Get the most comprehensive, in-depth coverage on health unit coordinating from the industry's most popular text! Expert authors Elaine Gillingham and Monica Wadsworth Seibel offer in-depth discussion of key theories and concepts surrounding the profession and guide you through the common responsibilities of a health unit coordinator in both traditional and electronic medical record environments. From greeting new patients and dealing with visitors to transcribing physicians' orders, maintaining statistical reports, and preparing patient charts, this text will prepare you for success across all areas of health unit coordination. Certification Review Guide with mock certification exam is included on the Evolve site with every purchase of the book. Step-by-step instructions on how to perform important procedures include in-depth explanations of key tasks and possible modifications that would meet special requirements. High Priority boxes throughout the text offer useful information such as lists of addresses, organizations, laboratory studies, hospital specialties, health unit coordinator career ladders, helpful hints, and more, related to chapter discussions. Example boxes in the Communication chapters present real-life scenarios that outline the responsibilities of the health unit coordinator in each situation and offer tips on how you can conduct yourself in a professional and helpful manner. Bad handwriting examples give you experience deciphering hard-to-read handwriting that you will encounter in practice.Student-friendly features such as outlines, chapter objectives, vocabulary, and abbreviations are included at the beginning of each chapter to set the stage for the important information to be covered later in the chapter. References within the text to the companion skills practice manual and online tools direct you to hands-on exercises that stress the practical applications of skills and procedures in a simulated health care environment. NEW! Expanded coverage of the EMR/CPOE explains how the implementation of the electronic medical record/CPOE is changing the role of the Health Unit Coordinator. UPDATED! Coverage of medications, diagnostic procedures, therapies, surgical procedures, and new health care trends keep you up to date on how to perform your role effectively in today's medical environment. NEW! Hot topics in health unit coordinating keep you abreast of issues currently affecting the health unit coordinator such as, the electronic health record/CPOE, physician order entries, preceptorships, and interviewing/background checks, are addressed. NEW! Additional student activities are included in each chapter to help reinforce material, expand your critical thinking and application skills, and prepare you for exams. NEW! Flashcards on Evolve help you review important terminology and abbreviations that you will use on the job.

Become an expert of 2- and 3-dimensional shapes with area, volume and surface area. Our resource provides task and word problems surrounding real-life scenarios. Measure angles with a protractor to determine whether they are acute, right or obtuse. Find the missing angle on a quadrilateral. Learn the different parts of a circle and how to calculate the radius, diameter and circumference. Find the pair of lines that are parallel, perpendicular, intersecting, and skew. Calculate the area of squares, rectangles, parallelograms, triangles, circles, and trapezoids. Then, find the volume of cubes and rectangular prisms. Finally, measure the surface area of spheres, cylinders, cubes, and rectangular prisms. The task sheets provide a leveled approach to learning, starting with grade 6 and increasing in difficulty to grade 8. Aligned to your State Standards and meeting the concepts addressed by the NCTM standards, reproducible task sheets, drill sheets, review and answer key are included.

The Teacher's Handbook serves as an aid in curriculum development and daily lesson planning. Suggested daily lesson plans, suggested assignments following each lesson plan, teaching tips for each unit, suggested examinations for the semester and answer keys for the written exercises and unit review worksheets. It also suggests ways to successfully integrate keyboard and computer technology into the curriculum.
