All parents want their children to model good character. And the best way to do that is to encourage children to want to be just like our ultimate role model—Jesus! *Just Like Jesus Bible Storybook* is a collection of stories that will inspire kids to take on the character of Jesus. Each story highlights a lesson that Jesus taught—lessons like giving thanks, treating everyone equally, sharing with others, being patient, being generous, and more. Each lesson features a “Jesus in the Bible” story that shows Jesus’ character and how He acted in particular situations. Flip the page, and children will find a section called “Jesus in Me” that will inspire them to model Jesus’s behavior, conform to His character, and want to be just like Him! Each lesson ends with a short prayer through which children can ask God to help them develop the character of Jesus.

This is a reproduction of a 1900 edition with over 100 illustrations of that period and consists of inspiring and profound lessons from the stories and parables which Jesus told. Christ the Great Teacher gave much of His instruction as He walked with His disciples through the hills and valleys of Palestine or rested by the lake or river. In His parable teaching He linked divine truth with common things and incidents, as may be found in the experiences of the shepherd, the builder, the tiller of the soil, the traveler, and the homemaker. Familiar objects were associated with thoughts true and beautiful—thoughts of God’s loving interest in us, of the grateful homage that is His due, and of the care we should have one for another. Thus lessons of divine wisdom and practical truth were made forcible and impressive. Natural things were the medium for the spiritual. Christ’s parables are links in the chain of truth that unites man with God, and earth with heaven.

Heritage Edition—Over 100 illustrations of a century ago. Unabridged, original text consisting of inspiring and profound lessons from the stories and parables which Jesus told. Christ the Great Teacher gave much of His instruction as He walked with His disciples through the hills and valleys of Palestine or rested by the lake or river. In His parable teaching He linked divine truth with common things and incidents, as may be found in the experiences of the shepherd, the builder, the tiller of the soil, the traveler, and the homemaker. Familiar objects were associated with thoughts true and beautiful—thoughts of God's loving interest in us, of the grateful homage that is His due, and of the care we should have one for another. Thus lessons of divine wisdom and practical truth were made forcible and impressive. The Scripture says, "All these things spake Jesus unto the multitude in parables; . . . that it might be fulfilled which was spoken by the prophet, saying, I will open My mouth in parables; I will utter things which have been kept secret from the foundation of the world." Matt. 13:34, 35. Natural things were the medium for the spiritual; the things of nature and the life-experience of His hearers were connected with the truths of the written word. Leading thus from the natural to the spiritual kingdom, Christ's parables are links in the chain of truth that unites man with God, and earth with heaven. In this volume the parables are grouped according to their subjects, and their lessons are developed and illustrated. The book is full of gems of truth, and to many readers it will give a richer meaning to the common surroundings of everyday life.

Manual of Object-teaching

It is common knowledge that an individual retains to memory a lesson taught not only by the spoken word but one that is accompanied with an object or illustration. This book does just that it presents the Gospel of Jesus Christ in a clear concessive way by using easy to obtain, everyday objects that even a child can understand and remember. The lessons are clear and practical. The hearer is also motivated to put them into practice. The lessons presented cover the most of the most important teaching in the Christian

faith.

The book you hold in your hands, a collection of spiritual object lessons, is a labor of love that spans some thirty-five years of ministry. Sometimes dubbed children's sermons, years of experience have taught me that simplified truth has both universal appeal and application. Modeled roughly after the teaching parables of Jesus, this two and a half years' worth of messages illustrate essential principles of the Christian faith in simplest terms. Capitalizing on a childlike curiosity and imagination, each lesson uses some common household item to interpret an important biblical truth in a fresh, creative, and memorable way. Recognizing the limited attention span of our youngest worshipers, each message can be presented effectively in three to five minutes but may be easily

expanded if more interaction is desired. Intended to aid the pastor with too many irons in the fire to consistently prepare creative and engaging talks for young minds, these lessons also are so detailed that they could just as easily be presented by a layperson. In fact, should the children's leader be less than comfortable with public speaking, the messages are so complete that they could even be read effectively with minimal advance rehearsal. But don't let the promised simplicity mislead you; the truths presented are profound. And while sometimes presented with wit and humor, worshipful respect and reverence are always maintained and the integrity of God's Word fiercely preserved. But rest assured, Art Linkletter was right; kids do say the darnedest things! So may the Lord bless this resource to the enhancement of your ministry and give you as much fun and satisfaction as it has me. 63

When children are engaged, they learn. Creativity captures their curiosity and helps the truth of God's Word to sink deeply into the soil of their hearts. And God is faithful. He will continue to water and care for those seeds until they produce a harvest. In this book, you will find creative, dynamic object lessons that let children participate in their learning. They draw on lessons from science, stories, popular games and even a little "magic," and they are always firmly rooted in truth from God's Word. Children will want to share what they learn with their families and friends, and they will be excited to see what you are going to teach them next week!

