This publication analyses recent development in migration movements and policies in OECD countries and some non member countries as well as the evolution of recent labour market outcomes of immigrants in OECD countries. It includes a special chapter on : "Changing Patterns in the international ...

This book analyzes Ayatollah Khomeinis ideology, Irans official and unofficial armed forces, and its allies throughout the world and provides photographs of the regimes predominant actors. Since 1892, the Shia clergy has played a major role in Iran, such as the tobacco boycott, which led to the withdrawal of the concession given by the Shah to British citizens, Irans Constitutional Revolution of 1906, as well as organizing opposition to the Shahs policies in the 1979 revolution. Ayatollah Khomeini was a lecturer at Hawza Ilmiyya (Shia seminary of traditional Islamic school of higher learning) of Najaf and Qom for decades before he came on to the Iranian political scene. In 1977, Khomeini assumed the mantle of leadership within the Islamist opposition after the death of Ali Shariati, a leftist intellectual and one of the most influential Iranian Muslim thinkers of his generation. In 1930, Shariati contributed a new line of thinking in Iran, through his reinterpretation of jihad and shahadat (martyrdom), which was presented in his view of an authentic Islam. Shariatis new authentic Islam centered on a reinterpretation of the story of Karbala, where Imam Hussein was martyred in a battle, refusing to pledge allegiance to Yazid, the Umayyad caliph. Shariati borrowed the Christian concept of martyrdom from the Crucifixion and Resurrection of Jesus as the basis of his new Islamic philosophy. Shariati wrote that when faced with the possibility of ones own death, one must adopt an attitude of freedom-toward-death and thereby experience authentic living. In 1978, Ayatollah Khomeinis reinterpretation of Shia rituals removed the borders between the audience and the actors, turning the entire country into a stage for his casting. He imbued the old passion of the story of Karbala with a new passionate hatred for the Shahs unjust rule in Iran, as well as Israels and the United States influences within the world. Khomeinis memory of Dr. Mohammad Mosaddegh, whose government was toppled by the CIA in 1953, returning the Shah to Iran, resulted in the rise of various political groups such as nationalists, liberals, secularists, and Marxists. These groups were essential in assisting Khomeinis overthrow of the Shah, though they were soon stomped out by the creation of the Islamic Revolutionary Guard Corps (IRGC) in May 1979 in order to protect Khomeinis unique brand of a Shia Islamic Revolution. The Iran-Iraq War initiated the rapid expansion of the IRGC's size and capabilities. In September 1980, the IRGC had only 30,000 men in lightly armed units. Prior to the war, the IRGC personnel were very young in age and had little to no military experience. By the summer of 1981, the IRGC had organized basic training centers with experienced commanders and a select group of regular officers. They also had 50,000 members, and its strength would jump to 100,000 in 1983 and 250,000 in 1985. In order to meet all its manpower needs on the Iraq war front, the IRGC then turned to its volunteer militia, the Basij. The Basij members provided more troops than the IRGC could arm. The average Basij member came from Irans rural areas and can be described as poor, uneducated, and ranged in age from twelve to thirty years old. Like the IRGC, the Basij members are motivated by both religion and ideology. After the Iran-Iraq War, the IRGC focused on external threats as the Basij increased its involvement in domestic affairs. In past years, the Basij militia has been active in controlling public gatherings and disrupting demonstrations by civil or student activists.

Kenya is a thriving country in East Africa: its economy is largely based on the natural environment that frames the tourism sector, mainly through safaris and holidays on the coast. The natural environment also underpins the second largest industry: agriculture. Kenya's social, technological, and industrial developments are a reference for many neighboring countries. Kenya plays a leading role in Africa and attracts huge amounts of investments. Furthermore, the humanitarian initiative has made Nairobi its base for international headquarters and regional offices. This makes Kenya a possible model for development and investment in its widest sense. This book aims at updating the holistic view on Kenya's natural environment and resources. It provides a sound scientific introduction to this country's physical and socioeconomic setting and its evolution through time and will appeal to a broad audience of students – in Kenya and abroad – as well as those working in the development and humanitarian sectors and to international donors looking for a scientific compendium on Kenya's environment. Its structure and references allow the reader to deepen his or her knowledge of every theme touched on in the book. Combines different aspects of physical geography, water and soil resources and their management strategies Written by a blend of international and national experts Includes specific case studies

This book contains a medium-term (five-year) economic outlook for Southeast Asia, China and India.

