Traditional "schools" of crime prevention, like the criminal justice model, social crime prevention or situational crime prevention, have proved to be too narrow and do not combine well with other approaches. However, each of these models provides important insights and contributions for reducing crime. By extracting the main preventive mechanisms of these diverse approaches, this book develops a more holistic, general model that consists of nine preventive mechanisms: building normative barriers to crime, reducing recruitment, deterrence, disruption, incapacitation, protecting vulnerable targets, reducing benefits of crime, reducing harm, and facilitating desistance. The measures to activate the preventive mechanisms may differ according to the type of

crime, as may the actors in charge of implementing the relevant measures. However, Tore Bjørgo demonstrates how his model of crime prevention can be effectively applied to diverse forms of crime, from domestic burglaries to criminal youth gangs and driving under the influence to organized crime and terrorism. In doing so, this important book will be of interest to scholars and students of policing, security studies and criminology, as well as practitioners and policy-makers. This Whitehall Paper explores the ways in which Mogadishu's inhabitants try to stay out of harm's way, from security officials in the presidential compound of Villa Somalia to the city's powerful district commissioners, from patrolling policemen to the women road-sweepers in the rubbish-filled alleyways of the Waberi district. Its central proposition is that

security is best understood as a coherent relationship or activity based on the need for physical safety today, rather than in the future. It uses the neighbourhood-watch schemes developed in certain districts of Mogadishu - most notably Waberi - to understand the ways in which the city's inhabitants respond to the security models promoted by international advisers.

Research on human beings saves countless lives, but has at times harmed the participants. To what degree then should government regulate science, and how? The horrors of Nazi concentration camp experiments and the egregious Tuskegee syphilis study led the US government, in 1974, to establish Research Ethics Committees, known as Institutional Review Boards (IRBs) to oversee research on humans. The US now has over 4,000 IRBs, which examine yearly tens of billions of dollars of research -- all studies on people

involving diseases, from cancer to autism, and behavior. Yet ethical violations persist. At the same time, critics have increasingly attacked these committees for delaying or blocking important studies. Partly, science is changing, and the current system has not kept up. Since the regulations were first conceived 40 years ago, research has burgeoned 30-fold. Studies often now include not a single university, but multiple institutions, and 40 separate IRBs thus need to approve a single project. One committee might approve a study quickly, while others require major changes, altering the scientific design, and making the comparison of data between sites difficult. Crucial dilemmas thus emerge of whether the current system should be changed, and if so, how. Yet we must first understand the status quo to know

how to improve it. Unfortunately, these committees operate behind closed doors, and have received relatively little in-depth investigation. Robert Klitzman thus interviewed 45 IRB leaders and members about how they make decisions. What he heard consistently surprised him. This book reveals what Klitzman learned, providing rare glimpses into the conflicts and complexities these individuals face, defining science, assessing possible future risks and benefits of studies, and deciding how much to trust researchers -- illuminating, more broadly, how we view and interpret ethics in our lives today, and perceive and use power. These committees reflect many of the most vital tensions of our time - concerning science and human values, individual freedom, government control, and industry greed. This book addresses the important question of how the United Nations (UN) should monitor and evaluate

the impact of police in its peace operations. UN peace operations are a vital component of international conflict management. Since the end of the Cold War one of the foremost developments has been the rise of UN policing (UNPOL). Instances of UNPOL action have increased dramatically in number and have evolved from passive observation to participation in frontline law enforcement activities. Attempts to ascertain the impact of UNPOL activities have proven inadequate. This book seeks to redress this lacuna by investigating the ways in which the effects of peace operations – and UNPOL in particular – are monitored and evaluated.

Furthermore, it aims to develop a framework, tested through field research in Liberia, for Monitoring and Evaluation (M&E) that enables more effective impact assessment. By enhancing the relationship between field-level M&E and organisational learning this research aims to make an important contribution to the pursuit of more professional and effective UN peace operations. This book will be of much interest to students of peace operations, conflict management, policing, security studies and IR in general.

the tensions generated by the pope's attempt to turn the Church away from power and tradition and outwards to engage humanity with God's mercy. Through battles with corrupt bankers and worldly cardinals, in turbulent meetings and on global trips, history's first Latin-American pope has attempted to reshape the Church to evangelize the contemporary age. At the same time, he has stirred other leaders' deep-seated fear that the Church is capitulating to modernity—leaders who have challenged his bid to create a more welcoming, attentive institution. Facing rebellions over his allowing sacraments for the divorced and his attempt to create a more "ecological" Catholicism, as well as a firestorm of criticism for the Church's record on sexual abuse, Francis emerges as a leader of remarkable vision and skill with a relentless spiritual focus—a leader who is at peace in the turmoil
