The result was a western cultural colonization and the introduction of art-nouveau style, followed by a backlash of nationalism and the development of the "first Turkish national style" of architecture.

WARNING: “Not recommended for readers under the age of 18 due to graphic violence, sex and strong language. Trigger warning for self harm. The only sure way to destroy a man is to take what he cannot live without. Three years ago, I had everything. A beautiful wife. A son. A reason for living. Until a ruthless task force, assembled under Mayor Michael Culling, with a brutal strategy to make the streets of Detroit ‘safe’, ripped away everything I loved in a deadly hunt called The Culling. They tried to kill me, too. I wish they had. Now I’m cursed by the memories of that night, and the words I whispered to my dying wife. A promise to avenge the wrong and set it right. I’m no longer Nick Ryder. I’m a masked vigilante. Faceless. Loveless. Fearless. A man with nothing left to lose-one who’s seen the dark and violent truth behind the city’s flawless veneer. Michael Culling doesn’t know who I am. Or what I want. All he knows is that I’ve kidnapped his beautiful wife. An eye for an eye-Isn’t that how the saying goes? And Aubree Culling is the perfect pawn to destroy him. If she doesn’t destroy me first. It’s back–now in green and orange metal. Plain, simple–and totally unexpected–this small, plain text NLT Bible is about giving young adults something unique without directly saying it’s for them. With a metallic matte finish on the outside and the complete NLT text on the inside, this Bible will be a favorite among students of all ages. Style-conscious teens will find this lightweight compact edition of the Scriptures irresistible.

First in a trilogy, Merry Hall is the account of the restoration of a house and garden in post-war England. Though Mr. Nichols’s horticultural undertaking is serious, his writing is high-spirited, riotously funny, and, at times, deliciously malicious.

It began with Krontz...continued with Quick...and now it will end with Castle Book Three of the Dreamlight trilogy. For many earthly centuries, a legendary curse has plagued the Winters family, stemming from the tumultuous founding of the Arcane Society. But now, on the futuristic world of Harmony, the curse’s final mystery will be unraveled... Head of the ghost hunters guild Adam Winters and dreamlight reader extraordinaire Marlowe Jones must break the curse, save Harmony’s entire underworld-and fight a passion that could destroy them both. Watch a villainous cannibal play a surprisingly important role in the history of thought--perhaps the ultimate symbol of savagery and degradation--haunting the Western imagination since before the Age of Discovery, when Europeans first encountered genuine cannibals and related horrible stories of shipwrecked travelers eating each other. An Intellectual History of Cannibalism is the first book to systematically examine the role of the cannibal in the arguments of philosophers, from the classical period to modern disputes about such wide-ranging issues as vegetarianism and the right to private property. Catalan Aramescu shows how the cannibal is, before anything else, a theoretical creature, one whose fate sheds light on the decline of theories of natural law, the emergence of modernity, and contemporary notions about good and evil. This provocative history of ideas traces the cannibal’s appearance throughout Western thought, first as a creature springing from the menagerie of natural law, later as a diabolical retort to theological dogmas about the resurrection of the body, and finally to present-day social, ethical, and political theories which the cannibal is viewed through the lens of anthropology or invoked in the service of moral relativism. Ultimately, An Intellectual History of Cannibalism is the story of the birth of modernity and of the philosophies of culture that arose in the wake of the Enlightenment. It is a book that lays bare the darker fears and impulses that course through the Western intellectual tradition.

It’s hard to break out of a rut. For years, Nathan submerged himself into his job at St. Genevieve’s. He enjoys teaching, hates faculty meetings, loves his science and has committed himself to the cycle of college life. Along the way, he’s become resigned to being a gay man in a straight culture, a Jew among Catholics, and single in a world of couples. Then the brilliant Isaac Wolf appears in his classroom. Isaac’s a few years older than his fellow students, gorgeous, self-composed and Jewish. Isaac has his own secrets, and the cannibal has played a surprisingly important role in the history of thought--perhaps the ultimate symbol of savagery and degradation--haunting the Western imagination since before the Age of Discovery, when Europeans first encountered genuine cannibals and related horrible stories of shipwrecked travelers eating each other. An intellectual History of Cannibalism is the first book to systematically examine the role of the cannibal in the arguments of philosophers, from the classical period to modern disputes about such wide-ranging issues as vegetarianism and the right to private property. Larry B. Max is an unusual specialist from a little-known branch of the Internal Revenue Service, the all-powerful tax-collecting agency of the United States. Reading into tax-evasion and money-laundering rings the way a virtuoso pianist would read a sheet of Mozart, Max has every technological method at his disposal to find links between high finance and high crime. In this first album, he must look into a particularly delicate file belonging to a rich Jewish-American, known for his involvement in recovering items that were confiscated by the Nazis. Dissecting this billionaire’s accounts, Max embarks on a dangerous journey to find the mysterious origins of the man’s immense fortune.

After losing her husband in the Iraq War seven years earlier, Hannah Abbott Guthrie wonders if giving her heart to Nolan is worth the risk. Original.

