. And in the world of the slaver, such treasure is worth a hefty fee. “ I don’t think there is any other option for me than 5 stars. I’d give it a whole lot more if I could.” ~ The Romance Reviews “ \* \* \* “If you’ve not experienced the fantastic work of Cherise Sinclair, now ’s a good time to start!” ~ Whipped Cream Reviews
In the exclusive Shadowlands BDSM club, the title “Master” is given to only the most powerful, experienced, and skilled Dominants. However, although each Master may have played with many, many submissives, no training can prepare a Dom for falling in love. Natasha Munro is your typical twenty eight year old girl, well your typical twenty eight year old English loud 'n' proud Georgie; curvy, fun and a whole load of fab-u-lous. Her life is all going to plan - good job, great friends, close family and a loving boyfriend - until an unexpected event stands everything on its head.Nursing a broken heart and decked head-to-toe in tasselled chaps and rhinestones, Natasha and her flamboyant fairy of a gay best friend, Tink, uproot from their North-Eastern nest, throw caution to the wind and embark on a new life together in Canada. Canada - Land of the Rocky Mountains, maple syrup; oh, and an 'in-between movies' Hollywood mega-star.Enter infamous bad-boy of the big screen, Tudor North -Tudor 'bloody' North! Tudor is towering, brooding and gorgeous, and he is harbouring a deep secret. His outward demeanour is cold and intimidating, and with it he successfully keeps everyone at arm's length; that is everyone except a certain Ms. Munro.It soon becomes clear; what with her smart mouth and lusciously ample arse, that Natasha proves more than a match for her emotionally-distant mega-star.Will Natasha settle into her new life in Canada? Will she ever find her fairytale happy ending? Can a movie star and an ordinary girl from England ever really make it work? Or will the secrets lurking in Tudor's past scupper their chance of happiness?Eternally North is addictive, funny and heart-warming; a fast paced comedic journey of self-discovery; unyielding friendship and, of course, it would not be complete without a generous sprinkling of good old-fashioned British 'slap-and-tickle'.WARNING: Contains a foul-mouthed voluptuous Brit; a self-confessed and self-promoted Friggin' Fantastic Fairy; and an abundance of tattoo-smothered muscles nicely wrapped up in one gorgeous bad-boy package.

Nina Raine's Tiger Country is a hospital play that follows a tangle of doctors and nurses in a busy London hospital - from the award-winning author of Tribes. Professionalism and prejudice, turbulent staff romances, ambition and failure collide in this swirling, action-packed drama about an overburdened health service that we all depend on and the dedicated individuals that keep it going. "Tiger country" is where animal instinct stirs and an irrefutable eye opens. Where we make eye contact with the unknown. Tiger Country was premiered at Hampstead Theatre in 2011 and, following its sell-out run, was revived there in 2014.

Focusing on the design decisions and standards which have made internetworking possible, this new book charts the intriguing history of this communications/computing phenomenon. From its beginnings as a Department of Defense project to its current position as the global network for computing communications, the full Internet story is told here.

On the eve of World War II, the Squalus, America's newest submarine, plunged to the bottom of the North Atlantic. Miraculously, thirty-three crew members still survived in the stricken vessel. While their loved ones waited in unbearable tension onshore, their ultimate fate would depend upon one man, US Navy officer Charles "Swede" Momsen - an extraordinary combination of visionary, scientist and man of action. In this thrilling true story, prize-winning author Peter Maas vividly re-creates a moment-by-moment account of the disaster and the man at its centre. Could he actually pluck those men from a watery grave? Or had all his pioneering work been in vain?'Gripping New York TimesA white knuckle read' Publishers Weekly

