*The Barber of Seville * The Marriage of Figaro * The Guilty Mother Eighteenth-century France produced only one truly international theatre star, Beaumarchais, and only one name, Figaro, to put with Don Quixote or D'Artagnan in the ranks of popular myth. But who was Figaro? Not the impertinent valet of the operas of Mozart or Rossini, but both the spirit of resistance to oppression and a bourgeois individualist like his creator. The three plays in which he plots and schemes chronicle*

the slide of the ancien régime into revolution but also chart the growth of Beaumarchais' humanitarianism. They are also exuberant theatrical entertainments, masterpieces of skill, invention, and social satire which helped shape the direction of French theatre for a hundred years. This lively new translation catches all the zest and energy of the most famous valet in French literature.

Displaying a wide range of knowledge and interpretive skill, Darwin and Faulkner's Novels reexamines the fiction of the great twentieth century American author from the interdisciplinary perspective of sociobiology. Challenging the assumption that Faulkner's South was nothing other than a reactionary wilderness and charting the manner in which Faulkner learned and applied his evolutionary concepts, this book unsettles staid interpretations of the Falknerian canon and overturns habitual judgments as to the value of his later novels.
