

Piano Sheet Music Finger Numbers

Music brings us together. We can better understand the people from all corners of the world, in all their wonderful diversity. We've gathered 37 different national songs adapted especially for kalimba including lyrics, classic sheet music, number-coded notation, and online audio tracks. The songbook is colorfully designed with national patterns. You will enjoy folk music, children's songs, hymns, popular melodies, and dances. This educational book will help you begin to play music simply and easily. If you are a beginner, playing by notes can be difficult. It is easier to play the finger piano by following numbers. Our sheet music is not Tabs (specific sheet music for the kalimba) and it is not for a particular kalimba. Rather, it is universal and suitable for any 8-, 10- or 17-note kalimba or mbira. This kalimba songbook with international songs includes notation, not only in numbers, but also classic sheet music. Some melodies might have been changed and simplified to be played within one octave. If your thumb piano has flat keys, it is recommended that you use classic sheet music for the piano. Also, we have added a QRcode to all songs. You can follow the link and listen to the rhythm before beginning to play. Contents

A Piano Lessons Beginners Guide for Children & Adults. This book is suitable for children and adults who are about to start piano, keyboard or organ lessons. This book is aimed specifically at beginners who want to learn to play a keyboard instrument, this can be piano, electronic keyboard and electric organ. I actually wrote this book for myself to use as a resource when I teach new students how to play the piano. Since every piano keyboard player has had to learn what's in this book, it made sense to create a book that's easy to follow and can easily be shared. This learn to play piano book should be used before you buy a course book, in fact it should be the first book you

go to before you start to play the piano. All keyboard players know this information, all piano teachers will teach you the information in this book before giving you sheet music to play. This is not a learn to play in 24 hours book, its not for advanced players, there's no secrets in this book, the info in this book is freely available if you want to search for it. I like to call the info in this piano book "essential information" for students who know nothing about music theory and playing the piano. Here's what's in this book: 01 Note names on the keyboard In this section you will learn all the white notes on a keyboard 02 The staff Here we show what the staff looks like and what symbols you can expect to see in lesson 1. 03 Notes on the staff Here you will learn what the notes are called on the staff. 04 Middle C Here you will find where middle C is on the staff and the keyboard 05 Note values Discover music notes used in lesson 1 with different beat values 06 Hand position Hand shape and position on the keyboard. 07 5 finger exercise This is your first exercise to get those fingers working. 08 Read the notes you are playing Here you will read the notes in the 5-finger exercise. 09 Finger numbers Learn what each fingers number is. 10 Play your first piece of music Here you will play your first piece of music with your right hand Piano teachers can use this book as a teaching aid for new students. Beginners can use this if they want to have a go themselves. I have used the methods outlined in this book for over thirty years teaching my own new students. My name is Michael Shaw, I hope you find this book useful, Good luck with your music. There's no better way to start learning music than by learning how to play piano. It doesn't matter if you've never had a lesson or need a refresher on piano basics, this book helps you discover the joy of making music on the most versatile instrument of all. Simple step-by-step instruction gets you started, guiding you from basic beginner tunes into more advanced techniques. Get acquainted, or reacquainted, with how to read music, play chords, and build your own playing style. Inside... Play your first notes Find Middle C and beyond Get started with beginner tunes Approach old lessons in a new way Navigate sharps and flats Learn more with online audio and video A slight condensation of Hanon's first exercises. The simplification in layout and range make the exercises appear less difficult to a young student.

Preparation activities for pieces in Piano lessons.

One of the biggest mistakes when someone starts learning to play the piano is playing songs with their index finger instead of using all fingers and both hands. Most piano sheet music for kids has notes for practicing with the right hand only, which encourages the 'plinky-plonk' playing that children should avoid. In this book, however, all songs have treble and bass clef notes for practicing with both hands! So, suppose you are looking for a diverse collection of 55 large print piano songs for children, young learners, or adult students that are simple enough for beginners to play and show letters (note names), numbers (fingerings), and lyrics. In that case, this is the perfect book for you. In this book, you will get: 55 EASY PIANO SONGS FOR KIDS - All songs have been arranged especially for young learners. This means that all complex chords and rhythms have been simplified. Also, all the pieces are kept relatively short, only one or two pages long. This will allow your child to enter the magic world of piano without frustration. FROM EASIEST TO HARDEST - Are you tired of searching for piano pieces with the appropriate difficulty? At the beginning of this book, you will find very simple songs, and then they gradually get more challenging as the book progresses. This will keep your child motivated and enable them to progress through the levels. DIFFERENT TYPES OF SONGS - You will get a diverse selection of pieces: well-known children's songs and nursery rhymes and simplified classical pieces, as well as famous English evergreens and international folk songs. This varied selection of easy sheet music will fuel your kid's enjoyment when practicing the piano. WITH LETTERS AND NUMBERS - The most straightforward songs in this book are presented with letters above the music notes to help you know what keys to press. However, as the pieces get more complex, the note names have been deliberately left out to encourage note recognition. All songs include finger placements (numbers) in problem areas. LARGE PRINT - Most music notes for beginners are pretty small, so learners struggle to read them

without squinting. To avoid this, all songs in this book have a clear layout and large print for students to follow the pieces easily. NOTES FOR BOTH HANDS - Most easy piano pieces for children have notes for practicing one hand only, encouraging them to play songs with only their index finger. The proper technique, however, is playing with all fingers and both hands. That's why all pieces in this book are in both treble and bass clef (i.e., both right and left hand). BONUS: FREE AUDIO FILES TO DOWNLOAD - Do you want to get an idea of what a piece should sound like? If you are unsure how to play a piece, our audio files will help you get a feel for the melody. Buy this book NOW and enter the splendid world of piano and music! Ideal also as a wonderful birthday present or Christmas gift.

This book is suitable for children and adults who want to learn to play the piano, electronic keyboard or electric organ. In this book you will learn to play these Sheet Music Pieces: When The Saint Go Marching In - Traditional The Blue Danube 1867 - J Strauss Can Can 1858 - Offenbach Bill Bailey Won't You Please Come Home - Traditional Camptown Races 1850 - Stephen Collins Foster All pieces are made up of single line treble clef sheet music with chord symbols. Finger numbers are available for ease of playing. Chords are also available in picture format with finger numbers. You will learn fifteen chords in this book, C, G, G7, Gm7, F, F7, Bb, A, A7, Am, D, D7, Dm, E and C7. Keyboard teachers can use this book as a teaching aid for new students. Beginners can use this if they want to have a go themselves. I have used the methods outlined in this book for over thirty years teaching my own new students. In this remarkable memoir, Anna Goldsworthy recalls her first steps towards a life in music, from childhood piano lessons with a local jazz muso to international success as a concert pianist. As she discovers passion and ambition, and confronts doubt and disappointment, she learns about much more than tone and technique. This is a story of the getting of wisdom, tender and bittersweet. With wit and affection, Goldsworthy captures the hopes and uncertainties of youth, the fear and exhilaration of performing, and the complex bonds between teacher and student. An unforgettable cast of characters joins her: her family; her friends and rivals; and her teacher, Mrs Sivan, who inspires and challenges her in equal measure, and who transforms what seems an impossible dream into something real and sustaining.

This text covers topics from MIDI and electronic keyboards to the Internet and the copyright law to most recent developments in hardware, software, and pedagogy. The accompanying CD-ROM provides end-of-chapter questions, activities and projects, lesson plans, web activities, demo programs and much more.