The wildly inventive debut collection of stories by the Oscar-nominated star of The Social Network. “ Hilarious . . . It ’s a hoot ” (People, The Best New Books). Jesse Eisenberg, known for his iconic film roles, his regular pieces in the New Yorker and two critically acclaimed plays, proves himself “ a deeply original comic voice ” in these 28 stories “ about the funniness, sadness, and strangeness of everyday life and they really made me laugh ” (Roz Chast). Moving from contemporary LA to the dorm rooms of an American college to ancient Pompeii, Eisenberg throws the reader into a universe of social misfits, reimagined scenes from history, and ridiculous overreactions; a college freshman forced to live with a roommate is stunned when one of her ramen packets goes missing (“ She didn’t have ‘ one ’ of my ramens. She had a chicken ramen.” ), Alexander Graham Bell has teething problems with his invention (“ I ’ve been calling Mabel all day, she doesn’t pick up! Yes, of course I dialed the right number—2! ”); and in the title story, a precocious and privileged nine-year-old boy finds himself in the uncomfortable position as an amateur restaurant critic. Featuring illustrations by award-winning cartoonist Jean Jillian, this “ alphabet soup of sketches, riffs, and innovations ” (Seattle Times) explores the various insanities of the modern world. “ Fully bringing both familiar and wholly original scenarios to life ” (Marie Claire). *Haunting, gripping, and psychologically fierce tales that illuminate an unsettling side of humanity from “one of the treasures of American story writing” (Jonathan Lethem). Featuring the O. Henry Prize-winning short story “Windeye,” this collection of Brian Evenson’s masterful stories “involve impossible scenarios and alternative realities” that are “always surprising” (Bookforum). A woman falling out of sync with the world; a king’s servant hypnotized by his murderous horse; a transplanted ear with a mind of its own—the characters in these twenty-five stories live as interlopers in a world shaped by mysterious disappearances and unfathomable discrepancies between the real and imagined, revealing the breadth and depth of Evenson’s uncanny vision. “There has never been a book provoking more delirium, foolishness and irrational movements, without any relationship to Jesus Christ [than the Book of Revelation].” ~Jacques Ellul, Introduction Known for his trenchant critique of modernity and of those Christians who celebrate their captivity to it, Ellul here cuts to the heart of the theological intention of the Book of Revelation, and thereby reveals the liberating gospel in all its offensiveness. Neither an exhaustive commentary nor a work of historical-exegetical analysis, Apocalypse is a provocative, independent interpretation. Ellul seeks to rescue Revelation from the reassuring and orthodox banality to which commentators often reduce it. The goal is to perceive the totality of the book in its movement and structure. “Architecture in movement” is the key to understanding Revelation’s puzzling but simple message. This edition also comes with a new foreword by Jacob Marques Rollison who provides an essential aid for guiding readers through Ellul’s thorough engagement with Revelation.*

*Kate Winter teaches dog owners how to train their canine companions. During her spare time, accompanied by her Lab, Dakota, she explores the woods and beaches on foot or horseback. She's worried that something's happening in her relationship, but she can't get her girlfriend Trish to talk to her about it. Faith Hutchins recently lost her sight after a terrible outdoor accident. She's dealt with her anger, depression, and blindness primarily on her own. A seeing-eye dog would help alleviate her reliance on anyone else, but the guide dog school has been unsuccessful in providing her with one. On a mission to find someone who will train a dog specifically for her, she ultimately zeroes in on Kate. They say lightning never strikes the same place twice. *A History of the Internet and the Digital Future tells the story of the development of the Internet from the 1950s to the present and examines how the balance of power has shifted between the individual and the state in the areas of censorship, copyright infringement, intellectual freedom, and terrorism and warfare. Johnny Ryan explains how the Internet has revolutionized political campaigns; how the development of the World Wide Web attracted a new online population of assertive, niche consumers; and how the dot-com bust taught smart firms to capitalize on the power of digital artisans. From the government-controlled systems of the Cold War to today's move towards cloud computing, user-driven content, and the new global commons, this book reveals the trends that are shaping the businesses, politics, and media of the digital future. Set during the 1980s civil war in Lebanon, "Dreams of Water" is compulsively readable, deceptively simple and overwhelmingly moving.*

