Although quail farming is known for its relative simplicity, low space requirements and financial resources as well as being subject to ever growing demand, it remains a marginal activity by comparison with the potential it offers. As an excellent way to increase income, it can be practised on a small or large scale. This guide is an outreach tool to encourage small-scale farmers to get involved in rearing quail and to give pertinent advice to farmers already active in the business.

At Warburg, Germany, in 1941, four British PoWs find an unexpected means of escape from the horrors of internment when they form a birdwatching society, and embark on an obsessive quest behind barbed wire. Through their shared love of birds, they overcome hunger, hardship, fear and stultifying boredom. Their quest draws in not only their fellow prisoners, but also some of the German guards, at great risk to them all... Derek Niemann draws on original diaries, letters and drawings, to tell of how Conder, Barrett, Waterston and Buxton were forged by their experiences as POWs into the giants of post war wildlife conservation. Their legacy lives on, in institutions such as the RSPB and the British Wildlife Trust.

Regional specificity always exists but this type of production also shows the many similarities in other parts of the world with regard to potential and constraints.

Two young women, sisters separated at an early age, raised within the wild as a part of nature herself, find themselves caught in extraordinary circumstances, and drawn ever closer within the web of fate. Together they shall give back to the land its freedom, and its soul.

Five of a Kind recounts the Plummer family's adventures as they met a challenge unique even in their long experience of animal adoption: the rearing of five young desert quail, from hatching to maturity. The odds were long against the birds' survival, and the Plummers had unexpected difficulties to face, among them an aggressive carnivorous cat. But all five of the birds survived. This is the story of those five—of Red-Leg, Brownie, Rose, Carrie, and Pearl—and of how they managed, with flair and character and to the delight and amusement of the author, to live through those first fifteen weeks, to be released eventually as adult birds to the wild—all except one, who refused to*
