The Kenya Gazette is an official publication of the government of the Republic of Kenya. It contains notices of new legislation, notices required to be published by law or policy as well as other announcements that are published for general public information. It is published every week, usually on Friday, with occasional releases of special or supplementary editions within the week. This book contains the main international commercial contracts that small and medium-sized enterprises (SMEs) will need in their trade transactions. All contracts are harmonized in structure as well as in content through the insertion in each of identical boilerplate or recurring clauses. Each Model Contract indicates the basic elements that a non-specialist should fill in or should consider when entering into an agreement. The nine model forms and the boilerplate clauses were selected on the basis of a worldwide survey of representative institutions of SMEs. The Model Contracts will be supplemented in due course with training material developed ITC.

Designed specifically for students, 'Blackstone's Statutes' lead the market in providing a carefully selected, regularly updated, and well sourced collection of legislation for the core subjects and major options offered on the law syllabus. Each title is ideal for use throughout the course and in exams.

The fourth edition of this text on all aspects of international trade law has been updated to incorporate and analyse the major recent developments, both in English law and contracts under the United Nations Convention on Contracts for the International Sale of Goods (CISG). As well as contract law, the book also covers property matters and addresses those issues which arise from the use of documents of title, such as marine bills of lading. There is extensive treatment of the rights and duties of both the buyer and the seller, and sale contracts are considered alongside other contracts such as charter parties and letter of credit contracts. The CISG material has been significantly

*Compared to domestic transactions, the risks associated with international sales are greatly multiplied. It is a rare international sales agreement to rely on minor variations of standard terms, as is so often the case in domestic agreements. Foreign laws, export/import and currency exchange controls, treaties, transit issues, inspection of goods, insurance, tariffs – all these and more – must be taken into account in contract negotiations. This is the third edition of an enormously useful book that guides practitioners through the process of drawing up sound agreements for the international sale of goods. Organized according to the framework of an annotated agreement, with detailed commentary on each provision, it incorporates hundreds of sample clauses designed to cover every contingency, including such factors as the following (and a great deal more): • definitions; • price adjustments; • labelling; • transportation modes; • confidentiality; • INCOTERMS; • documentation; • delivery dates; • limitation of liability; • arbitration; and • corruption. Although the clauses are drawn without reference to any particular country, relevant considerations are covered in the commentary to each clause.*

*Appendices reprint the texts of the United Nations Convention on Contracts for the International Sale of Goods (CISG), the UNIDROIT Principles, and the Principles of European Contract Law. For lawyers charged with drafting an international sales contract, this book is invaluable. Clause by clause, it clearly details the drafting process, commenting expertly on every issue likely to arise. It would be hard to find a more useful guide.*

*The eleventh edition of this established text provides a wide-ranging and straightforward exposition of contract law. Features such as summaries, questions, and examples, combine with succinct explanatory text to allow the reader to gain a sound understanding of the theory and application of contract law principles.*