This sumptuously illustrated volume analyzes artists’ representations of angels and demons and heaven and hell from the Judeo-Christian tradition and describes how these artistic portrayals evolved over time. As with other books in the Guide to Imagery series, the goal of this volume is to help contemporary art enthusiasts decode the symbolic meanings in the great masterworks of Western Art. The first chapter traces the development of images of the Creation and the Afterworld from descriptions of them in the Scriptures through their evolution in later literary and philosophical works. The following two chapters examine artists’ depictions of the two paths that humans may take, the path of evil or the path of salvation, and the punishments or rewards found on each. A chapter on the Judgment Day and the end of the world explores portrayals of the mysterious worlds between life and death and in the afterlife. Finally, the author looks at images of angelic and demonic beings themselves and how they came to be portrayed with the physical attributes—wings, halos, horns, and cloven hooves—with which we are now so familiar. Thoroughly researched by and expert in the field of iconography, Angels and Demons in Art will delight readers with an interest in art or religious symbolism. Sixteen-year-old Buddy Boyle makes a shattering discovery about his family in this powerful and poignant novel by award-winning author M. E. Kerr: Buddy Boyle lives with his parents and younger brother in a small house on a half-acre of land in undesirable Seaville, New York. Skye Pennington spends her summers on the opposite end of town on five acres with a view of the ocean. Buddy ’s dad is a police sergeant. Skye ’s is the head of a multi-million-dollar industry. But none of that stops Buddy and Skye from falling in love. To impress her, Buddy takes Skye to visit his aristocratic grandfather in Montauk. Frank Trecker is Buddy ’s mother ’s father, a man she never talks about. Just as Buddy feels he ’s getting to know his estranged grandfather, reporter Nicholas De Luca shows up. For three years, he ’s been searching for a notorious Nazi war criminal known as Gentlehands. When De Luca uncovers a shocking connection to

This major work presents a remarkable sequence of photo-stories from pioneering photo agency VII, documenting world history as we have experienced it since the end of the Cold War. The 11 extraordinarily talented photographers who make up this agency work at the cutting edge of digital photojournalism, committed to recording social and cultural change as it happens around the world. Questions Without Answers is an ambitious book featuring a strikingly broad selection of photo stories. Photos documenting Barack Obama giving a speech on Afghanistan to American troops sit alongside a collection of portraits featuring famous cultural figures such as David Bowie and Bernardo Bertolucci. We move from an exploration of the spread and impact of AIDS in Asia to dispatches from the current economic crisis and its effect on those working in finance. The crucial work done by VII in documenting conflict - environmental, social and political, both violent and non-violent - is also represented, including stories from the war in Iraq, the crisis in Darfur and the terrible events of 9/11. With an introduction by the eminent David Friend, Vanity Fair's editor of creative development and the former director of photography of Life magazine, this book is an important, moving and compelling record of the world we live in.

Introduction to Linear Algebra, Sixth Edition, is a foundation text that bridges both practical computation and theoretical principles. This book's flexible table of contents makes it suitable for students majoring in science and engineering as well as students who want an introduction to mathematical abstraction and logical reasoning.A To achieve this flexibility, the authors focus on three principle topics: matrix theory and systems of linear equations, elementary vector space concepts, and the eigenvalue problem. This highly adaptable text is appropriate for a one-quarter or one-semester course at the sophomore/junior level, or for a more advanced class at the junior/senior level.

Brothers Francis and Johnny Billington take issue with history's account of their troublemaking ways aboard the Mayflower and in the New World, as they tell their side of the story to Standish Brewster, professor of Pilgrimage at Plymouth University.

*Partial Differentia Equation Toolbox provides functions for solving structural mechanics, heat transfer, and general partial differentia equations (PDEs) using finite element analysis. You can perform linear static analysis to compute deformation, stress, and strain. For modeling structural dynamics and vibration, the toolbox provides a direct time integration solver. You can analyze a component's structural characteristics by performing modal analysis to fin natural frequencies and mode shapes. You can model conduction-dominant heat transfer problems to calculate temperature distributions, heat fluxes and heat flow rates through surfaces. You can also solve standard problems such as diffusion electrostatics, and magnetostatics, as well as custom PDEs.Partial Differentia Equation Toolbox lets you import 2D and 3D geometries from STL or mesh data. You can automatically generate meshes with triangular and tetrahedral elements. You can solve PDEs by using the finite element method, and post process results to explore and analyze them.The most important features developed in this book are the following: -Structural analysis, including linear static, dynamic, and modal analysis-Heat transfer analysis for conduction-dominant problems-General linear and nonlinear PDEs for stationary, time-dependent, and eigenvalue problems-2D and 3D geometry import from STL file and mesh data-Automatic meshing using triangular and tetrahedral elements with linear or quadratic basis functions-User-define functions for specifying PDE coefficients boundary conditions, and initial conditions-Plotting and animating results, as well as derived and interpolated valuesAmon others applications PDEs are used for: -Steady and unsteady heat transfer in solids-Flows in porous media and diffusion problems-Electrostatics of dielectric and conductive media-Potential flow-Steady state of wave equations-*