Does culture matter? This question has taken on added significance since fundamentalist revivalism has recently gained ground in different parts of the world. The old controversy between Max Weber and Karl Marx, which centres around the extent to which cultural factors such as social norms and values affect economic growth is of critical importance, particularly because of its policy implications. Indeed, if culture is not an autonomous factor susceptible to influencing economic realities, it should not matter and public authorities can dispense with thinking about cultural interventions. On the other hand, if culture does have a real impact, the question arises as to whether it is conducive or detrimental to economic growth, political liberalization, and the emancipation of individuals among other things. Culture, Institutions, and Development addresses this debate at a concrete level by looking at five important issues: the role of tradition and its influence on development; the role of religion, with special reference to Middle Eastern countries; the role of family, kinship, and ethnic ties in the process of development; the relationship between culture and entrepreneurship; and the relationship between culture and poverty. This collection offers a nuanced view that neither denies nor exaggerates the role of cultural factors in explaining relative growth performances across countries. Instead, the contributors focus on the dynamic, two-way relationship between culture and development in a way that stresses policy stakes and the value of multidisciplinary collaboration between economists, historians and other social scientists. This book will be of interest to postgraduates and researchers in all the social sciences, as well as to professionals working in national development agencies, international organisations, and Non-Governmental Organisations.

Shamanic practices to access your spiritual blueprint, communicate with the universal mind, and transform in to your highest spiritual self • Explains how to tune in to imaginal cells to heal the past, activate the shaman within, and download information from the future • Includes shamanic breathwork practices and rituals to open access to your spiritual blueprint--the hologram of who your highest, best self is meant to be--and be more potent and powerful in the present We are in a highly transitional time on Earth as old structures break down in preparation for the new world that is coming. The accelerated pace of this time of spiritual evolution is forcing each of us to awaken the shaman within and reach our highest potential as quickly as possible. We no longer have the luxury of learning only from the past--we must also download information from the future in order to be fully present, fully conscious, in our most embodied and best self now. Incorporating the wisdom teachings of Seneca Wolf Clan Grandmother Twylah Nitsch with shamanic journeys and shamanic breathwork practices, Linda Star Wolf and Anne Dillon explain how to heal the past, learn from the future, and activate the imaginal cells within our human energy field. Imaginal cells are the energies of what has already happened and will happen stored in the blueprint of the invisible world. By tuning in to these imaginal cells, you can open access to your spiritual blueprint--the hologram of who your highest, best self is meant to be--and accelerate your evolutionary potential in this lifetime. Including information received by Star Wolf from the future, the book explores how to develop a communication link with the universe, receive guidance from the universal mind, and draw information from the future to be more potent and powerful in the present, live in harmony with one another and the planet, and fully prepare yourself for the new world to come. Meniere Man. Let’s Get Better.

Through an innovative and interdisciplinary approach that combines critical sociolinguistic ethnography, multi-modality, reflexivity, and discourse analysis, this groundbreaking book reveals the multiple (and sometimes simultaneous) ways in which individuals engage and invest in representations of languages and identities.This timely work is the first to consider the significance of multilingualism and its relationship to citizenship as well as the development of linguistic repertoires as an essential component of language education in a globalized world. While examining the discourses and interconnections between multilingualism, globalization, and identity, the author draws upon a unique case study of the experiences, voices, trajectories, and journeys of Canadian youth of Italian origin from diverse social, geographical, and linguistic backgrounds, participating in university French language courses as well as training to become teachers of French in the urban, multicultural and global landscape of Toronto, Canada. In doing so, Byrd Clark skillfully illustrates the multidimensional ways that youth invest in language learning and socially construe their multiple identities within diverse contexts while weaving in and out of both historic and universalistic identifications. This invaluable resource will not only shed light on how and why people engage in learning languages and for which languages they choose to invest, but will offer readers a deeper understanding of the complex interrelationships between multilingualism, identity, and citizenship. It will appeal to researchers in a variety of fields, including applied linguistics, sociolinguistics, language acquisition and linguistic anthropology.

Ever-smaller IC devices are pushing the optical lithography envelope, increasing the importance of resolution enhancement techniques. This tutorial encompasses two decades of research. It discusses theoretical and practical aspects of commonly used techniques, including optical imaging and resolution, modified illumination, optical proximity correction, alternating and attenuating phase-shifting masks, selecting RETs, and second-generation RETs. Useful for students and practicing lithographers.

Comprised of 60 challenging and musically satisfying exercises, this book accentuates dynamics, rhythm and sensitivity to tempo. With a steady progression of difficulty, these rigorous studies also strengthen the hand, build greater flexibility and enhance finger dexterity. The exercises are transposed and written out in every key. Notations for fingering, dynamics and tempo have been included by the editor.

This famous "Trumpet Tune and Air" was originally written for keyboard but seems like it was meant for a more grand orchestration! The somber, minor Air is sandwiched between the celebratory Trumpet Tune. The repeats have been removed on the return to the Trumpet Tune as the work drives to a joyous conclusion.

The small town of Delphi, Colorado wasn't like most towns. New people were always coming and going, there were large numbers of animal attacks in the surrounding woods, and a suspiciously high rate of missing persons. This was the town were seventeen-year old Eden Day had lived her entire life. Eden and her three best friends, Mel, Wes, and Jasmine love to hang out, eat junk food, watch too much television and dream about someday leaving Delphi to see the world. That was until the dark rainy night when Eden was walking home alone in the woods and was attacked by a vampire. Bleeding and broken she crawled into an old abandoned church...where she died. Miraculously coming back to life, she senses something within her is changing. Is she still human? Is she becoming a vampire? Something that would be terribly inconvenient considering she's a vegetarian. In her quest to discover what is happening to her, Eden meets Oswald Chang, a genius computer geek with extensive knowledge of the Supernatural. Through him she learns of the secrets behind her town and her newfound connections to them. As the vampire attacks increase, Eden must learn to embrace what she is becoming in order to protect all that she holds close. If she can do this while still passing English and avoiding the irresistibly charming, but equally infuriating new boy in town Eden just might have a chance of surviving till her graduation.
