

Pimsleur Haitian Creole Basic Course Level 1 Lesso

An insightful and uplifting memoir about a young Haitian girl in post-earthquake Haiti, and the profound, life-changing effect she had on one journalist's life. In January 2010, a devastating earthquake struck Haiti, killing hundreds of thousands of people and paralyzing the country. Catherine Porter, a newly minted international reporter, was on the ground in the immediate aftermath. Moments after she arrived in Haiti, Catherine found her first story. A ragtag group of volunteers told her about a “miracle child”—a two-year-old girl who had survived six days under the rubble and emerged virtually unscathed. Catherine found the girl the next day. Her family was a mystery; her future uncertain. Her name was Lovely. She seemed a symbol of Haiti—both hopeful and despairing. When Catherine learned that Lovely had been reunited with her family, she did what any journalist would do and followed the story. The cardinal rule of journalism is to remain objective and not become personally involved in the stories you report. But Catherine broke that rule on the last day of her second trip to Haiti. That day, Catherine made the simple decision to enroll Lovely in school, and to pay for it with money she and her readers donated. Over the next five years, Catherine would visit Lovely and her family seventeen times, while also reporting on the country’s struggles to harness the international rush of aid. Each trip, Catherine’s relationship with Lovely and her family became more involved and more complicated. Trying to balance her instincts as a mother and a journalist, and increasingly conscious of the costs involved, Catherine found herself struggling to align her worldview with the realities of Haiti after the earthquake. Although her dual roles as donor and journalist were constantly at odds, as one piled up expectations and the other documented failures, a third role had emerged and quietly become the most important: that of a friend. A Girl Named Lovely is about the reverberations of a single decision—in Lovely’s life and in Catherine’s. It recounts a journalist’s voyage into the poorest country in the Western hemisphere, hit by the greatest natural disaster in modern history, and the fraught, messy realities of international aid. It is about hope, kindness, heartbreak, and the modest but meaningful difference one person can make.

Transform Aspirational Thoughts into Life-Changing Results What’s the biggest challenge you face if you want to accomplish great things? It’s getting and keeping the right mindset, according to the hundreds of high achievers Julia Pimsleur has interviewed and worked with as a business coach. In Go Big Now, Pimsleur distills two decades of studying complex mindset practices into eight essential “mindset keys” that can be used by anyone to get the Go Big Mindset and achieve ambitious professional and life goals. Pimsleur shares personal stories of how she used these keys to raise venture capital and build multimillion-dollar companies, and illustrates each key with an example from a leader, CEO, or celebrity whose mindset catapulted them to success. You’ll learn to reframe perceived setbacks, replace unhelpful thoughts and limiting beliefs with empowering ones, and stay motivated to pursue your big goal, even in the face of massive hurdles. With the Go Big Mindset, you’ll boost your mental resilience and discover how to think your way to bigger, better results.

Two hundred years after Parliament passed the Abolition of the Slave Trade Act, over 27 million people worldwide languish in slavery, forced to work, under threat of violence, for no pay. In Africa, hundreds of thousands are considered chattel, while on the Indian subcontinent millions languish in generational debt bondage. Across the globe, women and children, sold for sex and labour, are already the second most lucrative commodity for organised crime. Through eviscerating narrative, A Crime So Monstrous paints a stark picture of modern slavery. Skinner infiltrates trafficking networks and slave sales on four continents, exposing a flesh trade never before portrayed with such vivid detail.

From mega-harems in Khartoum to illicit brothels in Bucharest, from slave quarries in India to urban child markets in Haiti, he lays bare a parallel universe where lives are bought, sold, used and discarded. The personal stories related here are heartbreaking but in the midst of tragedy Skinner also discovered a quiet dignity that leads some to resist and aspire to freedom. He bears witness for them and for the millions that are held in the shadows - all victims of what is the greatest human-rights challenge facing our generation.