*Get Rolling on Your Most Inventive Artwork Ever! What lurks in the shadows of your imagination? This book takes you deep into the dusty corners and dark recesses where your most original ideas lie in wait, showing you how to lure them out into daylight, and shape them into fantastic yet believable concept art. Experimentation is the cornerstone of Fantasy Genesis. A series of dice rolls and corresponding word lists present you with an infinite variety of jumping-off points and visual problems to solve. The challenge (and the fun) is to meld seemingly unrelated and everyday elements such as a caterpillar, seashells, fire or a hammer into exceptionally curious, grotesque, oddly beautiful and totally unexpected creations. • 40+ step-by-step mini-demonstrations illustrate basic techniques for drawing a wide range of fantasy elements and forms • 3 game variations (complete with game sheets) lead you to create fiercely imaginative objects, creatures and humanoids • 3 full-length demonstrations show how to play the game from your first rolls of the die to finished concept drawings Use this art–game as a warm-up, a bulldozer for creative-block or a daily sketching exercise to generate a stockpile of inspired beasties, heroes, costumes, weapons and other never-before-dreamt creations. It all starts with a roll, a word and your imagination.*

*The question of governance of the Internet is increasing in significance. The United Nations' World Summit on the Information Society, held in two phases in 2003 and 2005, provoked heated debate, and the resultant meetings of the Internet Governance Forum that followed this have been the subject of growing public and media interest. Yet governance of the Internet is multifaceted, complex, and far from transparent, and there has been little written about the subject which is detailed, systematic, and non-polemical. This book focuses on the issues involved in the ongoing development of Internet governance, and the challenges associated with developing and applying governance structures at a global level based on bottom-up, consensus-seeking decision-making procedures, without direct foundation in a treaty frame-work. Leading academics and practitioners studying and working in the area of Internet governance explore such issues as how the engineering of infrastructure matters, how legitimacy is gained and retained by governance organizations, and whether elements of such organizations can provide a model for other organizations to emulate. They examine the tensions inherent in Internet governance, such as government control versus digital libertarianism; commercialism versus civil society ideals; interests of developed countries versus interests of developing countries. The book will be of interest to academics, researchers, and students of Information and Communications Technology, legal aspects of ICT, and Organization Studies, as well as legal practitioners, government bodies, NGOs, and others concerned with Internet governance.*

*Adapted from a series of lectures on the historical basis and current resurgence of the sacred feminine, given by Andrew Harvey at the California Institute of Integral Studies in Spring 1994, The Return of the Mother is a profound journey into the heart of the Divine Mother. In this comprehensive and groundbreaking work, mystical scholar Andrew Harvey unearths traces of the sacred feminine in major world religions—Hinduism, Islam (Sufism), Buddhism, Taoism, and Christianity—and in aboriginal and indigenous wisdom traditions. Harvey presents a scathing critique of the patriarchal distortions in religious history and doctrine that have obscured full knowledge of the Divine Mother, and shows how to reintegrate this vital aspect into the spiritual consciousness of humankind. The Return of the Mother offers a radical new perspective, balancing the historical overemphasis on transcendence by honoring the immanence of the divine in passionate engagement in the world. Only by cultivating a direct, respectful relationship with the transformative power of the sacred feminine can we alter our disastrous attitude of dissociation from nature, the body, sexuality, and the details of human life, and generate the energy and compassion needed to reverse the course of destruction we have set the planet—and all of life—hurtling toward. In lively question-and-answer sections, Harvey further illuminates these vital issues and takes a strong stand against our dependence on “gurus” and “masters,” proposing instead an egalitarian model of spiritual community based on intimate groups of mutually supportive guides and friends. The Return of the Mother is an eloquent and passionate call for all of us to rediscover and reclaim an authentic and empowering relationship to the divine, and recreate a sacred life—in-the-world.*
