You may be fluent in many languages but sometimes you could find yourself off the beaten track where you can't communicate. Point it, with 1300 items to point at, is the answer. Everyone in the world will understand you. This passport-sized assistant is the result of the author's extensive travels in the five continents.

The essays in section 1 consider ethnography's influence on how Europeans represent colonized peoples. Section 2 essays analyze curatorial practices, emphasizing how exhibitions must serve diverse masters rather than solely the curator's own creativity and judgment, a dramatic departure from past museum culture and practice. Section 3 essays consider tribal museums that focus on contesting and critiquing colonial views of American and Canadian history while serving the varied needs of the indigenous communities.

Trotz anderem Cover: Identisch in Themen, Illustrationen und Vokabeln ist das Buch schon mehrfach aufgelegt worden: Zunächst als "Ur-Version "Ich lerne Englisch" (BA 10/97). Dann, 2001 im Gondrom Verlag, als "Mein erstes großes Englisch Bildwörterbuch", ISBN 3811218697, (nicht besprochen, inzwischen nicht mehr erhältlich). Der Gondrom Verlag baute den Titel auch als ganze Reihe aus, u.a. "Mein erstes großes Italienisch Bildwörterbuch", "Mein erstes großes Türkisch Bildwörterbuch" (beide BA 9/03). Mit neuem Cover, etwas kleinerformatiger, etwas günstiger, ansonsten unverändert, wird die Reihe nun wieder beim Loewe Verlag herausgegeben. Sprich: Wer bereits eine der beiden oben genannten Englisch Bildwörterbücher besitzt, braucht diesen Titel außer als Austausch oder Staffelexemplar demnach nicht zu kaufen. Für alle anderen gilt die sehr positive Bewertung der "Ur-Version" immer noch trotz der inzwischen größeren Anzahl von Konkurrenzprodukten. So kann vorliegender Titel jetzt neben dem etwas umfangreicheren "Bildwörterbuch Englisch" von Langenscheidt (BA 7/03) vorbehaltlos empfohlen werden. . In Themen wie

Familie, Alltag, Freizeit etc. wird ein Wortschatz von rund 800 Wörtern vermittelt. Ab 6.

An international bestseller chronicles the adventures of twelve-year-old Annetta, desperate to get away from her stifling Sicilian village, who is sent away to live with grim relatives, where a shocking truth about her childhood is revealed.

A bookstore can be a wonderful, welcoming place of both commerce and curiosity. That's the goal for Woody, an American recently transferred to England to run a branch of Texts. He wants a clean, orderly store and lots of sales to show his bosses when they arrive from the States for a pre-Christmas inspection. Not easy given the shop's location in a foggy strip mall. And things keep going wrong. No matter how often the shelves are put in order before the doors are locked at night, when the staff returns in the morning, books are lying all over the floor, many damp and damaged beyond repair. The store's computers keep acting up-errors appear in brochures and ads and orders disappear completely. And even when the machines are turned off, they seem to glow with a spectral gray light. The hit-and-run death of an employee in the store's parking lot marks a turning point. One employee accuses another of making sexual advances and they come to blows. Between one sentence and the next, one loses his ability to read. The security monitors display half-seen things crawling between the stacks that vanish before anyone can find them. Desperate, Woody musters his staff for an overnight inventory. When the last customers reluctantly depart, leaving almost-visible trails of slime shining behind them, the doors are locked, sealing Woody and the others inside for a final orgy of shelving. The damp, grey, silent things that have been lurking in the basement and hiding in the fog may move slowly, but they are inexorable. This bookstore is no haven. It is the doorway to a hell unlike any other. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Until now, there has been very little research into the use of online dictionaries. In contrast, the market for online dictionaries is increasing both for academic lexicography and for commercial lexicography, with sales figures for printed reference works in

continual decline. This has led to a demand for reliable empirical information on how online dictionaries are actually being used and how they could be made more user-friendly. The volume *Using Online Dictionaries* makes a substantial contribution to closing this research gap. It is divided into four parts: The first part contains articles on fundamental issues: a research review of the empirical studies on digital dictionaries which have already been carried out, and a brief methodological guideline for lexicographical researchers who are interested in conducting their own empirical research. The second part contains the results of two studies that focus on general questions about the use of online dictionaries. It presents empirical data on contexts of dictionary use, on expectations and demands regarding online dictionaries. Furthermore, innovative features, such as the use of multimedia elements or the option of a user-adaptive interface and questions of design were assessed empirically. The third part of this volume comprises more specific studies of online dictionaries: an eye-tracking study evaluating the new web design of the dictionary portal OWID and a log file study which tries to get to the bottom of the following question: Do dictionary users look up frequent words, or put differently, is there a connection between how often a word is looked up and how often it appears in a corpus? In the last chapter of this thematic section, the question of how users judge the combination of a written paraphrase and an additional illustration in illustrated online dictionaries is addressed. The last part focuses on the use of monolingual dictionaries, in particular the German online dictionary *lexiko*. In this context, two online questionnaire-based studies were carried out. The empirical studies were conducted in the form of online surveys combining questionnaires and experimental elements and in the form of laboratory studies using eye-tracking technology as well as using observational methods such as log file analyses. Regarding the comprehensive research framework, this volume can be relevant to lexicographers, metalexicographers and linguists who are interested in the use of (online) dictionaries and in the development and exploration of lexicographical data for the internet, as well as linguists interested in empirical methods. It addresses a broad expert audience by presenting an academic subject which is currently the focus of much discussion.