Some walked across deserts and mountains to get here. Others flew in on planes. One arrived after escaping in a suitcase. And some won't say how they got here. These are “the new kids”: *new to America and all the routines and rituals of an American high school, from lonely first days to prom. They attend the International High School at Prospect Heights in Brooklyn, which is like most high schools in some ways—its halls are filled with students gossiping, joking, flirting, and pushing the limits of the school's dress code—but all of the students are recent immigrants learning English. Together, they come from more than forty-five countries and speak more than twenty-eight languages. A singular work of narrative journalism, The New Kids chronicles a year in the life of a remarkable group of these teenage newcomers—a multicultural mosaic that embodies what is truly amazing about America. Hauser's unforgettable portraits include Jessica, kicked out of her father's home just days after arriving from China; Ngawang, who spent twenty-four hours folded up in a small suitcase to escape from Tibet; Mohamed, a diamond miner's son from Sierra Leone whose arrival in New York City is shrouded in mystery; Yasmeen, a recently orphaned Yemeni girl who is torn between pursuing college and marrying so that she can take care of her younger siblings; and Chit Su, a Burmese refugee who is the only person to speak her language in the entire school. The students in this modern-day Babel deal with enormous obstacles: traumas and wars in their countries of origin that haunt them, and pressures from their cultures to marry or to drop out and go to work. They aren't just jostling for their places in the high school pecking order—they are carving out new lives for themselves in America. The New Kids is immersion reporting at its most compelling as Brooke Hauser takes us deep inside the dramas of five International High School students who are at once ordinary and extraordinaryin their separate paths to the American Dream. Readers will be rooting for these kids long after reading the stories of where they came from, how they got here, and where they are going next.*

Rules for developing talent with disciplined, deliberate, intelligent practice We live in a competition loving culture. We love the performance, the big win, the ticking seconds of the clock as the game comes down to the wire. We watch games and cheer, sometimes to the point of obsession, but if we really wanted to see greatness—wanted to cheer for it, see it happen, understand what made it happen—we'd spend our time watching, obsessing on, and maybe even cheering the practices instead. This book puts practice on the front burner of all who seek to instill talent and achievement in others as well as in themselves. This is a journey to understand that practice, not games, makes champions. In this book, the authors engage the dream of better, both in fields and endeavors where participants know they should practice and also in those where many do not yet recognize the transformative power of practice. Meet Your Goals With Creole Meets English This is the true story of two decorated combat veterans linked by tragedy, who come home from the Middle East and find a new way to save their comrades and heal their country. In Charlie Mike, Joe Klein tells the dramatic story of Eric Greitens and Jake Wood, larger-than-life war heroes who come home and use their military discipline and values to help others. This is a story that hasn't been told before, one of the most hopeful to emerge from Iraq and Afghanistan—a saga of lives saved, not wasted. Greitens, a Navy SEAL and Rhodes Scholar, spends years working in refugee camps before he joins the military. He enlists because he believes the innocent of the world need heavily armed, moral protection. Wounded in Iraq, Greitens returns home and finds that his fellow veterans at Bethesda Naval Hospital all want the same thing: they want to continue to serve their country in some way, no matter the extent of their injuries. He founds The Mission Continues to provide paid public service fellowships for wounded veterans. One of the first Mission Continues fellows is charismatic former Marine sergeant Jake Wood, a natural leader who began Team Rubicon, organizing 9/11 veterans for dangerous disaster relief projects around the world. “We do chaos,” he says. The chaos they face isn't only in the streets of Haiti after the 2011 earthquake or in New York City after Hurricane Sandy—it's also in the lives of their fellow veterans, who've come home from the wars traumatized and looking for a sense of purpose. Greitens and Wood believe that the military virtues of discipline and selflessness, of sacrifice for the greater good, can save lives—and not just the lives of their fellow veterans. They believe that invigorated veterans can lead, by personal example, to stronger communities—and they prove it in Charlie Mike. Their personal saga is compelling and inspirational: Greitens and Wood demonstrate how the skills of war can also provide a path to peace, personal satisfaction, and a more vigorous nation.
