AN UNFORGETTABLE HEROINE, A KING MISUNDERSTOOD BY HISTORY, A LOVE STORY THAT HAS NEVER BEEN TOLD In *A Rose for the Crown*, we meet one of history's alleged villains through the eyes of a captivating new heroine -- the woman who was the mother of his illegitimate children, a woman who loved him for who he really was, no matter what the cost to herself. As Kate Haute moves from her peasant roots to the luxurious palaces of England, her path is inextricably intertwined with that of Richard, Duke of Gloucester, later King Richard III. Although they could never marry, their young passion grows into a love that sustains them through war, personal tragedy, and the dangerous heights of political triumph. Anne Easter Smith's impeccable research provides the backbone of an engrossing and vibrant debut from a major new historical novelist. With special references to Karnataka and Kerala, two states of India.

This book serves as a comprehensive treatment of the main financial and public malfeasance crimes associated with the subject of white-collar crime. In student-friendly form, it teaches the operations of the major federal statutes in this area while unifying them according to the dominant cross-cutting themes of the nature of corruption and the types of harms to society, government, the legal system, and the market that justify the severity of these laws. It draws on case material not just from the Supreme Court but also from the lower federal courts where the hard work of implementing confessional mandates occurs. In such areas as Securities Fraud, it also covers the agency regulations that play an implementing role. Thus, it offers students rich exercises in statutory interpretation as well as case analysis. Highlights of the First Edition: Materials on perjury, false statements and obstruction of justice that are extremely timely in light of political controversies that reach back to the Nixon and Clinton administrations and are still relevant today Careful elaboration of the different crimes of bribery, including bribery of federal officials under 18 U.S.C. section 201, bribery of state and local officials under the Mail and Wire Fraud laws and federal program bribery law, and the Foreign Corrupt Practices

Act Concise treatment of criminal Securities Fraud and Insider trading for students who have not otherwise studied Securities Regulation Extended treatment of the major mens rea issues in white-collar crime, as an advanced version of the subject of mens rea in the standard first-year Criminal Law course, with emphasis on such important doctrines as "deliberate ignorance" and the mental state of "corruptly." Professors and students will benefit from: Concisely edited case excerpts in very readable form. Handy Appendix with texts of all major statutes covered in the book. Short provocative notes raising questions of jurisprudence and social philosophy around problems of overcriminalization and the meaning of the concept of "corruption." Concise non-technical material on cybercrime to show how modern technology raises themes of corruption similar to those of more conditional crimes.

*Greg Rutherford is one of the most successful British athletes of all time, winning gold at European, Commonwealth, World and Olympic levels, an achievement matched by only four others: Linford Christie, Jonathan Edwards, Sally Gunnell and Daley Thompson. Yet his route to the very top was never smooth. He always believed in himself as an athlete and sportsman, but for many years could not find an outlet that allowed him to truly excel. During his reckless teenage years, he would sometimes sleep rough and he dropped out of school, before he found the focus that would help him to get to the very top. But even then, there were still setbacks, as when he fell short in the Beijing*

Condemned by some as a 'lucky' winner, he went on to complete his clean sweep of major titles through sheer determination to succeed. In this long-awaited memoir, he not only reveals the secrets of his remarkable success, but also has plenty to say on the issues that are dominating athletics, such as doping, and much else besides. It is a raw, passionate, entertaining and fascinating read.*

***In this book, experts from the fields of law and philosophy explore the works of Aristotle to illuminate the much-debated and fascinating relationship between emotions***

*and justice. Emotions matter in connection with democracy and equity – they are relevant to the judicial enforcement of rights, legal argumentation, and decision-making processes in legislative bodies and courts. The decisive role that emotions, feelings and passions play in these processes cannot be ignored – not even by those who believe that emotions have no legitimate place in the public sphere. A growing body of literature on these topics recognizes the seminal insights contributed by Aristotle. This book offers a comprehensive analysis of his thinking in this context, as well as proposals for inspiring dialogues between his works and those written by a selection of modern and contemporary thinkers. As such, the book offers a valuable resource for students of law, philosophy, rhetoric, politics, ethics and history, but also for readers interested in the ongoing debate about legal positivism and the relevance of emotions for legal and political life in today's world.*

*equally exciting and original, but has waited decades for capable translators. Hesitant Fire makes available for the first time in English some of his best prose. The translators, Moïse Black and Maria Green, have succeeded in catching his gift for linguistic innovation, for mimicry and buffoonery often a millimeter away from melancholy. This anthology displays Jacob's versatility, for he wrote in a dozen styles. The Story of King Kabul the First and Gawain the Kitchen-Boy is a fable populated by Balibridgians and Bouloulabassians. Excerpts from In Defense of Tartufe reveal the poet's mysticism and aestheticism. Those from The Flowering Plant offer brilliant social analysis behind a mask of the Absurd. Flim-Flam studies such characters as 'The Lawyer Who Meant to Have Two Wives Instead of One' and 'The Unmarried Teacher at the High School in Cherbourg.' The Dullard Prince blends autobiography and fiction. Letters to Mrs. Goldencalf and other imaginary members of the bourgeoisie are taken from The Dark Room. Never before published, 'The Maid' was inspired by a contemporary murder case. Also included here are portions of The Bouchaballe Property, Jacob's favorite of his own novels; entries from A Traveler's*

All over Europe, newspaper articles and TV programmes increasingly report on sometimes dramatic cases of workplace bullying. Unlike everyday conflicts at work, bullying is a long-lasting conflict where one person is systematically harassed by one or more colleagues or supervisors, resulting in severe damage to the victim's psychological and physical health. Research on workplace bullying started more than a decade ago but has increased during the last few years. This special issue on workplace bullying documents the most recent

developments in research and practice in various European countries, and includes topics such as the role of personality in becoming a victim, bullying and the development of post-traumatic stress disorder (PTSD), conflict escalation and coping with bullying and the impact of organizational status on bullying behaviour.
