Once your child has completed his or her primary education, you'll have to seek curriculum for homeschool that covers History in greater detail. Your child is ready to face a bigger challenge when learning, and myWorld History is there to provide it. This middle school curriculum bundle breaks the barrier between History as a living thing and the subject as it's presented on paper. Not only will your child learn relevant dates over the course of the program, he or she will also experience the stories that make up the entirety of History. myWorld History provides you and your child with project-based activities and interesting tales that take you on a journey through time. Your child will get to read about other people who lived all over the world and in different time periods, helping the lesson resonate. With all the engaging content provided by myWorld History, your child will develop a strong knowledge of History and the cultures of which it is comprised. Ideally, such exposure to different cultures will help your child become more empathetic and a better critical thinker. Furthermore, each chapter of myWorld History kicks off with an Essential Question. This question guides your child through the material, causing him or her to analyze the lesson's content as he or she progress through the chapter. Your child will have to ask questions and search for answers while addressing the Essential Question. Stories, activities, games, the student journal and projects relate back to the Essential Question, the main idea of the chapter. The myWorld History curriculum for homeschooling is the next step after the myWorld Social Studies series and can be used before or after myWorld Geography. The Bundle includes the Student Edition, Student Journal, Student Journal Answer Key and Parent Guide materials. The content in each lifts History off the page to keep your child engaged in the learning process. myWorld History proves that homeschool is full of exciting experiences and invaluable lessons. For more information about the specific materials included in myWorld History, visit the Features and Benefits page. Take your child on a journey through time without leaving home. With innovative resources, project-based activities, and unprecedented support for all learners, myWorld History takes students beyond the printed page to actively experience the history of the world in which they live. In this classic of children's literature, beloved by generations of readers and listeners, the quiet poetry of the words and the gentle, lulling illustrations combine to make a perfect book for the end of the day. In a great green room, tucked away in bed, is a little bunny. "Goodnight room, goodnight moon." And to all the familiar things in the softly lit room--to the picture of the three little bears sitting on chairs, to the clocks and his socks, to the mittens and the kittens, to everything one by one--the little bunny says goodnight. One of the most beloved books of all time, Goodnight Moon is a must for every bookshelf and a time-honored gift for baby showers and other special events.

The Story of the World

Frameworks for the Classical Child

Frameworks of World History is a groundbreaking text that uses a clear and consistent analytical approach to studying world history. Author Stephen Morillo - an award-winning teacher with more than twenty-five years of experience teaching World History - frames the study of this vast subjectaround a model that shows students how to do world history and not just learn about it. While this globally organized text contains all of the essential information, it is the only book that does not just tell what happened, but also shows how and why it happened. Using a framework that examines networks, hierarchies, and culture in world history, Morillo presents a thesis and an argument that students - and instructors - can respond to.

Judea has always been the crossroads and battlefield of contending nations. It is no less so in this biblical time of the Judges. Uriah Tarhuni's Hittite home is destroyed by invading Greeks. His dying father tells him to go south to seek a Canaanite named Sisera. "He will help you. For my sake. . . ." Uriah is plunged into the tumult of an uneasy Judea. When he saves a young boy from being sacrificed to Moloch, he is given succor for a time by the Hebrews. Later, he finds Sisera and joins him in war against these same people. When the Canaanites are defeated, the young Hittite has the opportunity to come to peace with himself, the Hebrew people and their God.

Discovering Our Past

Fresh, exciting and vividly readable, this is popular history at its very best. Our understanding of world history is changing, as new discoveries are made on all the continents and old prejudices are being challenged. In this truly global journey Andrew Marr revisits some of the traditional epic stories, from classical Greece and Rome to the rise of Napoleon, but surrounds them with less familiar material, from Peru to the Ukraine, China to the Caribbean. He looks at cultures that have failed and vanished, as well as the origins of today's superpowers, and finds surprising echoes and parallels across vast distances and epochs. A History of the World is a book about the great change-makers of history and their times, people such as Cleopatra, Genghis Khan, Galileo and Mao, but it is also a book about us. For 'the better we understand how rulers lose touch with reality, or why revolutions produce dictators more often than they produce happiness, or why some parts of the world are richer than others, the easier it is to understand our own times.'

This document is a response to teachers' requests for practical assistance in implementing California's history-social science framework. The document offers stimulating ideas to enrich the teaching of history and social science, enliven instruction for every student, focus on essential topics, and help make learning more memorable. Experiences and contributions of ethnic groups and women in history are integrated in this course model. The framework is divided into 11 units: (1) Connecting with Past Learnings: Uncovering the Remote Past; (2) Connecting with Past Learnings: the Fall of Rome; (3) Growth of Islam; (4) African States in the Middle Ages and Early Modern Times; (5) Civilizations of the Americas; (6) China; (7) Japan; (8) Medieval Societies: Europe and Japan; (9) Europe During the Renaissance, the Reformation, and the Scientific Revolution; (10) Early Modern Europe: The Age of Exploration to the Enlightenment; and (11) Linking Past to Present. Six of the 11 units delineated in the framework's 7th grade course description are developed in these course models. All units follow the same format. Each begins with a rationale and overview. Ways are suggested for teachers to coordinate the model with the state-adopted textbook for 7th grade. A presentation of activities to introduce and continue the sample topic are suggested to encourage students to apply what they have studied through projects. Each unit ends with an extensive annotated list of sample resources. (DK)

"A perfect pick for kids who love Rick Riordan." —Booklist (starred review) "A winner for all kids, but it will be especially loved by Latinx and Hispanic families." —Kirkus Reviews (starred review) The Lightning Thief meets the Story Thieves series in this middle grade fantasy inspired by Hispanic folklore, legends, and myths from the Iberian Peninsula and Central and South America. Charlie Hernández has always been proud of his Latin American heritage. He loves the culture, the art, and especially the myths. Thanks to his abuela's stories, Charlie possesses an almost encyclopedic knowledge of the monsters and ghouls who have spent the last five hundred years haunting the imaginations of children all across the Iberian Peninsula, as well as Central and South America. And even though his grandmother sometimes hinted that the tales might be more than mere myth, Charlie's always been a pragmatist. Even barely out of diapers, he knew the stories were just make-believe—nothing more than intricately woven fables meant to keep little kids from misbehaving. But when Charlie begi

experience freaky bodily manifestations—ones all too similar to those described by his grandma in his favorite legend—he is suddenly swept up in a world where the mythical beings he's spent his entire life hearing about seem to be walking straight out of the pages of Hispanic folklore and into his life. And even stranger, they seem to know more about him than he knows about himself. Soon, Charlie finds himself in the middle of an ancient battle between La Liga, a secret society of legendary mythological beings sworn to protect the Land of the Living, and La Mano Peluda (a.k.a. the Hairy Hand), a cabal of evil spirits determined to rule mankind. With only the help of his lifelong crush, Violet Rey, and his grandmother's stories guide him, Charlie must navigate a world where monsters and brujas rule and things he couldn't possibly imagine go bump in the night. That is, if he has any hope of discovering what's happening to him and saving his missing parents (oh, and maybe even the world). No pressure, muchacho.