As it was projected earlier in the year, while most markets were braced for a major global economic downturn, the food sector, including markets for bananas and tropical fruits, continued to display more resilience to the Covid-19 pandemic than other sectors. This report provides supply and demand forecasts for basic foodstuffs, fish and fishery products along with price analysis, policy information and a preliminary assessment of the impacts of the Covid-19 pandemic on trade in bananas and tropical fruits. The report's special feature reviews recent trends published by the Markets and Trade Division of FAO as part of the Global Information and Early Warning System (GIEWS). It is a biannual publication (November and June) focusing on developments in global food markets. Food Outlook maintains a close synergy with another major GIEWS publication, Crop Prospects and Food Situation, especially with regard to the coverage of cereals. Food Outlook is available in English. The summary section is also available in Arabic, Chinese, French, Russian and Spanish.

African Economic Outlook 2014 Global Value Chains and Africa's Industrialisation

November 2020

*This edition of the Latin American Economic Outlook finds that the region has weathered the recent turbulence in the global economy with reletive strength. This edition focuses on the role of Small and Medium Enterprises in Latin America.*

*Milestones for adult basic education include: It was first federally funded in 1964. The National Literacy Act passed in 1964. The Workforce Investment Act (WIA) of 1998 was enacted. The field then remained relatively static until 2014 when: a new version of the GED® test was launched, new content standards were developed, new data on adult cognitive skills were released, and the Workforce Innovation and Opportunity Act (WIOA), with its laser focus on employment and training, was enacted. This volume reviews where the field is in relation to these turning points and discusses where it could go. Taking up critical discussions of the many recent and influential changes as well as topics of enduring interest, this volume will be valuable to practitioners, researchers, and policy makers. This is the 155th volume of the Jossey Bass series New Directions for Adult and Continuing Education. Noted for its depth of coverage, it explores issues of common interest to instructors, administrators, counselors, and policymakers in a broad range of education settings, such as colleges and universities, extension programs, businesses, libraries, and museums.*

*Outlook 2013 is an upscale version of the former Outlook. The particular functions are now separated by tabs. The "File" tab has all the information that is needed to make changes such as save, open, print, options, etc. The "home" tab is where the simple transactions take place such as new mail, reply, delete, etc. "Send/Receive" tab is all about sending and synching files and folders. "Folder" tab allows changes or formatting to folders "View" addresses how you would like to customize the view of your Outlook experience. A chart would be beneficial to compare the old version to the new perhaps showing the ease of the transition. People that prefer the older versions would appreciate knowing where to find the function in the new format if a chart could point this out easily for them. The transition would be much easier.*

*Taking the perspective of institutions and the system, Education Policy Outlook 2019: Working Together to Help Students Achieve their Potential, analyses the evolution of key education priorities and key education policies in 43 education systems. It compares more recent developments in education policy ecosystems (mainly between 2015 and 2019) with various education policies adopted between 2008 and 2014.*

The Asian Development Outlook 2013 estimates that regional economic growth in the Asia Pacific region will pick up to 6.6% in 2013 and reach 6.7% in 2014. This is a distinct improvement on 2012, when growth stood at just over 6%. Consumer prices are expected to rise by 4.0% in 2013 and 4.2% in 2014, up from 3.7% last year. Leading regional economies are settling into a pattern of more moderate, more sustainable growth, founded on new opportunities nearer to home, including domestic consumption and intra-regional trade. Meanwhile, Asia's contributions to global imbalances—its persistent current account surpluses—are smoothly winding down. Yet, developing Asia's recovery phase remains vulnerable to shocks. Strong capital inflows could feed asset bubbles, for example.

This edition of the Southeast Asian Economic Outlook examines medium-term growth prospects, recent macroeconomic policy challenges, and structural challenges including human capital, infrastructure and SME development.

The OECD Sovereign Borrowing Outlook provides regular updates on trends and developments associated with sovereign borrowing requirements, funding strategies, market infrastructure and debt levels from the perspective of public debt managers. The Outlook makes a policy distinction between funding strategy and borrowing requirements.

This report reviews policies and regulations in the telecommunication service sector in Colombia. It puts forward recommendations aimed at furthering regulatory reform and stimulating market competition and investment in the sector.

To make the journey into the Now we will need to leave our analytical mind and its false created self, the ego, behind. From the very first page of Eckhart Tolle's extraordinary book, we move rapidly into a significantly higher altitude where we breathe a lighter air. We become connected to the indestructible essence of our Being, "The eternal, ever present One Life beyond the myriad forms of life that are subject to birth and death." Although the journey is challenging, Eckhart Tolle uses simple language and an easy question and answer format to guide us. A word of mouth phenomenon since its first publication, The Power of Now is one of those rare books with the power to create an experience in readers, one that can radically change their lives for the better.
