Whereas Volume I of this series investigates the overall structure of children's picture storybooks at the macro level, this volume, Volume II, investigates the very building blocks of picture storybooks at the micro level: the word, the sentence, the scene and the story. We look at the importance of word choice for giving the story meaning and cohesion. We look at ways to change sentence structure to emphasize the information that is important, and to ensure that sentences flow easily from one to another. We look at the scene: how

## Read Online Pine Richland School District Boarddocs

to begin it, how to end it, and how to create the Beats of action-reaction that make up the scene. And finally we look at the story: what types of problems must a character solve? When does a story introduce a problem? And once a problem is introduced, how do picture storybooks move from problem to solution? What types of solutions do characters find? Is there any part of a story that occurs after the solution is found? To answer these and other questions is to describe storytelling strategies. We look at enduringly popular children's picture storybooks to see what storytelling strategies they employ.

This book deals with the challenges of macro financial linkages in the emerging markets.

Meeting the individual learning needs of every learner, every hour, of every day although espoused by educators, has only been a dream.....an impossible dream for educators facing student-teacher ratios of 25 to 1. But,

## Read Online Pine Richland School District Boarddocs

alas, it is now a reality....a reality that is hiding in plain sight. Inevitable: Mass Customizing Learning (MCL) describes a detailed vision of how schools can change from the present outdated Industrial Age, assembly line structure to a mass customized learning structure with the capacity to meet the individual learning needs of every learner.....that's every learner, not some, not most, but every learner. iTunes, Amazon.com, Verizon, Wikipedia, and Google (to name a few) are doing it right now. They prove to us daily that mass customization is effective and efficient and...well...doable. Let's marry those powerful, customizing technologies with the power mission of educators to personalize learning. Everyone wins. The learner wins. And when the learner wins, so do educators, parents,

## Read Online Pine Richland School District Boarddocs

society, and the economy. Inevitable provides a solid rationale for the structural change, identifies the proven technologies of today that make the vision doable, details the potential MCL has to motivate learners to high achievement, describes teacher roles that are highly professional, and outlines and concretely describes what school systems must do to make MCL a reality. The authors of Inevitable use a "weight bearing wall" metaphor to identify the Industrial Age walls (practices) that prevent us from meeting individual learner needs. Leaders are then shown how new customizing technology walls can replace those Industrial Age walls . . . and the roof will not fall in! Yes, leaders can operate a MCL system and still remain in control! The transformational change of MCL
