Balls and Bulldust explores life and work among the cattlemen of the Northern Territory in Australia. This is not another cowboy story, but rather one about men and women working intensely hard while seeking some kind of solitude and sense of space in the midst of harsh conditions. For some, life in Australia's outback is a life-long routine. The young are attracted by its romanticism, but are often shattered by its hardships: days are blistering hot, nights are cold; people sleep on swags on the ground for weeks; the food is drab; red dust is ever-present; and the men are bound to saddles twelve hours a day, mustering herds of cattle, branding and castrating young bulls. Ludwigson spent three months with these fearless cattlemen early in his career, and returned to his

native Sweden with a comprehensive body of work that in time became Balls and Bulldust.

For the purposes of this volume, originally published in 1954, two southern zones of Bantu have been included - south of the Zambesi and east of the Kalahari. The book discusses the phonetic and morphological characteristics of these 2 zones and a classification of the groups, clusters and dialects is provided. For comparative purposes detailed information on some striking dialectical forms is given in the appendices.

These three stories are set in the slums of Angola's capital, Luanda, during the 1940s and 1950s. Originally published in Portuguese, this book won the Writers' Society's Grand Prize for Fiction in 1965.

The area covered by this book, originally published in 1953, is one that has long been recognized as presenting many problems from the point of view of Bantu linguistic studies. Almost all the material set out in this present work is based on notes taken in the field, and in many cases presented completely new facts. The sources of the information used are listed at the end of the linguistic description of each of the groups of languages dealt with. Since there are so many languages to be covered it would be impracticable to give even an outline of the main features of each of them, so an outline is given of the main characteristics of each separate group. One language is used as the type for each group, for the purpose of listing examples of the nominal prefixes, verbal conjugation, and personal prefixes. Other features are illustrated from whichever language is the most suitable.

This inventory of more than 1000 mines and mineral occurrences in Afghanistan was compiled from published literature and the files of project members of the National Industrial Minerals project of the U.S. Geological Survey. The compiled data have been edited for consistency and most duplicates have been deleted. The data cover metals, industrial minerals, coal, and peat. Listings in the table represent several levels of information, including mines, mineral showings, deposits, and pegmatite fields.

The Powers of Shaka Zulu and the Limits of Historical Invention

Since his assassination in 1828, King Shaka Zulu--founder of the powerful Zulu kingdom and leader of the army that nearly toppled British colonial rule in South Africa--has made his empire in popular imaginations throughout Africa and the West. Shaka is today the hero of Zulu nationalism, the centerpiece of Inkatha ideology, a demon of apartheid, the namesake of a South African theme park, even the subject of a major TV film. Terrific Majesty explores the reasons for the potency of Shaka's image, examining the ways it has changed over time--from colonial legend, through Africanist

idealization, to modern cultural icon. This study suggests that tradition cannot be freely invented, either by European observers who recorded it or by subsequent African ideologues. There are particular historical limits and constraints that operate on the activities of invention and imagination and give the various images of Shaka their power. These insights are illustrated with subtlety and authority in a series of highly original analyses. Terrific Majesty is an exceptional work whose special contribution lies in the methodological lessons it delivers; above all its sophisticated rehabilitation of colonial sources for the precolonial period, through the demonstration that colonial texts were critically shaped by indigenous African discourse. With its sensitivity to recent critical studies, the book will also have a wider resonance in the fields of history, anthropology, cultural studies, and post-colonial literature. In Musho! Zulu Popular Praises Elizabeth Gunner, an authority on Zulu literature at the School of Oriental and African Studies at the University of London, and Mafika Gwala, a South African teacher and poet, have translated, transcribed, and annotated a wide variety of Zulu izibongo poetry. In so doing, they have revealed the incredible breadth of this traditional genre, which is usually equated with nineteenth-century epic traditions that celebrate the deeds of Shaka and the successor kings of his Zulu monarchy. Musho!, with its extensive historical introduction, and literary commentary on Zulu poetry, is a major contribution to the field.

Kikongo (also known as Kongo) is a Bantu language spoken by over 5 million people worldwide, mostly by the Kongo and Ndundu people living in the tropical forests of the Democratic Republic of the Congo, the Republic of the Congo, and Angola. Kikongo was spoken by many from this region who were sold into slavery in the Americas. Thus creolized forms of the language can be found in the ritual speech of Afro-American religions, especially in Brazil, Cuba, Puerto Rico, Dominican Republic and Haiti. It is also one of the sources of the Palenquero creole in Colombia, and the Gullah language spoken in coastal regions of South Carolina and Georgia in the United States.