The twenty-first century is a time of change for early learning in museums, due in

part to society's evolving view of childhood, from an age of innocence to understanding the robust learning that defines the first years of life. This perspective is a catalyst for international conversation and continues to raise attention and interest across society. **Object Lessons and Early Learning** leverages what is known about the cognitive development of young children to examine the power of learning through objects in museum and heritage settings. Exploring the history and modern day practice of object-based learning, Shaffer outlines the rationale for endorsing this approach in both formal and informal learning spaces. She argues that museums, as collecting institutions, are learning spaces uniquely positioned to allow children to make meaning about their world through personal connections to cultural artifacts, natural specimens, and works of art. A range of descriptive object lessons, inspired by objects in museums as well as from the everyday world, are presented throughout the text as examples of ways in which children can be encouraged to engage with museum collections. **Object Lessons and Early Learning** offers insights into strategies for engaging young children as learners in museum settings and in their everyday world, and, as such, will be essential reading for museum professionals, classroom educators, and students. It should also be of great interest to academics and researchers engaged in the study of museums and education.

Drawn from every book of the New Testament, **The Giant Book Of Children's Sermons -- Matthew To Revelation** contains five full years worth of material you can share with your young disciples. Each of the 260 talks teach children God's Word through the use of common objects that illustrate an important concept in the scriptures. The messages come from Wesley Runk, a pastor and master communicator with kids who has written over 30 best-selling collections of children's sermons and object lessons. Runk uses a warm and often humorous approach to take on even the tough topics of the New Testament -- and the analogies he creates with the use of such simple objects as bananas, clocks, puzzles, and funnels add visual focus for the kids and help them grasp the point on a level suitable for their age. Now,*

When Caren Holtzman and Lynn Susholtz look around a classroom, they see "a veritable goldmine of mathematical investigations" involving number, measurement, size, shape, symmetry, ratio, and proportion. They also think of the ways great artists have employed these concepts in their depictions of objects and space--for example, Picasso's use of geometric shapes in his Cubist still lifes or contemporary artist Tara Donovan's room-sized sculptures of everyday items. In their new book *Object Lessons*, Caren (a math educator) and Lynn (an artist and art educator) use a highly visual approach to show students and teachers the art in math and the math in art. Integrating visual arts into math experiences makes the lessons accessible, engaging, and meaningful for a wide range of students. In each chapter, the authors use everyday objects to create rigorous, hands-on activities that address key mathematics standards and concepts. Each lesson provides: * an introduction to the featured object that explains how it connects to key mathematical concepts; * a discussion of the artists, art styles and techniques featured; * activities organized by grade level and math content area; * the basic materials required to prepare and teach each lesson; * a clear picture of what the lesson will look like in a classroom; and * a list of resources. The book and its accompanying CD feature a wonderful gallery of images--including art photos and student work--and a collection of links to art education organizations, museums, and Web sites that focus on the work of forty major artists.

When we teach children about the fruit of the Spirit, we latch onto the idea of

fruit--apples, oranges, grapes--as a way to simplify and illustrate the idea. The activities in this book will help children understand the fruit of the Spirit--where it comes from, how they can demonstrate it in their everyday lives, and how Jesus set an example for demonstrating the fruit of the Spirit in His relationships with His Father and with other people. Activities include puzzles, coded messages, mini-books, rhymes, songs, acrostics, crafts, object lessons, and various other creative teaching ideas. Each lesson begins with a Bible story of a person who demonstrated the fruit of the Spirit in his or her life. The stories are presented in a variety of creative ways to capture children's attention and hold it. The story is followed by a memory verse and a bulletin board idea. Each lesson includes 6-7 pages of Bible activities to involve children in discovering for themselves the importance of each fruit mentioned in Galatians 5:22-23. The lessons are based on the New International Version Bible. An answer key is provided at the back of the book.
